

Highwood USO

Tuesday night a group of students from Wheaton college entertained the service men at the Highwood Salvation Army USO with a musical and reading program. Community singing was also enjoyed.

Wednesday night Don Ickes and "Er-ru-mels" from Lake Forest College, featuring John Jerome, guitarist and Ray Johnson on the bass viola appeared on the program.

Tonight Mayor T. Bulat of Lyons and Joseph Slee are bringing a group of entertainers who do cowboy numbers to the club.

Friday night—Feature movies.

Saturday night—Mixed games night.

Sunday—Open house and 6:30 o'clock Vespers.

Monday—Tapan Gregory, Glencoe, show bird pictures.

Men Enlist In Navy

Two Highland Park, men recently enlisted in the United States Naval Reserve as petty officers, and are now stationed at the Naval Training Station here.

Now undergoing several weeks of basic training, which includes instruction in the fundamentals of seamanship and naval procedure, these men will be sent to some other naval station for service ashore, or will be sent direct to the fleet for sea duty.

The new petty officers are: Harold E. Henry, 27, 911 County Line Road, ship's cook, second class, and Frank Goffo, 29, 727 Central Avenue, carpenter's mate, third class.

Mr. and Mrs. Robert C. Bennett, Jr. are honeymooning at the El Mirado in Palm Springs, California.

Survey Shows 98.5 Per Cent N. S. Homes Are Occupied

Data compiled by the Work Projects Administration in a survey of vacancies in dwelling units in Waukegan and nearby cities and released today shows that 98.5 per cent are occupied, T. C. Lindquist, district manager, said today.

Of the unoccupied property, Lindquist added, 4 per cent was for rent in good condition and 9 per cent not for rent.

The survey included Waukegan, North Chicago, Lake Forest and Highland Park.

W. R. Neisser, 237 Hazel Ave. Highland Park, is a guest at the New Weston in New York City.

REPORT OF CHRISTIAN SCIENCE LESSON-SERMON

"Matter" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, March 22nd.

The Golden Text was, "The fashion of this world passeth away" (I Cor. 7: 31).

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "My days are like a shadow that declineth; and I am withered like grass. But thou, O Lord, shalt endure forever; and thy remembrance unto all generations" (Ps. 102: 11, 12).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "If goodness and spirituality are real, evil and materiality are unreal and cannot be the outcome of an infinite God, good. Nothing we can say or believe regarding matter is immortal, for matter is temporal and is therefore a mortal phenomenon, a human concept, sometimes beautiful, always erroneous. In the infinitude of Mind, matter must be unknown" (pp. 277, 280).

MRS. ALMA JOHNSON

Mrs. Alma Victoria Johnson, 45, 39 Clay Street, Highwood, died last Friday at her home after an eight year illness. Funeral services were held Monday afternoon from the Kelly chapel, with burial in Accacia Park. Surviving are a son, Irving Scott; four sisters, Mrs. Amelia Smith, Los Angeles; Mrs. Lily Wilson, Mrs. Hilma Humphries, and Miss Esther Enstrom, Highwood; and four brothers, Edward, Harold, Martin and Anton, Highwood.

Mrs. J. Mowers, Mrs. M. Flinn and Mrs. J. Reilly and daughter visited in Des Plaines, Thursday.

The Lady Vikings will give a party at the Masonic temple, Friday, April 10.

MADAME DELORE ADVISES

ONE QUESTION FREE
 Write for Madame De Lore, Station No. 410, Las Vegas, Nev. 5 for \$3.00

MRS. H. R. Will my son ever overcome his trouble?

I am sorry, but there isn't any known cure for epilepsy.

M.J.B. Will I be successful in the career I have chosen?

I would advise you to give up all thoughts of entering into a theatrical career. You would not be successful in this work.

MRS. C.S. Will my husband and I continue to farm on the farm or will he be called away?

The impression comes to me that you will continue farming.

M.E.E. Will you please tell me if my husband will deed the home back to me?

No, I do not see that he will deed the lake home back to you.

MRS. M.M.M. Will you please tell me if I am going to get married again?

Yes, there is one more marriage for you within the year.

H.D.P. Will we ever receive a royalty from the farm we are part heirs to?

Yes, but it will not be for five or six years.

BLONDIE. Tell me if my husband will be transferred?

Yes, there will be a transfer for him before the end of 1942.

C.I.W. To whom and when will I be married?

You will marry the young man that you are interested in now in the late summer of 1942.

R.D.A. Does the boy I have in mind really care for me?

Yes, he is very fond of you but has other dates occasionally.

CONCERNED. Within the next six months will I marry the boy I have in mind?

Yes, you will.

MISS C.H. When and what are the initials of the boy I will marry?

D. M. J.

E.S. Have I met the man I will marry?

No, you are not going to marry the party you are interested in now.

MRS. H.E. When will my first child be born?

I do not give exact dates of births or deaths, but you will have your first child within the next 12 to 14 months.

D.O.P. When will I get my divorce?

Before you receive your final decree I will be glad to help you with your problem if you will send in five questions. I'm afraid you are a little hasty, my dear, in your judgement.

C.M.P. Will I ever marry the boy I have been going with?

