

# These Are The Principles On Which MR. C. F. LUNDQUIST Bases His Candidacy For MAYOR

**1 City officials are the SERVANTS of the community—NOT THEIR MASTERS. I will not tolerate any employee who tries to make it otherwise, and will conduct myself accordingly.**

**2 To put the city council in closer touch with the citizens, and learn the will of the people, I favor including with each water bill, a mimeographed letter, setting forth the major problems and major legislation upon which the city is about to act, and requesting the "vote" of the people thereon. Citizens can include their "vote" with their water bill payment, and no expense to either citizen or city will be involved.**

**3 I am opposed to wholesale foreclosures of tax-delinquent property, at a time when so large a number of our men and women are serving with the armed forces and their families and relatives are not in a position to redeem.**

**4 I am in favor of complete study of the zoning question in Highland Park, and a complete revision and re-zoning of a City Plan, to meet changing times. I will insist on rigid enforcement of all laws, believing that this in itself will result in arousing public opinion, and eliminating of unfair and unequal legislation.**

**5 I will insist that all the fees received by any city employee for services rendered to citizens, such as in the issuing of certificates of various records, (which have heretofore been retained by the individual) be promptly turned into the city treasury.**

**6 I will insist upon rigid economy in the city administration, the consolidation of all offices, where the same can be effected efficiently, and the elimination of all unnecessary functions and offices.**

**7 I will insist that all Council meetings be held in the open—and that the public get a full opportunity to express itself upon all subjects, I will URGE the attendance of the citizens.**

**I HAVE MADE NO PROMISES OF ANY KIND TO ANY PERSON, FIRM OR CORPORATION.**

# I Also Serve...

America's fighting fronts are half a world away — yet war is at my finger-tips . . .

I wear a neat business dress instead of a uniform, but I'm doing essential war work . . .

I help to produce planes and tanks and guns and shells, though I don't work in a war factory . . .

I help feed and clothe our boys in service, though I don't work on a farm or in a textile mill . . .

My work aids public health and serves public safety, though I don't mix medicines or fight fires . . .

And I'm saving for Uncle Sam by buying War Bonds and Stamps regularly.

I'm doing my best and my most to serve my country.
