70th Anniversary Of Lake Co. S. S. Ass'n. at Milburn

The seventieth anniversary of the organization of the Lake County Sunday School Association will be observed on Saturday afternoon and Sunday evening, October 12 and 13, at a convention at the Millburn Congregational church. The program will begin at 1:30 p.m., with a song service and welcoming address by Rev. Melvin L. Frank, pastor of the convention church. This association was organized at Millburn, on Sept. 20, 1870, in a small oneroom church, replaced since by the modern edifice in which the anniversary convention will be held.

Recently, an old copy of the Waukegan Gazette, dated Sept. 24, 1870, was found, containing an account of the organization of the Lake County Sunday School Association. providing much new and interesting information about the early history of the association which is rooted so deeply in the religious annals of Lake county. It was with much interest that the officers of the council, Wm. C. Haltenhoff, president, of Lake Forest, Irene Rockenbach, secretary, of Deerfield, and H. D. Faxon, trustee, of Highland Park,

the great evangelist and founder of Moody church, in Chicago, was one of the organizers of the county Sunday school association and delivered the first address of the convention. John V. Farwell, of Lake One delegate to the 1870 convention Forest, was elected the first president at that meeting. P. L. Bliss. composer of so many early gospel hymns, was present, and sang from manuscript his hymn "Hold the Fort," presumably the first time it was sung in public. The Gazette mentions several times the "sweet music" which enthralled the delegation at that early convention. The assembly was in session two days, and the very large delegation, coming from every town Yesterday, Today and Tomorrow.' in the county in buggies, wagons Dr. Artman is a nationally known and on foot, was entertained over educator, writer, and lecturer. He night and for meals, free of charge, for the entire period. Mr. E. S. Wells of Lake Forest and Rev. Geo. L. Wrenn of the Highland Park Baptist church, were among the speakers mentioned, also R. S. Thain, of Chicago, a publisher, who described the "new uniform lessons" just coming out, which series of lessons meant so much to the growth of the Sunday school movement throughout the entire country.

convention this year at Millburn

include the introduction of several former presidents of the organization, and other early workers to whom special invitations are being mailed. L. J. Yager of Waukegan will respond to the introductions. -Mrs. James H. Bonner of Millburn is expected to be present. She was 13 years of age at that time. A brief sketch of the history of the association after its beginning in 1870 will be presented by the secretary, Irene Rockenbach.

The anniversary address will be delivered by Dr. Joseph M. Artman, of Chicago, secretary of the Religious Education Association. His topic will be "Christian Education, is editor of "Character."

A reception and social hour will be held in the church dining room at the close of the Saturday after-

On Sunday evening, Otober 13, at 8 p.m., a young people's rally and conference will be held, under the direction of the county young people's committee, Ruth Minto of Millburn presiding. The speaker of the evening will be Rev. C. N. The plans for the anniversary Wright, paster of the Ravenswood Presbyterian church, Chicago, For

years Mr. Wright has been active in work with young peolde, and instructor at summer camps and schools. He was formerly director of Religious Education at Fourth Presbyterian church, Chicago.

Local Loan Ass'n. Insured by Federal Loan Corporation

Savings invested in share accounts in the Highland Park Building, Loan and Homestead association are now insured by the Federal Savings and Loan Insurance corporation, an instrumentality of the United States, Walter E. Meierhoff. secretary of the association, an nounced today upon receipt of Certificate of Insurance from Wash ington. Each individual investor in the association now has this addicooker and vibrator, hitching post, and-irons and grate, incinerator, oriental run-ner, mirror, croquet set. 115 Michigan Ave., Highwood, Tel. H. P. 2106. A31 tional protection against loss of his investment up to \$5,000.

The Insurance Corporation created by Congress in 1934 establishes a further protection for investors in thrift and home-financing institutions beyond that afforded by the assets of the association which are chiefly first mortgages on well selected homes occupied by their owners. "Since insurance is extended only to strong, well-managed thrift institutions, our association stands thus approved as to its policies, operating methods, and the soundness of its assets," said Mr. Bowen E. Schumacher, attorney for the Highland Park Building, Loan and Homestead association. "All accounts now on the association's books and future additions thereto are covered by insurance up to \$5. 000, for each investor regardless of the time they were opened, and, of course, all new accounts will be ingarage, entire house thoroughly insulated

Mr. Meierhoff further said that the Highland Park Building, Loan and Homestead association is now in a position to meet the homefinancing demands of local citizens and give the borrower as great a service as the saver. In connection with the program of obtaining federal insurance, this association has obtained subscriptions to \$24,000 of additional paid-in shares and new shares calling for monthly installment payments in excess of \$500 per month additional. This wil mean that the association will be in a position to meet the loan demands which its board of directors feel will be made upon it. Perhaps the most attractive feature of the association loan program is the direct-reduction plan of re-payment through which the borrower reduces the principal of his debt by monthly installment, paying interest only on the unpaid balance, the association's secretary pointed out.