No, you will never marry your friend of the past two years. He was just a good pal to you.

MISS C.L. I would like to know if the party I have in mind cares for me?

This party is inclined to be very fickle. As he does not have marriage in his mind I would advise you to be a little cautious.

M.L.C. Will I marry the friend I have in mind?

As your friend is a corporal in the army I do not see that marriage is close at hand, but just be patient.

A.E.S. Is E. K. in the town I am thinking of?

No, E. K. has made a change recently and is not in the town that you are thinking of.

A.S. Will the boy I have been going with ever marry me?

No, he just looks upon you as a good friend.

S.I.M. Should I accept the offer that has been made me?

That is a rather personal question and I will be glad to help you privately if you will send in five questions.

Stamp Exchange Saturday at Community Center

Here is an opportunity for boy and girl stamp collectors to enlarge or complete their collections by trading duplicate stamps. Trading will start at 3 p.m. Saturday at the Community Center. All interested boys and girls are welcome.

THE MASTER GARDENER

Yes, indeed, an application of complete, balanced plant food is very necessary to your garden in spring... **ON NEW LAWN:**—Because the early stages in the growth of grass are the most crucial ones. A good supply of plant food is necessary for the production of deep-rooted vigorous grass that will soon cover the entire seeded area and keep weeds crowded out.

ON ESTABLISHED LAWN:—Because (a) an early feeding of a complete balanced plant food applied just as, or even before the frost starts to come out of the ground enables the grass to utilize to best advantage the favorable growing period in early spring; a good growth of grass is established before weeds appear. The early feeding period may be any time from the middle of January to the last of March, depending on locality. The plant food may be applied any time in the early spring that the ground is not too soft or the snow is not too deep; frozen ground is no hindrance to the early feeding program. Proper feeding is the most important single factor involved in weed control in the lawn. Regularly fed grass is capable of preventing the inroads of weeds, even of crowding many of them out where they may have become established previous to feeding. (b) the greater development of the root system and the ability to store up reserves of food material, make well-fed grass plants better able to withstand the extreme heat of summer weather. (c) well-fed grass is less susceptible to injury from the attacks of disease.

ON ANNUAL FLOWER BEDS:—Because the plants are started off with a good supply of food and kept growing steadily, which makes them better able to withstand the attacks of insects and disease. Flowers appear sooner, color is intensified, blooms are larger and more abundant.

ON PERENNIAL BEDS & BORDERS:—Because an available supply of plant food enables perennials to bloom freely, and to build up enough reserve food material in their roots to bring them uninjured through the winter months.

ON SHRUBS:—Because foliage will be thicker, the color of foliage will be darker, healthier green; in blooming shrubs, bloom will be more profuse.

ON TREES:—Because proper feeding is of major importance in maintaining a tree in a vigorous condition. Many of the roots and other diseases to which trees are subject attack trees that have been weakened as a result of starvation. It is much easier to keep a tree in good healthy condition by proper feeding than it is to attempt to cure troubles after they come.

ON VEGETABLES:—Because an abundant supply of complete plant food is very necessary to the development of a high yield and good quality in vegetables in your "Victory Garden." For tender vegetables, growth must be rapid and uninterrupted. This spring feed everything you grow with a complete, balanced plant food. You will be delighted with results as evidenced by increased beauty in your garden.

Mrs. Wynn's Dog Wins Second Prize In Month
 Champion Mahoney's O'Toole, Irish water spaniel owned by Mrs. Charles M. Wynn, was judged the best dog of the 30th annual Mississippi Valley Kennel club all-breed show held this week. The spaniel won out over a record entry—468 of 45 breeds—the second time within a month he turned the trick. He was best of show at Detroit.

Miss Catherine Clark and Miss Marjorie Molendi participated in the music festival at the Civic Opera house, March 15. Both are students at the Mallinckrodt High School, Wilmette.

7 ways to save money on your home laundry

Even "old hands" at home laundry, with the most modern equipment, are now remembering ways of saving money that suddenly have become important.

Check up on your own laundry method—faithfully observe these seven points. Your expense will be less—and your laundry perhaps even whiter!

- 1 Few clothes need boiling.** Proper laundry methods will keep clothes white without boiling, thus saving the hidden costs in this extra step. Boil only baby clothes, handkerchiefs, and sickroom linens.
- 2 Learn exactly how much is a tubful.** Too many clothes slow down the water action and drag on the motor, too few clothes increase the number of tubfuls. A 7 to 12 minute washer run is usually long enough.
- 3 Watch the water level.** Water above the marked water level may strain the motor or overflow into the gears.
- 4 Always loosen wringer tension.** When wringer is not in use, tension should be released to avoid flat spots on rubber rollers.
- 5 Lubricate every 6 months.** Read direction sheet carefully, lubricate gears and motor at least twice a year.
- 6 Dampen clothes carefully.** An even distribution of moisture means faster ironing. Use bottle with perforated metal top, sprinkle with warm water (spreads more evenly).
- 7 Study fine fabrics.** Lengthen the life of your clothes by learning the special methods of laundering silks and woolsens. These facts can be obtained from our Home Service Department.
