

Plan Entertainment For Men Released From Quarantine

The Highland Park U.S.O. is preparing to entertain over 600 additional men this week-end. A program has been arranged for these men who are just being released from their three week quarantine period.

The week-end program starts with a stage show sponsored by the Jewish Welfare committee of U.S.O.

Saturday evening's feature will be the "Sea Horse Follies of 1943" put on by the Sea Horse group of the Johnson Motor company. The stage show will be followed by refreshments and a dance.

Sunday's program starts off with the regular java breakfast. A music appreciation period featuring Shostakovich's 7th Symphony is scheduled for 4:30 p.m. One of the outstanding features of Sunday's program is the Northwestern university girl's show to be presented by girls from Chapin hall of that institution. A buffet supper will be served at 6 p.m. on Sunday.

A glance at the volunteer staff and attendance figures of the Highland Park U.S.O. for the months of March, 1942 and 1943, reveal the urgent need for expanding the facilities of the club.

In March, 1942, the club had 40 volunteer workers and entertained 12,976 men. In March, 1943, there were 1,160 volunteer workers who helped to entertain 22,119 men.

The citizens of the North Shore area served by the club have responded to the call for volunteer workers but there is a constantly growing need for still more help. This is true particularly in the case of those suburbs outside of Highland Park. While the club is located in Highland Park, the area from which it draws its support extends all the way from Chicago on the south to Waukegan on the north.

YWCA News

April 8: The Creative Writers meeting.

April 8: The Interfaith group is having a table at the Institute of Human Relations at the Hotel Sherman. This meeting is sponsored by the Round Table of Christians and Jews. Among the guest speakers will be Gov. Harold E. Stassen of Minnesota.

April 13: Board meeting at 10 a.m. Mrs. Warren Danley and Miss Laura Cross will give a "conversation piece" on the recent workshop held in Peoria. Immediately following the board meeting luncheon will be served the members.

April 13: Mothers' club will meet at 8 p.m.

