World Bureau Branch in New York

A branch of the World Bureau of Girl Guides and Girl Scouts has been established at 670 Lexington avenue, New York City, according to an announcement received by Mrs. Roy O. Nercim. The branch will be known as the Western Hemisphere Center for the World Association Bureau, and will be sponsored by an advisory committee of representatives from the United States, Canada and Brazil.

The Center will sponsor further development of Girl Scouting in the Western Hemisphere, and will promote friendship among the Americas. In addition, it will assist the World Bureau during the present emergency in maintaining the international work of the Bureau with all countries that are members of the World Association.

Miss Inga Boye, Children's Librarian at the Highland Park Library, gave a talk before the Girl Scout Leaders of Highland Park on International Friendship, one of the fields of interest on the Girl Scout program. All the Girl Scout Troops of Highland Park are going to make a study of the South American countries. They will study a different country at each meeting with the help of informed lecturers and movies of those countries.

Heavy Enrollment In Adult Classes at H. P. High School

Four hundred and fifty persons have enrolled in the Adult Education classes at the Highland Park high school.

Classes started on Monday evening with the heaviest attendance on record for second term.

The Monday evening badminton class, public speaking, upholstery, woodwork and advanced photography are now filled. Large attendance was also recorded in rifle instruction, metal work, beginning typing, advanced typing and shorthand, and the Wednesday evening badminton class.

Further enrollments will be received next week and a larger number are urged to take advantage of the classes in sewing, archery, discussion of current affairs, business English, and English literature.

During the first few weeks the class in rifle instruction will meet on Monday and Wednesday for preliminary instructions before using the rifle range.

Mr. Cunningham's class in archery will use the range at the Elm Place school for their target practice this term.

The council urges all persons not yet registered to do so by next week so that the advantages offered in these classes may not be lost by enrolling too late.

Special classes for enlisted men from Fort Sheridan will be offered on Tuesday, Wednesday and Thursday evenings in typing, shorthand, bookkeeping and mechanical drawing. These classes are being sponsored by the Federal department of Vocational Education and no fee is required. Many soldiers have already enrolled for these classes and an increase is expected each week as new divisions are assigned to this locality.
