

# MOVIES AND AMUSEMENTS

## James Cagney To Make Appearance In Libertyville

James Cagney will come to Lake county direct from Hollywood for a personal appearance in Libertyville at a bond selling festival tonight (Thursday). Robert Collier, manager of the Liberty theatre, has announced. The appearance of Cagney in Lake county is in connection with a nationwide effort in September by the movie industry to sell bonds.

The Liberty theatre will not be commercialized in any sense of the word in Cagney's appearance at Libertyville, as he will appear in Cook Memorial park in the center of the village during the weekly Thursday night band concert by the Libertyville Municipal band where all who care to may see him.

The Libertyville Lions club, with the help and assistance of other Lions clubs of Lake county agreed to sponsor the appearance of Cagney in Lake county and immediately set up an organization for greeting Cagney on his arrival in the county and an extensive program for the evening which will contain a myriad of innovations all free to the public to attend. A feature of the program will be an old fashioned auction at which gifts will be sold and paid for by bonds which will be on sale at the grounds that night.

The evening will conclude under present plans with the tentative entertainment of the famous star at a country estate somewhere in the central Lake county area at which more bonds will be offered for sale.

## Mexico Suspends Issuance of Permits For Tire Exportation

The Mexican government has suspended the issuance of exportation permits for tires to visiting motorists in Mexico, according to information relayed to the Chicago Motor club.

This new restriction, the announcement stated, is the result of the desire of the Mexican government to cooperate with the continental policy of rubber saving.

Visiting motorists to Mexico, however, will find adequate service in retreading or recapping, the bulletins disclosed, a facility that does not require special permit. In the past few months, retreading and recapping shops have been established in the larger cities of Mexico, while smaller plants have enlarged their capacity.

## Survey Transportation Means At Plant

Survey of 21,118 workers in one Massachusetts plant, according to word reaching the Chicago Motor club, revealed that seventy-eight and eight-tenths per cent traveled to and from work in automobiles. Three and six-tenths per cent used street cars, buses carried 9.8 per cent, 7.5 per cent walked, 1 per cent rode bicycles and 1 per cent failed to give their means of getting to and from work.

## "I LOST 52 LBS. IN FOUR MONTHS!"

WEAR SIZE 14 AGAIN—MRS. G.D. WELLS, FT. WORTH  
—At Pictures Here  
You can lose extra pounds and have a more slender, graceful figure. No laxatives. No drugs. No exercising. Eat meat, potatoes, gravy, butter.  
100 WOMEN LOST 14 TO 50 LBS. each in 30 DAYS, using AYDS under the direction of Dr. C. E. Von Hoer, D.D.S., before a Notary Public.  
With this AYDS plan you don't eat out any meals, starches, potatoes, meats or butter, you simply eat them down. It's easy when you enjoy a delicious (vitamin fortified) AYDS before each meal. Absolutely harmless. GUARANTEED. Try a large box of AYDS. 25-day supply only \$2.50. Money back if you don't get results. Just phone  
Leading drug and department stores everywhere.

## Heavy Traffic Due Over Long Labor Day Week-End

The long Labor day week-end, marking the close of the vacation season, will see extra heavy traffic on Illinois streets and highways, resulting in multiplied hazards. Unless motorists use the greatest care, there may be many serious accidents. With the nation at war, every driver should exercise the utmost caution, warns the Illinois Automobile club.

Bicycles are increasing in use as a wartime mode of transportation and they frequently complicate traffic; both motorists and cyclists must be prepared to meet this problem, reminds the club.

### Moderate Driving

Moderate driving speeds are vital to longer tire and car life. Don't drive over 40 miles an hour. It is estimated that 20 per cent greater mileage may be obtained at 35 than at 40 and that used tires capable of 10,000 more miles will go at least 12,000 if driving is not over 40, and another 2,000 will be added if speeds do not exceed 35.