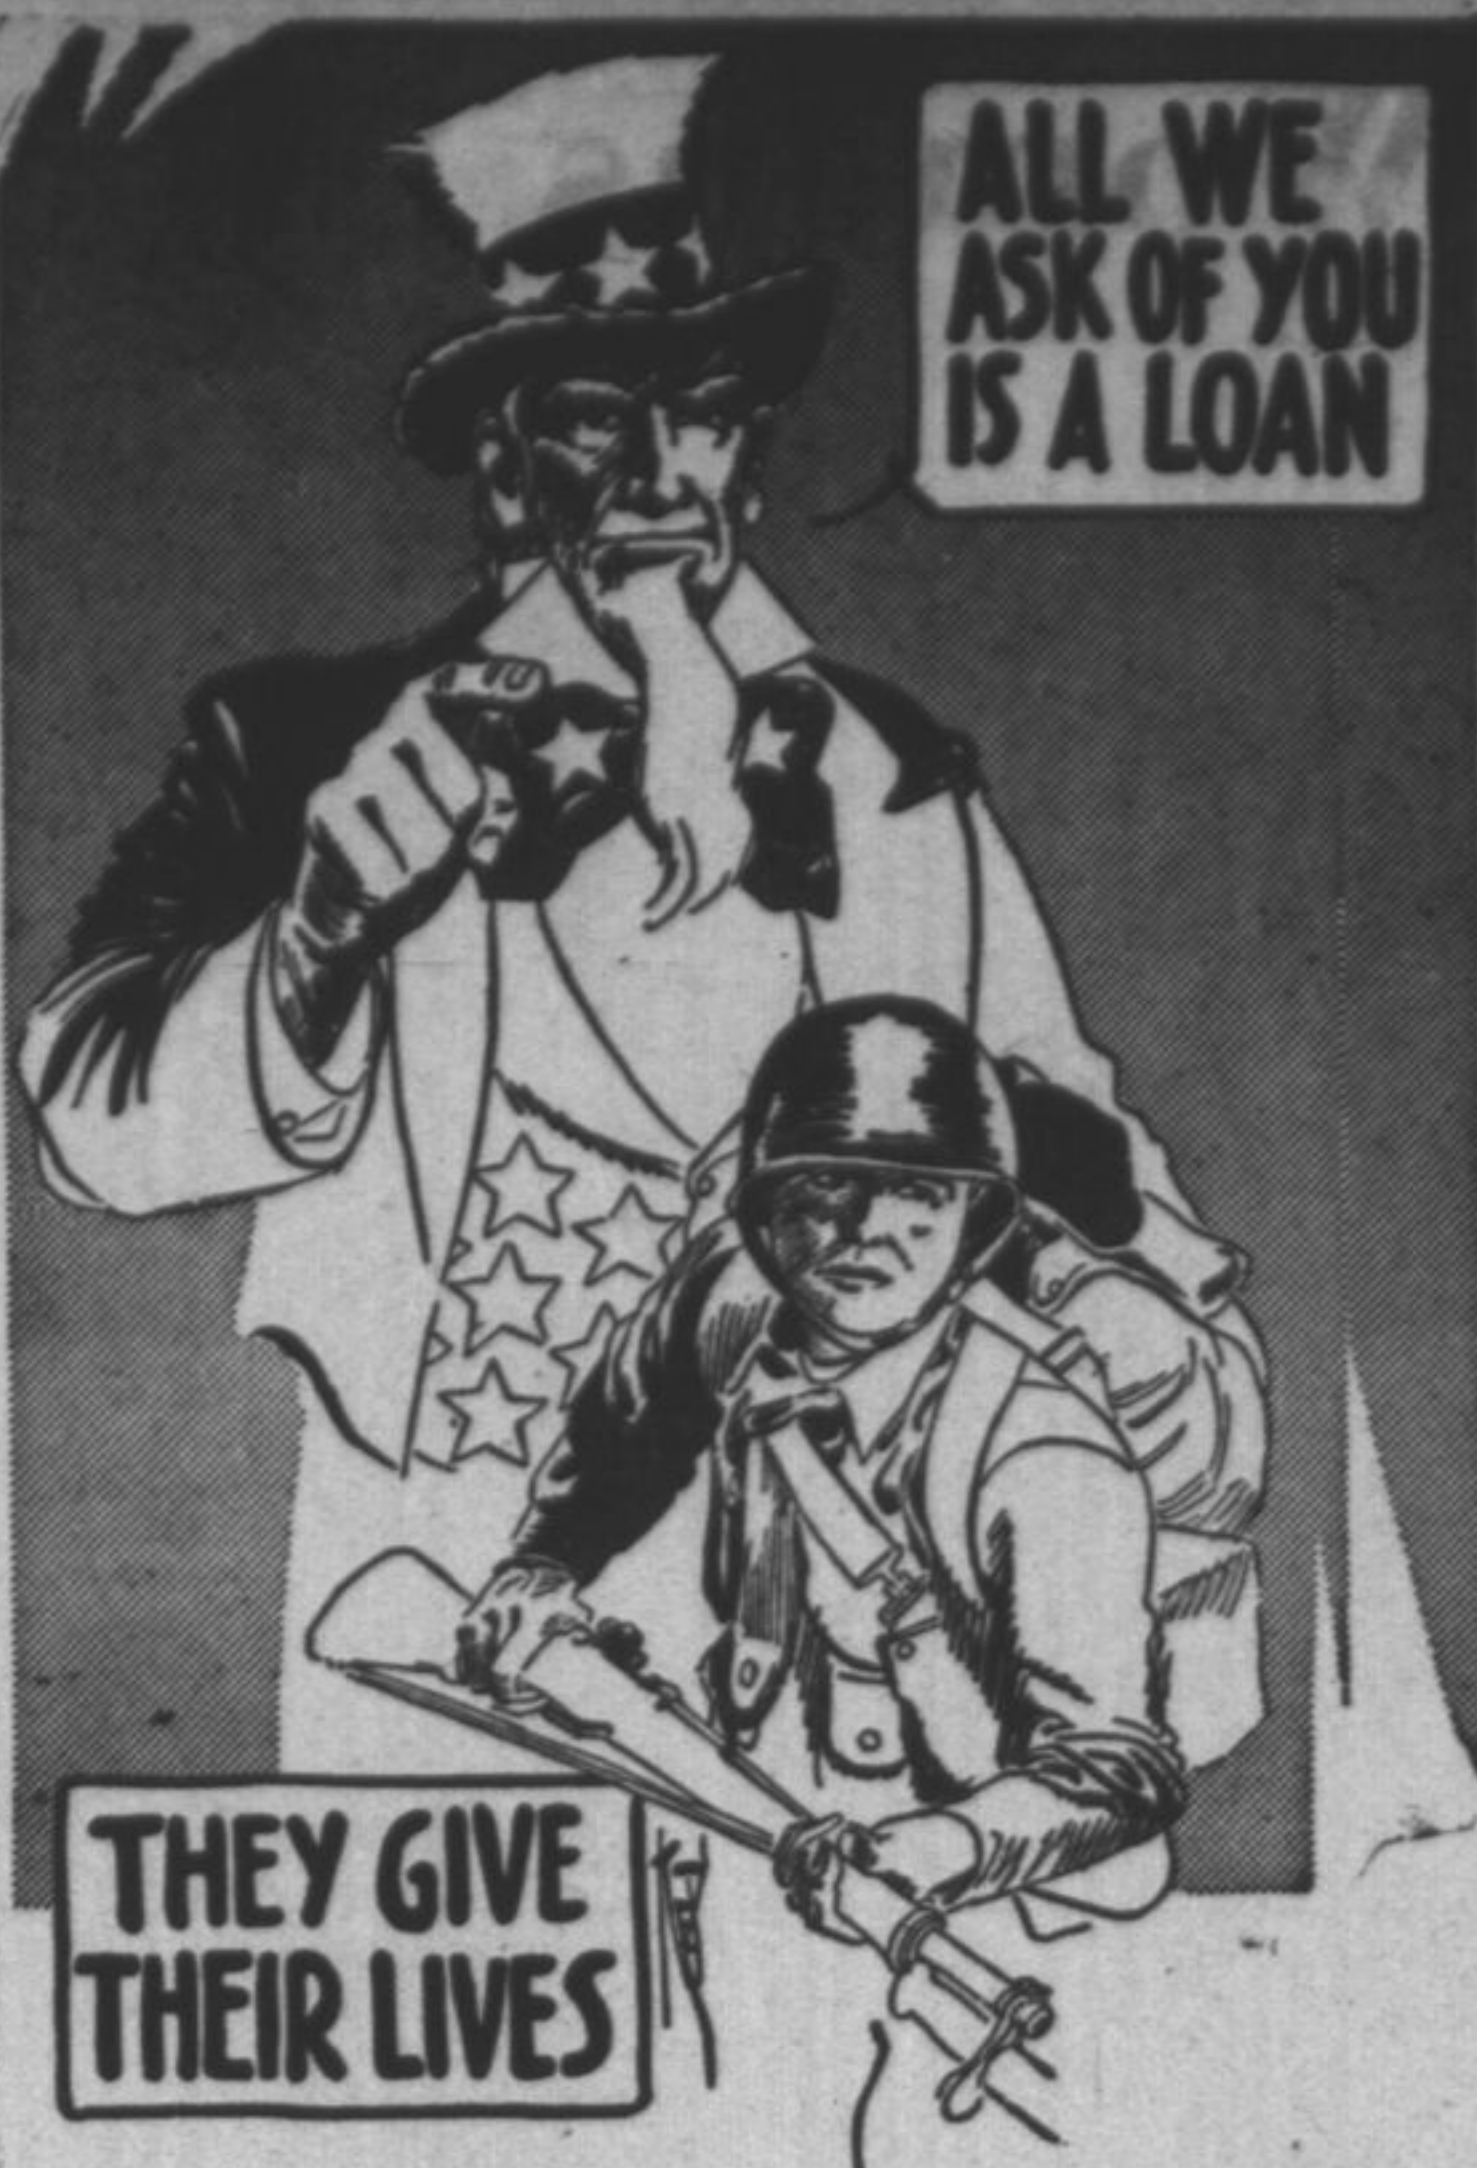

April 14: The Phi Delta club of Business and Professional Women, through the cooperation of the O.C.D. (office of civilian defense) will present a dress forum on "What To Buy and How To Take Care of It." Guest speaker will be a representative of the O.C.D. of Chicago area. This meeting is on Wednesday evening at 8 p.m. The public is invited and there will be no admission fee.

April 15: The Friendship club will hold the regular dinner meeting followed with an informal panel discussion on—"Living in a World at War." Mrs. James Clark, Miss Laura Cross, Mrs. Bess Brown and Miss Hazel Arbuckle will participate in the panel. Square dancing will follow the meeting.

Jewish Congress To Meet In Glencoe April 13

A special meeting of the North Shore district of the American Jewish congress will be held Tuesday evening, April 13, at the temple in Glencoe at 8 o'clock.

Speakers will be Rabbi Morton Bertram and Henry Wineberg. There will be no solicitation of funds.

LIONS TO SEE COLORED PICTURES OF WEST

