Hospital Facts by Crawford

My first impression of the Highland Park hospital was that it is a little city housed inside walls and ceilings. Many residents in Highland Park do not realize how completely modern our hospital is. It has everything from a miniature laundry to ice machines... served by hospitals and 1,250,000 lives saved by them.

Our hospital is one of the essential characteristics in our modern life. The school takes care of education. Our churches give us our spiritual needs and lastly, our hospitals render us physical needs. We no longer think of the hospital as a gloomy place where sick persons are housed, but instead we KNOW our hospital to be a modern, cheerful edifice that cares for us in time of distress.

"HELLO ADOLF" by J. W. Crawford

(EDITOR'S NOTE: This is an imaginative personal correspondence of a Highland Park resident to Adolf Hitler. The latter's reply is fictitious also. All references to persons living or dead are purely intentional. This material is written solely by the author, and is not the policy or in any way connected with the publication.) Dear Adolf: I suppose I should call you "der Fuhrer," but seeing I am just a plain American, I'll call you Adolf. Nothing has happened here since I last wrote, except the government's appropriation of many billion dollars to defeat your inevitable ambitions in the Western Hemisphere. By the way, I noticed your mustache was a bit ragged in your latest photo. People over here are having about it... you must think of your personal appearance as well as your ambitions. Please say hello to the Nazi official greeter for me. Last time I heard of Herr Himmler he was planning a "secure" future for the French people in air-cooled concentration camps. He is so thoughtful Adolf... but when you tire of him, just send him to one of his own "resorts" for a stay. Concerning German propaganda. It isn't going so well as you expected. The American people, for some reason, just don't go for that stuff Herr Goebbels sends from Berlin. I guess they don't understand Nazi lingo about having a "pure" population. Construction of anti-tank barriers won't be necessary in France. If British tanks ever roll on French

soil again, the thousands of crosses in Flanders should retard them. Well, write when you find the time. And be sure to put plenty of TNT in those bombs for English towns. I am sure English women and children appreciate the "favor" you're doing them. Now they won't have to clean house anymore or wait up for their husbands... because they won't have either. AN AMERICAN

Berlin, den 11, Juli 1940 Dear American: I am aware of the interest you show in my constructive work. Most of the world doesn't understand me. They think I am doing this for sheer glory and pleasure. That supposition is precisely wrong. I crushed France for the specific purpose of obtaining more land for my 80,000,000 Germans. I am going to smash Britain because I cannot go back on my word. After all, one must keep his word, mustn't one? My power is growing every day... you no doubt read of my great feats in your newspapers. Of course England has quite a navy, but hasn't my Hermann, with his air force, taken good care of them already? As for the countless crosses in France stopping tanks... why else do you think I would have built them, if I built them I am slightly worried over Heinrich... his lady friends get on my nerves terribly. You've probably read about my nerves. He has constructed only 10 concentration camps near Paris in the past weeks, when he knows I expected many more. How else can I murder my captives. After all, slow starvation is a very humane method. It's done in the best of Nazi circles. You mentioned placing more TNT in bombs for the English. It is too good for them. I am trying to improvise bombs that will kill them gradually, and not spoil it all with instantaneous death. After all, one must mix a little pleasure with his work, nicht wahr? Auf wiedersehen. Ihren ergebenen, ADOLF.

Lake Forest Day Homecoming Plan Of American Legion

Lake Forest Day, Wednesday, August 7, will be a legal holiday in Lake Forest according to the plans of the committee of Legionnaires who annually direct the celebration. Mayor Richard Mabbatt has agreed to issue a proclamation that will authorize business to stop all day on Lake Forest Day. Special emphasis is being placed on the parade this year which will be the new feature of the celebra-

tion. Chairman Sorenson said that the parade will form at Farwell Field at 10 a.m., march west on Illinois Road to Western Avenue where it will turn north to Market Square, circle the Square, continue north on Western to Westminster, turn west to Green Bay Road and from there north to West Park. Prizes will be awarded for the best decorated floats, doll buggies and bicycles. Further information may be obtained from Chairman Sorenson.

All booths and concessions will be open from early Wednesday morning until the final closing hours. Members of the Legion Auxiliary Unit are planning to provide more food this year so that residents may obtain lunch on the grounds.

In recent years, Lake Forest Day has come to be "homecoming day" for former residents. Chairman Caspersen urges all residents to cooperate with the Legion committee in making the 1948 Lake Forest Day the biggest "homecoming day" in Lake Forest's history. He promises that there will be entertainment that will appeal to persons of all ages in addition to the usual baseball games, races and dancing. Redeemer Lutheran Church West Central at McGovern W. Why Not Talk It Over With Your Husband?

Tell him how very necessary hot water is for the bathroom and laundry, for washing dishes and cooking, and for those scores of other things about the home. (The chances are he's never given a thought to hot water outside of shaving and for his bath.) We predict he'll be very much interested in a modern

AUTOMATIC GAS WATER HEATER

... how merely by the turn of the tap any minute of the day or night, it provides all the hot water anybody wants at a low operating cost.

5 YEARS TO PAY Small Down Payment

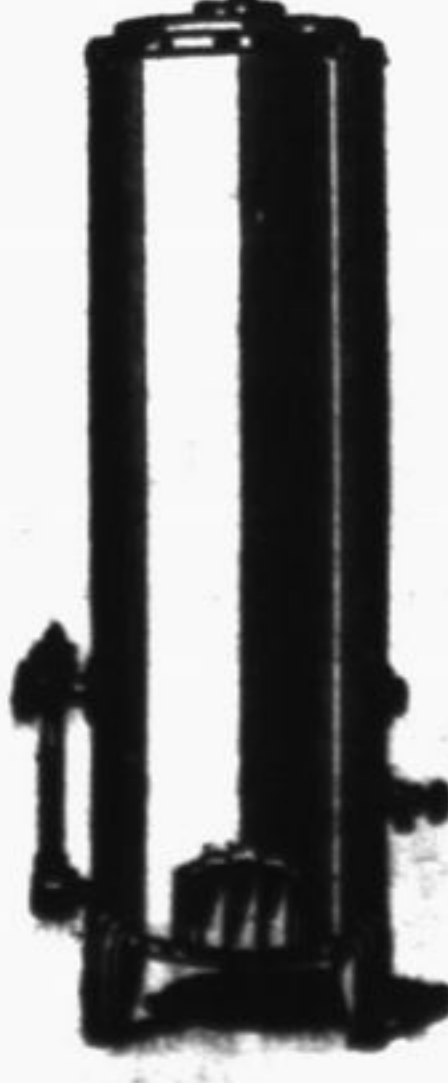

A down payment as little as \$1 places an Automatic Gas Water Heater in your home. And with 5 years to pay the balance, the money will hardly be missed.

90 DAYS' APPROVAL No Installation Charge

If you are not satisfied within 90 days, it will be taken out and your former equipment replaced.
