Leo Kopp Guest Conductor at Third Concert in Wilmette

Leo Kopp will be guest conductor of the Illinois Symphony Orchestra and Victor Carell, baritone, will be the guest soloist at the third concert of the fifth summer season of free "Starlight Symphonies" at the Wilmette Amphitheatre, Wilmette, on Wednesday evening, July 24th.

Mr. Kopp, now an American citizen, was born in Budapest. Originally intending to become a chemist, he decided upon music as a career upon entering the University and Conservatory of Music in Leipzig, studying under Leo Weiner, Paul Graener, and Vincent d'Indy. From 1923 to 1930 he was heard extensively in Germany as a conductor of both opera and concerts. He was brought to America in 1930 by the late Egon Pollak and ever since has been on the conducting staff of the Chicago City Opera company. He annually conducts a summer season of concerts by the Minneapolis Symphony Orchestra in St. Paul.

Victor Carell, the soloist of the evening, will make his debut with the orchestra. Now 23 years old, he began the study of voice four years ago in Sydney, Australia, where he was born. He was graduated from the St. Joseph college of that city, and continued his musical studies in Italy.

Conductor Kopp will open the program with Wolf-Ferrari's gay Overture to "The Secret of Suzanne," and continue with the featured symphonic work of the program, the Symphony in B Flat Major by Chausson. Next will follow a set of symphonic improvisations on Stephen Foster's "Oh Susannah" in the styles of Bach, Mozart, Schubert, Brahms, Liszt, Debussy, and Gershwin by the contemporary Hungarian composer, Alexander Laszlo.

After the intermission, Victor Carell will sing two arias with the orchestra, "Non piu andrai" from Mozart's opera, "The Marriage of Figaro," and "Nemico della Patria," from Giordano's opera, "Andrea Chenier."

Mr. Kopp will then conduct his own "Six Sketches of St. Paul," a work which received its first Chicago performance by the Illinois Symphony Orchestra last February. The concert will conclude with Paul Dukas' whimsical tone poem, the Scherzo, "The Sorcerer's Apprentice."

A major reason for fatal accidents at night is overdriving your headlights, says the Illinois Automobile club. You can't drive safely at the same speed you do in the daytime. Slow down, so you can stop in the distance you can see ahead.

Statistical Facts In Relation to Handling Convention

The Chicago Stadium mammoth home of six day bicycle racers, boxers, hockey players, rodeos and circus elephants and Sonja Henie is now housing its second Democratic convention. This task-plus maintenance during meeting days—will consume 62,024 man work hours, employ 1,246 persons and cost \$220,857.00.

These facts were included in statistics obtained from Donald S. MacLeod, Stadium manager and from Thomas Garry, city superintendent of sewers and head of the work of refurbishing the Chicago hall.

On the basis of a normal five day convention, it was estimated that 20 radio announcers will speak 612,000 words into microphones of the three great broadcasting systems; the Mutual network, National Broadcasting company and the Columbia Broadcasting system. It will cost these chains approximately \$42,000 to set up the broadcasting facilities and report the convention. A total staff of 90 persons will be engaged in this work.

Readers of 3,250 newspapers throughout the world will be bombarded with an estimated 12 million words from the convention hall. In order to make this possible, the Illinois Bell Telephone company, the Western Union and the Postal Telegraph companies have strung 719 miles of wire about the Stadium and from there to the loop. They will employ 375 workers, operating 18,520 man hours, and incur an expense of \$110,000 in this task of transporting the stories of 1,900 working newspaper men.

The chore of feeding the hungry Democrats and spectators, expected to total 117,500 persons during the convention has been assumed by Jacob Bros., concessionaire. He expects the Democrats to consume 75,000 hot dogs, 125,000 bottles of pop, and 100,000 bottles of beer. This is not an abnormal taste among Democrats for this type of victual, Jacob Bros. said, estimating the same number in any meeting would take aboard a like load. Other items he expects to sell to the convention gathering are: 30,000 gallons of draft beer, 20,000 ham sandwiches, 10,000 roast beef sandwiches, 5,000 cheese sandwiches, 75,000 ice cream bars, 25,000 bags of peanuts, 25,000 bags of popcorn, and 150,000 cups of coffee.

They expect the convention crowds to purchase \$89,250 worth of tidbits and also plans to sell 20,000 souvenirs. These include badges, pictures of President Roosevelt, donkeys, the American flag and ash-trays.

Jacob Bros.' cost of stocking up and preparing for business was approximately \$20,000. They will employ 200 persons who will work 12,000 man hours to satisfy the appetite of delegates and spectators.

Decorations in the Stadium, which will call for 612 American flags and 3,000 yards of bunting, will cost Chicago \$3,900, including the cost of labor for putting them up.

The loud speaker system, a three ton affair, which will hang over the speakers' platform, cost \$9,500 with installation labor. This mechanism is designed, according to Mr. MacLeod, to do away with feed-backs. A feedback is the echo which at previous conventions has made speakers sound as if they were concealed in a barrel. In addition to the new loud speaker system the convention will have a floor broadcasting system with a microphone for each state delegation. This will cost \$5,000 before it is ready for its five day operation, and the loud speaker system utilized eight miles of wire in installation.