Mrs. Fred H. Clutton of 589 Kimball road, who has toured the west, will show colored pictures at today's (Thursday) meeting of the Highland Park Lions club at the Open House tea room at 12:15 o'clock. Mrs. Clutton also collects scrap books for the men in service, which she will exhibit at the meeting.

Bereath Nelson, Ensign Zaeske Wed

Mr. and Mrs. Lawrence Tomblin, 534 Lincoln place announce the marriage of their daughter, Bereath E. Nelson, to Ensign Earling W. Zaeske, son of Mr. and Mrs. Herman Zaeske, 506 Lincoln place, on Saturday, April 3, in Corpus Christi, Tex.

Sections of City Joins Forces In Salvage Drive

Plans are being completed for the All-Out City-Wide Salvage drive scheduled for April 19-24. Offers of cooperation have come in from organizations, various groups and from individuals. One "City-Wide" group giving great assistance in this spring drive is composed of the artists of Highland Park.

All four "corners" and the center are represented—Braeside, Woodridge, Briergate, the lake front, Ravinia and the business district. They are working on window displays built around each item of salvage to spur on the efforts of all citizens to make this drive a success. The business houses of Highland Park have loaned their windows. Next week these display windows will be listed together with the names of the artists responsible for them.

Meetings have been held recently in all twelve salvage divisions. At these meetings, complete organization was set up and plans perfected for the salvage collection in which city trucks will cooperate.

Last week 300 letters of invitation were mailed to Junior Captains to attend the meeting to be held in Community center on Saturday morning, April 10, at 10 o'clock. J. Stannard Baker will speak on the uses of reclaimed salvage materials and how the reclaiming is done. The Junior Captains will then receive their instructions for the All-Out drive and be dismissed to start their work.

Citizens are asked to turn in all clean rags and old rope. There has been much in the newspapers of late about synthetic rubber and its future. Interest right now is in the present scrap rubber of the "garden" variety.

Lincoln School Children Sell Stamps In Own Booth

The children of Lincoln school have made their own war stamp booth, decorated in red, white and blue, from which they (in the upper grades), sell stamps in the upper corridor before school, morning and afternoon. Only stamps, not bonds are sold. The children are encouraged to go to the bank for bonds.

