

### Summer School Begins June 17-24 At Lake College

Lake college set June 17 and 24 for the opening of its summer session. A special course is being provided for university students and high school graduates planning on attending universities in the fall.

Regular courses will include secretarial training, accounting, stenography, comptometry and dictaphone. Summer enrollments will give young people interested in business life a two-months' advantage over those waiting for the fall opening. Efficient methods and rapid training in business skills—each student advancing individually as rapidly as assignments are completed, thus saving both time and money—are outstanding features of Lake college.

Lake college has been very successful in placing its graduates in worth while positions. The success of past student graduate placements has laid a foundation for repeated requests from employers of Lake county and the North Shore.

A survey made recently covering the past several years shows a 99 per cent placement of the graduates of Lake college. This year's placement record will be equally high.

Mr. Alfred P. Sloan, chairman Board of Directors, General Motors corporation, says, "There is a job waiting for every young person who is well trained and adequately prepared for some special line of work."

The Employment department of Lake college has been very busy during the past month. Permanent positions have been secured by students who have completed their work. The young people who have been placed in positions since May 1 are:

- Faulkner, Avis — Grays Lake; Creamery Package Co., North Chicago.

## LIBRARY

**Summer Reading**  
 Vacation is here and with it the customary summer reading, conducted from the Children's department of the Highland Park Public Library.

A light blue leaflet which represents a plan of the books as arranged in the children's room, is given to each child registered. Any child who has completed the second grade may participate. The reading material may be chosen from the entire collection according to individual desire and need.

The books thus read and reported on will be entered in the proper place of the plan and its place marked with gay-colored crayons.

At the close of the reading project in the fall, blue and gold stars will be awarded at an informal gathering in the Library auditorium. Of the seven books required for a blue star, at least two must be non-fiction; of the twelve books required for a gold star, at least three must be non-fiction.

Our reading project has a double purpose, first to provide material for relaxation and fun during the summer vacation and secondly to cooperate with the schools in sustaining and continuing the work accomplished during the school year.

As in previous years we extend a cordial invitation to all children, and it is our sincere hope that as many as possible may be able to take advantage of our summer reading.

During the summer months Miss Elizabeth Dunham is acting as assistant in the Highland Park Public Library. Miss Dunham is a graduate of Cornell college at Mount Vernon, Iowa, and of Peabody Library school at Nashville, Tenn. She has also had two years experience as assistant in a public library.

Following its custom of a number of years, the Highland Park Public Library is making a special arrangement for adults and children who wish to take books with them on their vacations.

### Arlington Park's Racing Season To Open Monday, June 24

The racing spotlight swings to Chicago next week when Arlington Park's \$450,000 race meeting opens on Monday (June 24).

These 30 days of racing top the national schedule in point of interest and it is probable that Bimelech, winner of the Preakness and the Belmont Stakes may clinch the 1940 3-year-old championship. His chance will come in the Classic, July 20. Galahadion, winner of the Kentucky Derby, is also among the nominees and the Mar's colt will have an opportunity to prove his Blue Grass venture was not a fluke.

Other highlights of the meeting are the Futurity, for 2-year-olds, which is likely to gross \$55,000; the Stars and Stripes, set for the big holiday card of July 4. Seven stakes in all make up the Arlington schedule.

President John D. Allen and the new group of owners have raised purses and their efforts have been rewarded by the assurance that most of the big nationally-known stables will race at Arlington Park.

Every Monday will be ladies day. There will be distance racing every Wednesday and the Saturday programs will feature the stakes. Racing Secretary Robert S. Sheeley is scheduling a number of races over the grass infield course and these may turn out to be a highlight of the meeting. Many horses have been shipped here from England and France because of the war and with the influx of the South American thoroughbreds there should be large fields competing over the grass course.

Saturday evenings will be quiet ones in Evanston this summer according to plans of local stores announced this week by the merchants' division of the Chamber of Commerce.

The recommendations of the merchants' division were announced following a canvass of its membership during the past few weeks, it was stated by William P. O'Donoghue, chairman. Under present plans, stores will close at their regular daily hours Saturdays from July 6 through August 24. The individual closing hour will vary, however, with individual custom in the case of each store. In some cases, stores will carry out the plan to the extent of closing early Saturday afternoon.
