CHRISTIAN SCIENCE CHURCHES

"God the Only Cause and Creator," was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, June 9.

The Golden Text was, "Ah Lord God! behold, thou hast made the heaven and the earth by thy great power and stretched out arm, and there is nothing too hard for thee" (Jeremiah 32:17).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "Then he called his twelve disciples together, and gave them power and authority over all devils, and to cure diseases. And he sent them to preach the kingdom of God, and to heal the sick. And they departed, and went through the towns, preaching the gospel, and healing every where" (Luke 9:1, 2, 6).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "There is but one primal cause. Therefore there can be no effect from any other cause, and there can be no reality in aught which does not proceed from this great and only cause. Sin, sickness, disease, and death belong not to the Science of being. They are the errors, which presuppose the absence of Truth, Life, or Love. The spiritual reality is the scientific fact in all things" (p. 207).

Art Classes to Be Offered at Y.W.C.A.

A new departure in the already busy useful schedule of opportunities and pursuits is organized by the Y.W.C.A. when Miss Helen Beach begins her Art lessons on Saturday morning, June 29, at 9:30. These classes are open to all boys, girls, and adults in this community who are interested, and the beginning of vacation and the desire to have some interesting endeavor will appeal to many. There will be terms of four and of eight lessons, the first one of which will be sketching from a model and clay work. The second landscape painting, the third figure sketching, and the fourth optional. Four bus trips have been planned and various inspection trips to gardens, farms and factories.

Miss Helen Beach holds degrees from the University of Chicago and the Art Institute. She taught five years in the children's art department at the latter, and has conducted classes in Wilmette, at the Recreational Center in N. W. University and in Winnetka.

She has been very successful in developing great talent in many who had never suspected their ability to paint, draw or model, and was appointed a member of a committee to visit Mexico whose mission was to further educational relationships between that country and ours and while there studied arts and crafts of Mexico, and sponsored exchange art exhibits since then, between the two countries.

Registrations at a nominal price may be made for both the Art Classes and the bus trips or for either, by calling the Y.W.C.A.