Special stamp drives are made by separate grades during the school year. The eighth grade during the month of November netting \$171, and the fourth grade during January, netting \$152. In all the total stamp sale since opening of school last fall was \$799.80.

The women serving at the stamp and Pacific Tea company and Woolworths, for the week of April 12 to 17 are: Mrs. H. McGlasson, Mrs. Les Stanger, Mrs. William Melohn, Mrs. Laura Shields, Mrs. A. J. Bailey, Mrs. John Stevens, Mrs. Mary Spalding, Mrs. M. A. Rosenthal, Mrs. Margaret Johnson, Mrs. Tom Sutherland, Mrs. K. Robinson, Mrs. Hugo Schneider, Mrs. Ada Willison, Mrs. Albert Campbell, Mrs. H. C. Silvestrom, Mrs. Earl Spangler, Mrs. Elmer Thompson, Mrs. V. E. Lawrence, Mrs. L. C. Larson, Mrs. Reginald Johnson, Mrs. Ralph Hutchins, Mrs. Philip Johnson, Mrs. Herbert Bowker, Mrs. V. H. Moon, and Mrs. J. P. O'Connell.

Delta Gammas To Hold Convention

The province convention of Delta Gamma will be held in Evanston on April 16 and 17 at the Delta Gamma chapter house. Seven active chapters and eight alumnae groups will be represented.

Mrs. Carlton Banker who will lead the actives in their discussions on phases of rushing, pledge training, scholarship and wartime activities is the secretary of Province III. She resides at 810 Lake street, Wilmette. Mrs. Davis McCarn, 1011 13th street, Wilmette, who will speak to the joint session of active and alumnae is the counselor to women at Northwestern university. A guest of the convention will be Mrs. Wallace Holsinger, 5442 W. Thomas street, Chicago. Mrs. Holsinger is national first Vice President.

The chapters which will be represented at the convention are located at Albion, Universities of Michigan, Wisconsin, Illinois, Northwestern, Lawrence and Beloit.

Give Instructions For Air Raid Or Other Emergency

An air raid may cause damage to waterworks distribution mains, the intricate network of piping which carries safe drinking water into your home. In this emergency when the water fails to flow from the tap, what you do may effect the health, comfort, and property of each citizen, therefore, heed these ten precautions:

1. Keep available at least 1 quart bottle filled with drinking water for each person in the house. Reason: Water service may be interrupted and may not be immediately restored.
2. Always turn water faucets off everywhere in the house when water service has failed. Reason: when water-comes on, you may have forgotten about that open faucet upstairs. Water will be wasted, damage may result from flooding, and water pressure may be lowered over the city.
3. Do not fill bathtubs with water following air raid alarms or during air raids. Reason: Such action if taken simultaneously in many homes will seriously reduce water pressure in the mains and limit the volume of water. This would result in a dangerous lack of water for fire fighting purposes.
4. Leave valves alone. Reason: Trained men will shut off all necessary valves.
5. Remember that the water department knows the service is off in your area. Your telephone report is not necessary. Reason: The air raid warden will promptly report troubles in his area. Telephones are needed for important official calls.
6. Discontinue immediately use of flush toilet when water service goes off. Follow the directions of the Health Department. Reason: The small volume of water stored in the home is insufficient to continue flushing.
7. Protect your health by boiling the drinking and cooking water if the health department so advises. Reason: Disruption of water mains by bombing may draw sewage from the sewers or house plumbing into the water main. It is advisable to boil all drinking and cooking water for five minutes during the first 24 hours after water service is restored.
8. Accept chlorine tastes in your drinking water without complaining. It is a sign of safety. Reason: Because of a water main break, or of some other good reason, the health and water departments may increase chlorine disinfection rates temporarily for your safety.
9. Do not drink water obtained from other sources than your tap or drinking water carts operated by the authorities. Reason: It is dangerous to use water of unknown quality from wells and springs, when the public water supply fails.
10. Do not believe or repeat rumors concerning water. The health authorities know the water supply facts and will advise you. Reason: The origin of such rumors may be subversive. You can rely on your own health and water departments.

