"IT WON'T BE LONG NOW" SAY BOASTERS

In anticipation of the opening series of races scheduled for Decoration Day week-end, members of the North Shore Yacht Club present at the May meeting held last Thursday, the first of May, listened eagerly to plans for the season.

Vice-Commodore Joe Riddle, who is this year's racing sponsor, announced the extensive plans for a very busy 1941 race series. While the Saturday races must be dropped due to increased anti-aircraft activity, more distance duels along shore will be given and will be operated than in past years. Mr. Riddle told of exchange events with the Chicago Corinthian Yacht Club and other neighboring organizations.

S. F. Kruse and daughter Helen of Waterloo, Iowa, are visiting Mr. and Mrs. Elsworth Inman, 811 Ridgewood drive and Dr. and Mrs. L. W. Dayton, 217 South Central avenue, Highwood.

Mrs. Florence Weary received word of the death of her mother, Mrs. Nancy Nichols Cudney, Chicago, Friday. The funeral was held Monday in Chicago.

IT TAKES ALL THREE TO MAKE A TELEPHONE CALL

- 1 YOU
- 2 THE TELEPHONE COMPANY
- 3 THE PERSON YOU CALL

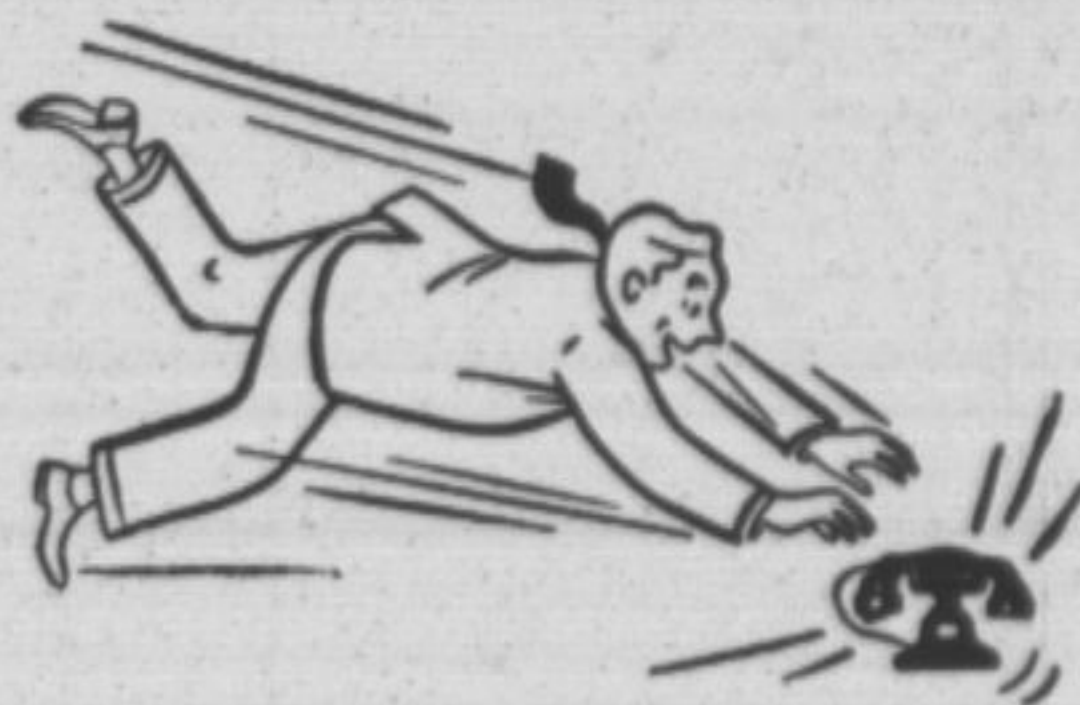

A telephone call is a pretty fine example of teamwork. Its successful completion is a matter of co-operation—three ways at once.

And when you realize that the Illinois Bell Telephone Company handles more than seven million calls every day

in the year... that matter of co-operation assumes even greater significance.

Six points of co-operation have been set forth in "The Golden Rule of Telephoning." Following them will better your own service and be a real courtesy to others.

"THE GOLDEN RULE OF TELEPHONING"

ANSWER PROMPTLY—otherwise the person calling may think you are not there and hang up, sometimes causing you to miss a very important call.

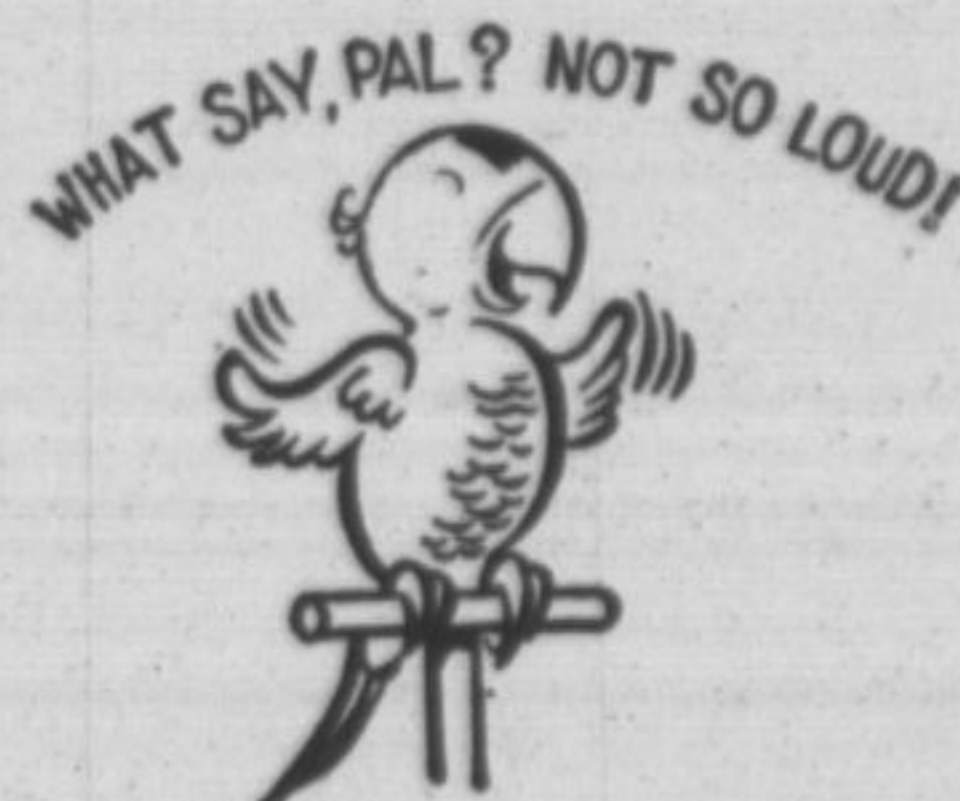

BE SLOW TO HANG UP when calling. Stay at the telephone until you get an answer, a "busy signal," or until you are reasonably sure no one will answer.

SPEAK INTO THE MOUTHPIECE with your lips about one-half inch from it. This position gives the best voice transmission and the clearest reception.

BE SURE OF THE NUMBER before you call. If you're not quite sure, look in the directory. You may save time and avoid a "wrong" number.

SPEAK DISTINCTLY and about as loud as in ordinary conversation. Your normal tone of voice conveys your message most clearly. No need to shout.

HANG UP GENTLY after making certain the other person has finished. Banging down the receiver may cause a harsh sound in the other person's ear.
