The 9 Billion Dollar Victory Loan Drive Is On

What will you answer to your country when this man comes to see you?

WITHIN the next several weeks, your Government must raise NINE BILLION DOLLARS from the accumulated savings and idle funds of the American people as a vital part of winning a quick, complete and final Victory.

Many thousands of employees of securities firms and banks have volunteered their time and services, without cost, to the Victory Fund Committee.

During these critical weeks, one of these Victory Fund Representatives will probably call on you, to explain to you the advantages of the new Victory 2½'s the Government has issued—now available for the first time—as safe as the United States itself.

He will also acquaint you with other particularly favorable investments, issued by the U. S. Treasury Department.

The success of this great Victory Loan Drive will depend largely on the reception given to these representatives, and the action they take in purchasing the securities offered.

Complete subscription and fulfillment of the nine billion dollar goal is vital to the welfare and safety of our country—to provide our fighting men with the instruments of war they must have to survive and win—yes, even to save their very lives.

So the Victory Fund Representative is really working for you and your country. In your own interest, as well as that of our Nation, listen to him—and invest!

And, if you miss him, ask your banker or securities dealer for full particulars about the new Victory Loan.

Other Treasury Securities offered to investors through the Victory Fund Committee are Treasury Tax Savings Notes A and C, and U. S. Savings Bonds, Series F and G.
