

League Of Women Voters In Rally

Gov. Dwight Green and Frank Bane To Address Meeting in Winnetka

Focusing public opinion on the role which the United States has undertaken as economic ally of those nations which are victims of aggression, the North Shore League of Women Voters invite all interested citizens to hear Governor Dwight Green (Republican) and Frank Bane (Democrat) at the rally meeting next Monday evening at 8:30 p.m. at the New Trier auditorium in Winnetka.

Believing that the plan which the American people have inaugurated for defending democracy will succeed only if the people recognize the emergency and work with the unity of purpose hitherto associated with war, the league has undertaken to work for the success of the Lease-Lend plan adopted by the Congress and people of the United States. Mrs. Raymond S. Simons, chairman of the committee for Highland Park in outlining plans for the rally in which all the north shore leagues are cooperating said "League effort everywhere is being concentrated on this campaign to 'Win the battle of production' by urging government, industry, labor, farmers—everybody, to get together now to speed up production. Goods, Mrs. Simons stated, must be produced now in order that they may be put at the disposal of those nations whose defense is deemed vital to us.

Mrs. Louis Haller, chairman of foreign policy for the Highland Park League and a member of the Battle of Production committee declared that the job to be done by the United States is unprecedented. To show something of the size of the job Mrs. Haller gave the following illustrations: The United States Maritime commission under original plans was to build from one and one-half to two million tons of shipping over a somewhat nebulous period. It is now faced with the urgent necessity of building from three to four million tons a year. A 14,000 percent increase in ordnance manufacture is under way. The challenge of Hitler, said Mrs. Haller, is the challenge of machines, of production, of assembly lines, of laboratories and ideas—the field in which the United States has considered itself unequalled. This is a battle we know how to fight and win—if we will.

Mrs. Simons announced today that there will be a limited number of reserved seats available for those who wish to be assured a seat whenever they arrive at the rally. Persons desiring tickets should call Highland Park 3057. There are 800 or more unreserved seats available without charge. Any interested citizen is welcome.

A pamphlet issued by the National League of Women Voters titled the Battle of Production which explains the defense industry's organization is available for a small sum from any member of the Highland Park committee which consists of the following in addition to Mrs. Simons and Mrs. Haller, Mrs. Melville Keim, vice-chairman, Mrs. V. Wm. Briddle, Mrs. Gilbert Hardacre and Mrs.

SPECTACULAR FIRE ON FOURTH

Firemen Battle Flame at Garage

Firemen fought for more than two hours Friday night trying to keep the fire at the two story frame garage and storehouse on Second

street, adjacent to Marchi's garage, from spreading to other garages in the block. The building, owned by Mrs. Sam Tazioli, was destroyed. Damage was put at \$800 by Chief Ed Hoskins.

Samuel Wittelle. Mrs. J. Stannard Baker, as acting president during the summer months is an ex-officio member.

Water Condition At Park Beaches Not So Unfavorable

Many inquiries have come in to the Board of Health as to the condition of the water along our lake front relative to swimming. A constant stand has been taken by the local health authorities over the years that the lake water is thoroughly contaminated by dirt and some chemically treated sewage and industrial waste, but that it does not constitute the threat of any epidemic disease such as typhoid fever or the like. Eye, ear, nose and throat infections, and boils are frequently seen during summer months in those frequenting the beaches, but this is true to a certain extent of bathing in any inland lake.

Our lake front water situation is not likely to change because of our proximity to industrial towns or cities, as Chicago, North Chicago,

and Waukegan plus the fact that there is no uniformity of sewage disposal over the whole lake front area. Under these circumstances the direction of the prevailing winds has a great deal to do with the condition of the water on any given day.

The fact that an army post adjoins our north boundary should not appreciably change this picture for Highland Park, as maintenance of health and sanitation is as important for any army population as for a stationary civilian one.

It is not believed necessary to close the Highland Park beaches this year any more than in previous years, but the individual citizens should fully realize that bathing conditions are far from ideal, and impossible of change.

Will Marry Dr. G. J. Hinn

Mr. and Mrs. G. C. Hopkins, Chicago, formerly of North St. Johns avenue, announce the engagement of their daughter, Elizabeth, to Dr. George J. Hinn. Plans for the wedding are indefinite.

Masonic Picnic To Be Held Sun., July 20

Committees Plan Many Features for Affair in Sunset Park

Hazel Stuppel, publicity chairman, reports final arrangements are being made for the annual Masonic picnic which as announced previously will be held at Sunset Park, on Sunday, July 20. This is considered the most important social Masonic affair of the year and all Masons, members of the Eastern Star and their families and friends in neighboring towns are cordially invited to attend. Any Mason or member of the Eastern Star, who lives here and is not a member of the local organizations, is especially invited to attend.

The program will start off in the morning with the preliminaries for the horseshoe game contest. Leonard Friebele is chairman of the event and he would appreciate the use of several pairs of horseshoes as he finds most people reluctant to take down those over their doorways.

It is expected that every family will bring their own basket lunch for themselves and their friends. It is intended that at 12 noon tables will be put together and that everyone will participate in the meal as one large family.

The first event of the afternoon will be the bingo game in charge of Ray Klinger. He is making his usual effort to help all the families replenish their larders by having staple groceries as prizes. After every tenth game it is planned to have one "jack-pot" game with something extra as a prize.

A variety of races and contests for all age groups will take up a large part of the afternoon and appropriate prizes will be awarded for each event. Attorney and Mrs. V. Wm. Briddle, together with Beach Aten, made such a success of this part of the program last year they were asked to be the committee again this year.

Reuben Thomas is chairman of the ball game and captain of the

"Smittie" Serves Two Generations of Gladers

George Glader, 1911

In June, 1911, George Glader, 816 Ridgewood drive had his picture taken while having a hair cut in the

barber shop of "Smitty."

Thirty years later, in June, 1941, George Glader, Jr., his son, is pictured in a similar pose in the same barber shop.

Smitty, the barber, or Alfred Esmiz, whose shop is located at 22 N. Second street, has been in business in Highland Park for 32 years.

Mr. Glader is past master of A. O. Fay lodge No. 676 A. F. and A. M. and is a driver for the Bowman Dairy company.

Young George has become a popular photographic model for magazine advertisements and bill boards. For the past two years he has held a social security card. His photographs have appeared recently in June Parents Magazine, Time magazine, Photographic magazine, and has appeared on bill boards for Swift and company, Armour and company and Sears Roebuck.

In the July Better Homes and

George Glader, Jr., 1941

Garden magazine he appears in a shoe advertisement, and in the July Parents magazine he is pictured for Alka Selzer.

This young fellow is gaining widespread attention for his personality, as well as his fine appearance.