"Although long automobile trips are not forbidden, shorter excursions should be emphasized," says Carl A. Barrett, president of the club. "Illinois has fine nearby recreation spots that motorists can easily reach for their Labor day outing. White Pines forest near Oregon is well worth seeing, and Giant City park near Carbondale is another scenic center. New Salem park, north of Springfield, is a significant historical shrine. Pere Marquette park, above Alton, and Starved Rock, long a favorite, are within easy driving distances. Black Hawk park, close to Rock Island, and spectacular Mississippi Palisades park are other outstanding Illinois holiday attractions."

Each one-thirty-second of an inch or rubber in the nonskid portion of a tire represents 2,500 miles of wear, the Illinois Automobile club reports. Studies further show that the basic treadless rubber covering of a tire will allow at least an additional 15,000 miles, but these remaining miles may be more hazardous as the tire is smooth and there will be more danger of skidding.

Gov. Dwight H. Green says: "Speed in war industry will save our freedom, our lives and our nation, while speed on the highway, at this time, will accomplish nothing. Operating a car at high speeds wastes material that is needed for war machines and money for bonds and manpower. Conserve your speed on the highway, but use it where needed for a quick victory."

Night workers who carry a lunch box have added protection by covering it with white paint or lacquer, reminds the Illinois Automobile club. Studies show that pedestrians wearing or carrying something white at night are seen more easily by motorists.

## Green Bay Pitcher At Fort Sheridan

Bob Essex, who won 11 games and lost but two this season for the Green Bay Bluejays of the Wisconsin State league, is now pitching for the Fort Sheridan baseball team. In the past two seasons, the bespectacled hurler has won 19 games and lost but five for Green Bay.

Previous to joining the Bluejays he hurled for the Milwaukee Brewers of the American association and for Madison, Wis., of the Three-Eye league.

## The SNAPSHOT GUILD

PICTURE YOUR HOBBY

You don't have to like cycling to enjoy this fine snapshot—but pictures like this will help to make any pastime or hobby more memorable.

PHOTOGRAPHY as a universal hobby has one great advantage in that it fits in perfectly with practically any other pastime or avocation.

If you like to go hiking, bike riding, or camping you can always take your camera along. If you are interested in animals and birds, flowers, or chemistry and metallurgy, the camera provides a perfect means of preserving your experiences. Not only is picture making enjoyable in itself, but it will actually increase the enjoyment you obtain from your other hobbies.

The best idea, of course, is to use your camera constructively. If you like to build things—model trains, for example—keep a step-by-step record of your work whenever you build something new. Many specialists—such as engineers, doctors, and construction

men—actually take their cameras to work with them. Whenever they come upon a tough problem, or an unusual case, they make a complete record of it. Such photographs are invaluable reference material.

In most cases specialized equipment isn't at all necessary. An ordinary camera, a reliable exposure guide, perhaps a close-up portrait attachment, and possibly a filter will fill all requirements. Then it's just a matter of focusing correctly and generally following good photographic technique.

Look over your other hobbies today. Think of how you might put photography to work in increasing your enjoyment of them. Whatever you're interested in, you'll get a greater kick out of it if you keep the story permanently in pictures.

John van Gulder

## Illinois Craft To Be Featured In N. Y. Exhibit

Examples of handwork from the looms and needles of Illinois women will be featured at the nineteenth annual Women's International Exposition of Arts and Industries at Grand Central palace in New York, Oct. 26-31.

Winners in the needlework competition of the exposition will be awarded a total of \$2,925 in prizes, offered by Woman's Day magazine of New York, which is sponsoring the contest. The first prize for the outstanding piece of needlework by an amateur will be \$1,000, with 33 additional prizes amounting to \$1,925.

Finalists for the New York competition will be selected at the needlework exhibition in the Williamson County fair at Marion, September 1-4. For this event Woman's Day magazine is offering sweepstake prizes in each of these classes: crewel work, patchwork, hooking, cross-stitch, knitting, applique, quilting, crochet, weaving needlepoint and outline embroidery.

