Modernize by Installing an AUTOMATIC GAS WATER HEATER

If you are depending upon furnace coils for your hot water this winter, remember that 1 of every 5 shovels of coal... 1 in every 5 tons... is used to heat your water.

That costs money! Too much when compared with the economical Automatic Gas Water Heater, which gives you hot water on tap every minute, winter and summer, for only a few pennies a day!

90-DAY APPROVAL FREE INSTALLATION

If you don't think there's a difference, here's your chance to see for yourself. Enjoy this modern hot water luxury for 90 days. Then if you're not satisfied we'll take out the heater.

SMALL DOWN PAYMENT BALANCE IN 5 YEARS

A down payment of as little as \$1 places an Automatic Gas Water Heater in your home. And you may have as long as 5 years to pay the balance. Investigate today.
