## The SNAPSHOT GUILD

PICTURE OPPORTUNITIES

Keeping the camera ready for the unexpected resulted in this unusual snapshot. Picture opportunities are abundant, so have your camera with you wherever you go.

IT ISN'T very often that you'll find a dog looking inquisitively around a corner at a cat, but if you do, it will be an occasion well worth photographing. You've probably seen similar oddities, and often expressed the desire to take pictures which really capture such situations. Many opportunities like this occur but once, and, by having your camera with you at all times, you can take advantage of these incidents to make a number of interesting snapshots.

Besides the unusual, there are many other things that afford excellent subject material for the camera hobbyist. For example, activities of general interest offer an abundant source of picture opportunities. Hiking, motoring, swimming, boating—in fact, any sport will yield a number of good snapshots. Or, wherever you go—to the mountains, seashore, or inland lake—you'll have the chance to picture the scenic beauty as well as the interesting happenings on a memorable vacation, a week-end trip or just a day's jaunt.

There's no single formula to follow when you take your camera with you, but there are some good points well worth remembering.

First, always look for scenes that

are characteristic of the place you are visiting, whether you are out for just a short drive, or a trip to some distant section of the country.

Second, try to organize your shooting so that the pictures tell a reasonably well ordered story. Not just a lot of shots of one thing, but a step-by-step account of what you did and what went on.

Third, always be on the lookout. Watch for unusual or "different" pictures such as the one illustrated above. They add a great deal of interest and variety to your album.

In scenic shooting, don't let broad, breath-taking views mislead you. They're good subjects—but include a foreground object or "frame" when possible, to give them depth and creative feeling of distance.

In picturing the things you do, always try to include some action—not necessarily rapid motion, but people doing something. In brief, make each picture tell a story.

Chances to get excellent snapshots are everywhere, and it's easy to build a fine collection. Keep your camera with you constantly, and bring back a permanent record of your experiences.