Office of Civilian Defense, Washington, D. C.

O. C. D. Seeks Aides For Care of Children

North Shore women who are interested in offering their services as child care aides to assist in the summer program for the care of preschool children whose mothers are working in war industries are asked to register at the Volunteer Office of Civilian Defense and Council of Social Agencies, Room 1010, 111 West Jackson boulevard, Chicago, for training, course which will start April 21.

The first two lectures will be given in Chicago at a meeting of all child care aides from metropolitan Chicago, but regular classes will be held at the National College of Education on Wednesday and Friday from 1 to 3 p.m. thereafter.

Rotary Hears Prof Renzi Bianchi

Santi Pasquesi presented Prof. Renzo Bianchi of the University of Chicago at Monday noon's meeting of the Highland Park Rotary club at the Moraine hotel.

Prof. Bianchi spoke on the political history of Italy and told how Mussolini came into power.

Delta Gammas To Hold Convention

The district conference of Rotary clubs will be held May 3 and 4 in Moline, Ill. The Rotary convention is planned for May 18-20 at St. Louis.

American artillerymen blast at a target 17 miles away with the Army's mighty 155-mm. gun. Though the gun weighs 15 tons, the 40-foot barrel is so perfectly balanced it can be raised by turning a small wheel, with one hand.

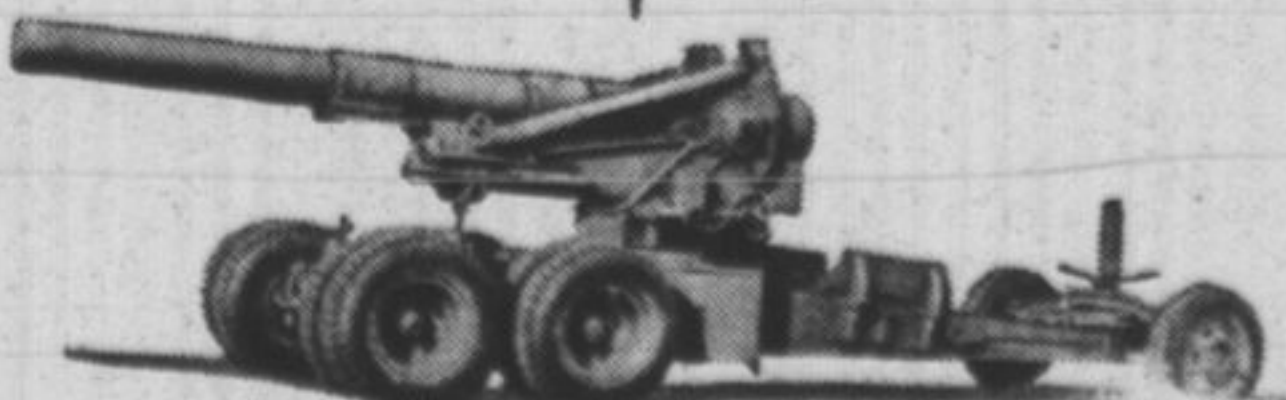

Pouring metal that has been melted in a huge electric furnace, for use in gun carriage castings. Here in this Northern Illinois plant Electric Power is used in almost every phase of production.

Supplying Electric Power for War Production

AMERICA's striking power on world-wide battle-fronts depends on the mass production of war implements such as the 155-millimeter mobile gun. And mass production of these guns depends on the mighty force of electric power.

Here, in Northern Illinois, huge electric furnaces are utilized in making castings for these gun carriages. Electric lathes, grinding machines, drill presses and punch presses are employed in shaping and fitting the numerous parts. And electric welding speeds the assembly of the unit sections into powerful 15-ton weapons.