The local association is a member of the Federal Home Loan Bank No. 5 C.S. for the widening of the existing System which affords a central reserve of long term credit, which membership provides the association with an additional source of funds over and above those received by public subscriptions, enabling it to ment of certain existing concrete sidewalks increase its volume of home-financing, Mr. Meierhoff explained.

Large Registration For Adult Classes

The largest advance registration in Adult Education courses was taken on Monday evening, September 30. This seems to indicate that the total enrollment will be the largest in the history of the project in Highland Park.

The Monday evening class in Badminton is already filled and only a few places are still available in X31-32 the Badminton group for Wednesday evenings.

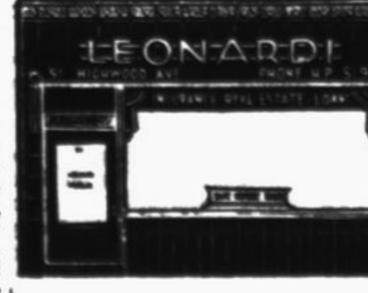

> Heavy enrollment was also taken in Woodwork, Metal Work, Typing, Public Speaking and Sewing.

> More than ten persons were enrolled also in Upholstering Beginning Shorthand, Bookkeeping, Pho-

tography and Business English. More applications are necessary in Business Law, Archery, Leatherwork, Bookbinding, Cooking, Mechanical Drawing, Painting and English Literature. However, the council believes that all the courses being offered will be filled sufficiently to insure their continuation through out the term.

On Monday evening members of the Highland Park high school Student Council will act as guides for the adults. They will be stationed in all the buildings occupied by the evening classes.

Those who intend to register on Monday are urged to come between 6:45 and 7:15 in order that they may be able to get to the various classes on time.

Administration By ELMORE Comments M. MURPHY

(Continued from Page 1)

brought up for a few moment's discussion. At the current writing the Chamber of Commerce is circularizing the business district in an attempt to bring about an agreement on a standard light for this section of the city. When the curb and street widening improvement on East Central avenue was recently completed the old poles were removed to make way for a modern and more serviceable type of light. As it is taking longer than anticipated for the property owners in the business district to make up their minds what type of light they want, it was suggested that a temporary light be installed. However, since there are no poles available in this area, a temporary light seems to be economically out of the question. Commissioner Swanson was instructed to further investigate the matter for early report.

Commissioner Swanson reported that the taxicab parking lot on the west side of the tracks had been gravelled and appropriately fenced and was now in operation. The fencing was placed three feet back of the lot line with the thought in mind of persuading some civic minded florist to donate shrubbery to beautify an otherwise rather unattractive spot.

At the close of the meeting Mayor Ronan told of a recent gathering for the purpose of improving the North Western station area largely through the medium of landscaping. It was agreed at this meeting that the physical improvement of the area would have to wait until the traffic problems long inherent with the district were satisfactorily worked out. The thought in mind at the moment is to have all traffic through the station move from the north off Central avenue south to Laurel. This arrangement, it is believed, would eliminate much of the tangle now being caused by allowing traffic to move haphazardly in all directions. The details of working out an equitable solution to the problem have been placed in the hands of the police department.

When the traffic problem is eliminated the improvement of the grounds by the installation of shrubbery and trees will be carried out. Both the Men's and Women's Garden clubs have promised their cooperation and supervision of this part of the work. It is the aim of these and other interested organizations to give Highland Park a station area comparable in beauty to any along the North Shore.

Co-Ordinating Council Makes Plans for **Halloween Party**

Under the leadership of Milton H. Stein the Highland Park Co-ordinating Council met last evening to discuss many plans. Nearly 40 persons attended the meeting.

The by-laws which were accepted indicated that the council has several real tasks ahead. To have a community calendar is one of the jobs. Then quarterly to carry on some civic activity that will be helpful to the community as a whole. Activities such as Hallowe'en parties, July Fourth celebrations are examples.

Lester Ball, Supt. of Schools of

Deerfield, then talked to the point and with much interest of what co-ordinating councils were and how they can be of service to a community by being an advisory (not a legal) group that can do much to iron out many community problems. He felt that our community was well suited for a council, and that after the hard work of forming the group had passed we should see real benefits to the community from such a body. Some things a council can help with according to Lester Ball were: To help bring a unity of purpose in a community, avoid duplicity of effort, and above all he advised that all groups must work together to really get something done.

