word to begin paving it. Trustee George T. Scott of the police committee, reported a request for a permit for the Holy Cross Catholic church for a carnival on Sunday, July 20, and a request to be allowed to sell near-beer, which requests were granted.

Building Commissioner Seth M. Gooder, through inspector William parrett , reported to the board that complaints had been received that playing. lifteen persons were occupying the premises at 1319 Deerheld road, owned by Theodore Ebert of Chicago and that unsanitary conditions existed. The ordinance prohibits out-houses and here was a flagrant violation of the law. The health committee was authorized to investigate the complaints and Attorney M. O. Olson will be instructed to notify the owners to remove the out-houses and to install indoor Water plumbing. Commissioner Wifilam Johnston informed the board that the sewer ended at the bridge a good distance east of the property, so that a septic tank would have to be built. The house is now occupied by the John Evers and John Visoky families, a total of 15 persons, according to the complaints.

Trustee Anthony Mercurio of the fire department committee stated that the Deerfield and Bannockburn village boards had met and expected to come to an amicable decision on the costs of the use of the Deerfield Volunteer Fire department and equipment. He suggested that the charge be \$25 for a grass fire and \$50 for a structure. Previously it had been a flat rate of \$50 per call and that Bannockburn owed the Village of Deerfield for five grass fires, a total of \$250. His recommendation was that this be reduced to \$125. After conferring with Fire Chief Uchtman in open meeting and learning that each fireman received \$5 for a call to Bannockburn, it was found that many of the calls ex- ly. ceeded the suggested reduced price. Both motions were then withdrawn and tabled for future study. In statastical data given the cost per fire in the village, including all kinds, averaged \$19.75 each. Firemen receive only \$1.00 per grass fire in the village.

The board approved the purchase of 950 stickers for 1942 vehicle tags to be delivered December 1, 1941, payable January 1, 1942. Next year the color will be blue and the shape changed to oval.

The appropriation ordinance was approved for publication as follows:

"Further instructions will be provided as available.

"(Signed) Murray M. Baker." To effect the organization of the collection of spare aluminum in our city, Mayor Ronan has appointed the Highland Park coordinating council, through its member agencies, to carry on this campaign.

Inasmuch as all civic clubs and organizations are members of the coordinating council, this means that the utmost in community cooperation can be expected to collect all available spare aluminum.

Many organizations can help by actively helping to collect and store this aluminum at convenient places throughout the city. Others, such as churches or service clubs, could help by announcing the drive to their membership.

The present plan is to have a large storage bin in downtown Highland Park and a number of neighborhood bins. All the collected aluminum is then to be collected by city trucks on July 21 from the neighborhood bins to the one located downtown.

Citizens can do their part by collecting spare aluminum not wanted and deliver it to one of the collection bins.

The Press next week will tell the location of the various collection
