"TABLE LINEN"

"AFTER the holiday season, you must have plenty of soiled table linen. It's too difficult for you to launder properly at home . . . why not let me take it along and do it in a first-class professional way? It's very easy to notice the difference.

1. We'll get out all the difficult stains.
2. We retain the gleaming clear, natural color.
3. We not only do a perfect job of washing your table linen but we do it by safe, gentle methods.
4. Your table linen has a nice finish and a perfect texture because ironing is done on special equipment that gives a result that cannot possibly be obtained by home methods.
5. Neatly and precisely folded and packaged.

"Let our laundry look after your table linen regularly and it will always look better and last longer. And you save yourself the really hard labor of struggling with those big, bulky pieces that are so hard to handle. May I wait for your bundle now?"