A total of 70,000 feet of lumber is being used in construction of the speakers' platform, radio booths, and press headquarters. Twenty-nine carpenters are busy putting the 70,000 feet of lumber in place. They will use approximately 4,944 work hours and get paid \$8,157 for the work. They are aided by 20 laborers who will draw \$2,100 for the convention period.

Andy Frain's ushers, 400 of them, will seat the convention visitors and will be paid an estimated total of \$10,000. The convention maintenance staff will include 26 watchmen, working 60 hours, at an expense of \$780; two engineers, three switch-board operators, six electricians, 40 janitors, and 10 laborers.

Al Melgard, the Stadium organist, hasn't been idle, either, during the convention preparations. He has written a convention song, named "Here Comes an American," and he plans to play it first chance he gets when the convention gathers. He suggested "Happy Days Are Here Again" for the 1932 convention theme song. They've even had a practice demonstration at the Stadium; 350 delegates to the Firemen's and Oilers' convention dropped in the other night and paraded around the hall and shouted. Sixty of them were convention delegates and they seemed to enjoy it.

HAY FEVER

by CRAWFORD

The scourge of the summer months is here . . . just in time to spoil thousands of vacations. Highland Park hay fever victims suffer the same as the rest of the Northshore unfortunates, and probably more due to the shameful growth of ragweed on the outskirts of our city, and even within its boundaries.

Webster's defines hay fever as "a catarrh, accompanied by itching, sneezing, slight fever, and pains in the head, usually appearing in summer."

This dreaded "epidemic" is basically caused by the pollen of the Gramineae, and varies in its severity according to certain atmospheric conditions and the amount of pollen in the air. Removal to the seashore and high altitudes helps in some cases.

Why should many of our residents flee to "mountainous regions and seashores" when we can help make Highland Park a relief haven instead of a ragweed center?

Hay fever can be alleviated somewhat in our community . . . many organizations throughout the nation are constantly fighting it, simply by annihilating ragweed. We should feel morally obligated to tear out this ugly weed by the roots in our vacant lots and nearby fields.

Ragweed flourishes untouched in nearby points. The Skokie marsh is mostly ragweed, and the fields in southwest sections of this city are full of it. Ragweed is found everywhere . . . in beautiful gardens and garbage dumps . . . it grows anywhere, but particularly where there is rubbish.

O. C. Durham, international authority on pollen and other airborne allergens, states: "The wet weather that we have had this spring has stimulated the growth of ragweed." This means that hay fever sufferers are destined for a dreadful August. We can help them best by killing the weed ourselves and taking municipal action in the destruction of it in our marshes, city dumps and unkept fields.

Let's do our part and help hay fever sufferers all we possibly can. Who knows, one of us may be next to contract this irritating disease.

Plan Furnishings Carefully If You Want Model Home

If you've ever looked with envy at pictures of well-planned rooms or wondered how model houses got that way, remember that your home can be just as attractive if you plan it with judicious care for line and color, says Anne Ames, home decoration advisor for the Chicago Real Estate Board.

As a result of the more than 70% increase in new homes in Chicago and suburbs, Chicago furniture merchants and interior decoration experts, attending the July Furniture and Home Furnishings shows at the American Furniture Mart and Merchandise Mart, have recognized the necessity for helping these new home owners in Chicagoland make selections. This need gave rise to the "ensemble" idea, which means simply coordination of the architectural style of your home, furniture, lighting fixtures, wallpaper and draperies, rugs and accessories.

Mix styles if you will, says Miss Ames, but mix carefully lest you end with a hodgepodge confusion of unrelated styles and colors. You need not be an architect or interior decorator to do your own home furnishing and do it well. But you should know fundamental types of architecture and have a general idea of furniture trends you want to follow.

A good general rule is to use furniture and architecture that were developed in the same period. But don't follow this rule too closely, since there are styles of furniture that fit with types of architecture originated much later or earlier.

Keep to simple lines, plain designs in furniture, if that's the way your house is built. If your new home is modern from its flat roof and straight sides to its basementless ground floor, you need not go in for chromium and bright leather unless you like it. Modern furniture styles are much like simplified Colonial or Federal American. The designer of contemporary furniture, works in simple tempo, but is not averse to restrained decoration.

There are any number of styles and color combinations to choose. If you want furnishings that will stand the rise and fall of style trends within the next quarter of a century, you can buy period furniture that conforms in line and type to modern architecture. Simple furniture will fit in if you move or buy a new home.

The functional style so evident in today's furniture is even more noticeable in furnishings for children's rooms. You can buy a set of maple furniture in early American design that Johnny or Mary can use from the time they're four or five until they're almost grown. Changes of accessories, draperies, rugs and wallpaper are all that's necessary to make the transition from nursery to living quarters for teen-agers.

As for accessories, draperies, rugs and wall coverings in other rooms

ent marshal. The mayor also complimented the entire force on its work during this interval.

Commissioner Swanson again brought up the problem of stolen street signs and what to do to prevent further vandalism of this type. Mayor Ronan was of the opinion that this was a matter for the police department to handle and that it probably would help matters if one or two of these sign thieves were arrested and made an example of.

Commissioner Swanson recommended that the interested property owners on Central Ave. be brought together for the purpose of mapping out some extensive curb rebuilding work on that thoroughfare.

The city council formally passed the 1940 tax levying ordinance that was recently placed on file for inspection.