## Husky Basketball Star Follows Brother To Fort Sheridan

The Pacific coast's biggest basketball player—William (Nap) Van Sistine—is now following in the footsteps of his brother to Fort Sheridan. Nap, brother of Lieut. James T. Van Sistine, formerly of Fort Sheridan, won the title when he played basketball at Gonzaga University, Spokane, Washington, back in the years 1931-34. The mighty man who weighs 293 pounds stretches only 5 feet, 10 1/2 inches.

He left a coaching position at West De Pere, Wis., high school where his football, basketball and track teams were long a power in the Northeastern Wisconsin conference.

In addition to playing basketball, Nap starred in football at Gonzaga and was placed at tackle on the all-opponent teams of Idaho, St. Mary's and Oregon. After graduation he turned down offers to play professional ball for the Chicago Cardinals and Boston Redskins.

The huskiest of the Van Sistine brothers is the fourth to join the ranks of the service men. In addition to Lieut. James, who is now at Fort Drew, Tampa, Florida, Leo is with the coast guard at Honolulu; and Dick is stationed at a New Jersey signal corps school. A fifth brother, Cyril, will be a sophomore football player at St. Norbert's college, De Pere, Wis., this fall.

One of Nap's greatest individual feats was throwing the discus 137 feet, 6 inches while a student at West DePere high school—the same school he later coached.

## MUSART CLUB TO HOLD REGULAR MEETING SEPT. 9

The next meeting of the Musart club will be at the home of Mrs. Lisle Hawley, 1125 S. Linden ave. on Wed. Sept. 9 at 1:30 p.m. All members are urged to be present.

## Army Invades Illinois As War Show Opens At Soldier Field

The Army is invading Illinois! Rumbling tanks, zooming airplanes, the clatter of motorized artillery and the clomp-clomp of the horses of the crack colored cavalry is now becoming as familiar to Chicagoland as the roar of the traffic at State and Madison.

It is the Army War show which opened Wednesday, Sept. 2, and will continue until Sept. 12, showing every phase of army life as well as a realistic battle action that will make the citizens acutely conscious of America's war effort.

Arranged by the War department to deliver a mighty story to the people and to benefit the Army Emergency relief, the show reaches its peak here.

The provisional task force completed arrangements for the arrival of the 2,000 enlisted men and officers, and the almost unbelievable array of guns, tanks, motor vehicles and other equipment. These men, known as "24-hour men" in the circus world, have designated the northern half of the parking lot east of Soldier field as the "motor pool," where the army's mobile equipment is stored. The southern half of this lot houses the huge Battle depot, where every type of equipment used by the army is exhibited and demonstrated. This Battle depot is open from 2 to 10 p.m. daily for public inspection.

### Establish Bivouac

The bivouac has been established on the strip of land east of the Lief Erickson drive to the south lagoon, starting at 16th st., and extending south to 23rd st. There the tented city is located with eight rolling field kitchens, and the task force is housed for the duration of the Chicago engagement. The bivouac is open for public inspection from 2 to 4 p.m. each afternoon, and admission is free.

As Colonel Wilson T. Bals, commander of the task force, has pointed out, wars are fought rain or shine, hail or sleet, and as these task force men are in active training for service on any type of battlefield, the show goes on regardless of conditions. Colonel Bals also pointed out that every man with the force has a supply of live ammunition and emergency rations for 60 days, which means the

engineers, the medical men, the signal corps, motorcycle dispatch unit could be sent into action on a moment's notice.

riders, the leading jeep corps, the colored cavalrymen, motorized artillery, anti-aircraft gun crews and infantrymen demonstrate their specialties with amazing proficiency.

It will be all-out for the army from Sept. 2 through Sept. 12, and Chicagoland is expected to do plenty toward "taking the load off the soldier's heart."

## Tourists Not Permitted To Take Currency Out Of Country

Effective now, tourists will not be permitted to take United States currency out of the country when entering Mexico, with the exception of \$1 bills, according to Charles M. Hayes, president of the Chicago Motor club, who says that advances to the club from the Mexican border are that tourists may take American coins and Mexican pesos. The same ruling applies to tourists when returning from Mexico.

