HOW YOU CAN GROW A SMOOTH, VELVETY-GREEN LAWN

• For maximum growth, grass needs 11 different food elements from the soil. Vigoro, the complete plant food, supplies all 11 needed elements in balanced proportions. It encourages a mass of deep foraging roots and a top-growth so thick it helps check the weeds! And only 4 lbs. of Vigoro to 100 square feet makes a complete feeding.

Vigoro is equally effective on flowers, shrubs, trees, and vegetables. It is clean, odorless, sanitary, easy to use—and by far your best buy in plant food.
