Let's Go Into a Huddle About **GAS HEAT FOR THE HOME**

Now, before cold weather comes, is the time to get the facts about the comforts and conveniences of heating your home with gas.

No more trips up and down basement stairs to the furnace, for example. No nursing of fires. No waiting or worrying. No shoveling of coal and ashes. No dust. No dirt.

Automatic Heat

Instead of all this, you light the gas once and the job is done for the winter. And the home is cozily warm always, regardless of sudden temperature changes. For the heat is automatically regulated and controlled, and you can have as much or as little as you want merely by adjusting the thermostat in your living room. It's as simple as that!

Economical, Too!

Even the dollars and cents cost is doubtless much less than you think, without considering all these other benefits.

Let us give you an estimate of the cost of installing and operating a gas home heating plant. This service is FREE. No obligations!