The work of the calendar committee was reported upon by Mrs. Theo Osborn. Fifty-six different agencies have reported to this committee information for the calendar, and for the next eight months the calendar has already 716 entries made upon it. There are two copies of the calendar, one at the Chamber of Commerce and Mrs. Theo Osborn has the other. Either person will gladly give out needed calendar information. Also at the Chamber of Com-

merce there will be posted a list of all organizations in Highland Park and the president's names.

Miss Elizabeth Bredin was appoint ed to the Board of Administrators. Hallowe'en was discussed as was the part that the council could play in helping to get one or many community parties started. Citizens are to meet next Thursday evening Oct. 10, at the Community Center. 21. At this meeting youngsters as well as grownups will help plan for Hal-

Student Pastor at Bethlehem Church

The Evangelical Seminary at Naperville, Ill., made its annual appointment of senior ministerial students to the various Evangelical churches in the Chicago area. Mr. Aldine L. Riter of Findlay, Ohio, has been appointed as the student pastor of the Bethany Evangelical church of this city and will assume his new responsibility on the coming Sunday. Mr. Riter will carry on his work in the local parish on Saturdays and Sundays under the direction of the pastor, Rev. H. F. Siemsen. It is the plan of the Seminary to have the pastor of the local congregation give the student pastor every type of pastoral and ministerial experience during his period of internship. The members and friends of Bethany are looking forward to meeting the young man who has been assigned. A large part of Mr. Riter's time in Highland Park will be given to the young peole's work in the local church. This is the tenth year that Bethany is participating in this cooperative venture with the school at Naperville. The young men thus trained are now carrying on splendid work in various areas of the United States and one of the group is a missionary in British East Africa.

May Have Coast Guard Seaplane Base at Waukegan Harbor

Democratic Candidate for Congress John Haderlein, 10th District has just returned from Washington, bringing back word of the possibility of the establishment of a coast guard seaplane base in Waukegan harbor. Mr. Haderlein has asked for the aggressive support of United States Senators Scott Lucas and James Slattery, as well as the majority of Democratic Illinois Congressmen, to secure this coast guard seaplane base for Waukegan.

Mr. Haderlein explains that the nearest seaplane coast guard station is now at Traverse City, Michigan. Other coast guard stations in this vicinity, in addition to those in Chicago are at Wilmette and Kenosha. Declares Haderlein, "The Traverse City seaplane base is not quickly adequate to serve lower Lake Michigan. Increased lake traffic in Lake Michigan calls for more preventative safety work by the coast guard. The establishment of a seaplane base at Waukegan would greatly supplement the life saving and safety work now performed by the coast guard. The Treasury Department has completed its surveys of the entire great lakes region; they are going to do something to increase their coast guard activities in this section of the country. Seaplanes are becoming more and more an important part of the coast guard activities; I know of nothing more important, among the many governmental projects being considered for establishment in the 10th Congressional District, than the getting under way soon of this coast guard seaplane base in Waukegan harbor. It will continue to have energetic support; I am gratified over the promised co-operation of Senators Lucas, Slattery and Illinois Democratic Congressmen with me in this matter."

Says Equal Rights Amendment Plank Is Now Out-Moded

You who are wondering what the two national parties have to offer in the way of policies to support or renounce might well consider the so-called equal rights amendment plank in the Republican party plat-

Quoting Mrs. Raymond S. Simons of Highland Park, a vice-president of the Illinois League of Women Voters, "We see an out-moded idea brought out of the attic when the Republican platform committee was prevailed upon to bring out the poor old equal rights amendment and to brush it off. In the pitiless light of 1940 you can certainly see its moth-

"In grandma's day women didn't vote or hold office. They didn't have any right to manage their own affairs. In that day legal equality or identical laws with men would have been a step forward for them, Now we have the ballot and we use it. What we want for women is not the type of equality we would get thru identical laws but opportunities for the fullest development for all women. That, in a Democracy, is true

"This equal rights amendment would take away from women in industry their eight-hour day and their minimum wage. It would take away from wives who make an economic contribution in the home any right to support from their husbands. It would render invalid all laws treating men and women differently and would substitute nothing in their place. This would make our laws and courts uncertain and chaotic and confuse administration of estates and property laws until Congress had decided whether men and women become of age at 18 er

Mrs. Simons concludes that "this ion't the cort of garment we need for our 1940 American world."