It is suggested that tourists use traveler's checks or certified cashier's checks. All tourists returning from Mexico are required to surrender American bills to the United States customs for forwarding to the federal reserve bank. This money will be later refunded.

## Moose Lodge Plan to Organize Bowling Team

A bowling team is being organized by the Moose lodge and any member of the organization interested in bowling on a league team may contact Everett Inman, H. P. 89. Players will be handicapped according to their bowling average.

An officers' meeting of the Moose lodge will be held at the home of W. J. Seguin, 661 Central Avenue, tonight (Thursday) at 8 o'clock.

### Star Dust

STAGE-SCREEN-RADIO  
By VIRGINIA VALE  
Released by Western Newspaper Union.

AT NINE O'CLOCK on the night of Tuesday, September 1, every theater in the land is expected to stop its program and stage a "Salute to Our Heroes"; it's planned as one of the features of the treasury's billion-dollar war bond and stamp drive. Patriotic airs will be played as a color guard marches down the aisle, a one-minute speech will be made, the audience will give three cheers and then sing the national anthem. If every movie theater is filled, 11,000,000 people will participate.

Bobby Breen, once famous as a child singing star, who retired from the screen in 1939 at the age of 13, is coming back to it. In Republic's "Johnny Doughboy" he will play himself, a passe movie star, appearing with Jane Withers and Patrick Brook.

During the past year Ginny Simms has been working for RKO, under the usual six-month contract, with options. There's been no big publicity build-up. But recently she

GINNY SIMMS

signed as the singing mistress of ceremonies for the new "Johnny Presents" radio show, starting September 8—immediately she was cast for three important films, and two other studios that wanted to borrow her were refused!

Orson Welles has given us another superb picture; "The Magnificent Ambersons" rates right along with "Citizen Kane." He makes a story really come to life. And he has done us all a service in bringing Dolores Costello back to the screen.

Dorothy Lamour has a brand-new makeup for "White Cargo," but it sounds like one of those things that one would rather do without. She wears five successive layers of a fluid foundation that combines cream with powder; each is applied all over her body with a sponge and allowed to dry before the next is applied. Then she's sprayed with a film containing gold dust!

"The War Against Mrs. Hadley" has been selected by the Kate Smith radio hour for a nation-wide salute on September 25. It features Edward Arnold, Fay Bainter, Spring Byington, Richard Ney, Jean Rogers and Van Johnson. Quite a way to launch a picture, as the Kate Smith hour is broadcast over 104 stations, and is said to attract more than 30,000,000 listeners.

Susan Hayward can thank her stars that she's a good screamer. Few actresses can scream convincingly, but Susan let out such a good yell when testing for "Reap the Wild Wind" that C. E. DeMille promptly signed her up for the second feminine lead. As a result of her performance, these in the know are predicting stardom for the pretty little redhead within a year.

Jean Davis can thank broadcasting for furthering her movie career. Though she's such a clever comedienne, her roles just seemed to be getting smaller and smaller. Then Rudy Vallee asked her to guest star on his program a few times, and she was such a hit that he made her a regular. Whereupon the film studios began to wake up to what they'd been missing, and she's in demand once more.

Lesley Woods, who stars in Columbia's "Joyce Jordan" every afternoon, likes to remember when she and Tyrone Power were on the payroll of the Motion Picture Exhibit at the Century of Progress Exposition in 1933. She says they stood around and tried to look like movie stars and ate ham sandwiches.

ODDS AND ENDS—When Jacqueline White reported on the set of "Shiny to Glory" she was handed a telegram wishing her good luck, signed "Uncle Frank"—meaning Frank Knox, secretary of the navy. . . . Dave Egan, the "Hobby Lobby" man of radio, has been so busy that he hasn't been able to catch up with his own hobby for months; he's a stamp collector. . . . Mayer Davis heads a committee of bondholders to collect musical instruments for American prisoners of war—the Y. M. C. A. will distribute them. . . . William Powell and Holly Loomis starred as well in "Crowfoot" that they'll be starred in "Sawtooth."
