Injuries Sustained March 3 Are Fatal to Marco Lotti

Marco Lotti, 412 Waukegan avenue, Highwood, died last Wednesday in Lake County General hospital, as the result of injuries sustained when he was struck by an automobile in Highwood March 3.

Lotti, a bartender, was walking across Waukegan avenue when a car driven by Miss Catherine Croke, of 35 S. St. Johns avenue, struck him.

An autopsy held Wednesday evening by Coroner John L. Taylor revealed that Lotti died of a skull fracture. A coroner's jury was sworn in, and then indefinitely postponed the inquest.

Lotti is survived by his divorced wife and two children who live in Centralia, and several cousins living in Highwood.

Funeral services were held Saturday from Seguin and Logan Funeral home on N. Second street to Immaculate Conception church. Burial was in St. Mary's cemetery.

missioner Gourley with an eye toward avoiding a possible controversy with Highland Park's tree lovers suggested that the removal of the tree be formally requested by the Garden club. Commissioner Swanson stated the Garden club had voiced no objection to the removal and could see no legitimate reason for further delay. Upon a vote of the council the tree was officially sentenced to die by a vote of four to one with Commissioner Gourley dissenting. Thus ended the drama of the tree. In youth it might have sheltered the Mayor, but he was unable to reciprocate in kind at Monday evening's council meeting.

The report of City Engineer Cole and Superintendent of the Water Department George Prindle on the prospective new 16 inch water main on Green Bay road between Central avenue and Edgewood drive came in for considerable discussion by the council. As readers of this column will recall this project was recommended to the council late last fall for the purpose of rendering an ade-

quate and southeastern section of the city particularly during the peak load water demand periods. The existing main is not able to meet the necessary requirements at these times. The current project calls for the installation of the Green Bay main only, with cross connections to the eastern part of the city planned for a later date. The new main is to be put down Green Bay rather than on an east side thoroughfare to render it accessible to the southwestern part of the city when that area is later developed. The cost of the new main is placed by Mr. Cole at around \$64,000. In address-

ing the council, Mr. Prindle stressed the importance of making this much needed improvement. He stated that in spite of the loss of the Highwood contract, more water would undoubtedly be pumped this year than in any year in the history of the water department.

In the interest of public safety, Commissioner Swanson suggested something be done about the parking problem at Roger Williams and St. Johns avenues. To allow more room on St. Johns it was finally agreed to try parallel rather than diagonal parking.

At Monday evening's meeting the council authorized the city to start preliminary engineering work on the Green Bay road paving and widening project which is slated to get under way sometime next Fall or next Spring. This action will allow the utilities and the city itself

to get all their preliminary work out of the way before the main part of the job is actually started. The cost of this project which is to be paid out of a special fund set up in Springfield for this purpose will amount to around ninety or a hundred thousand dollars.
