## Mobile Blood Donor Unit To Make Fifth Visit Here

For the fifth time in the past year, the mobile unit of the "Blood Donor" service of the American Red Cross will be at the Highland Park Woman's club, August 26, 27 and 28, so that Highland Park and community can donate blood to help save the lives of men—and women—serving on battle fronts.

During the previous four visits of the mobile unit to Highland Park, starting in August, 1942, the people of the Highland Park district have given a total of 1,706 pints of blood. Many blood donations made by citizens away from home, at the Chicago Red Cross headquarters and elsewhere, are not in this total.

"But this is not enough," according to Mrs. Herbert R. Smith, chairman of the Victory committee of the Highland Park Woman's club, who says, "More blood donors than ever before are now needed to meet the emergencies of greater fighting by our armed forces all over the world. And the people at home know this, for already 290 women and men from Highland Park, Deerfield, Highwood and elsewhere have signed up for this next blood donation August 26, 27, 28. Army and navy doctors are calling for more and more healing blood including Brig. Gen. N.W. Grant, air surgeon, who says 'plasma is the No. 1 factor in saving our soldiers' lives. Everyone of you can help with this. Do everything you can to aid the Red Cross in going ahead with this work.'"

People wishing to donate blood to the Blood Donor's service may make appointments through Mrs. Smith, Tel. H.P. 480, mornings, whose committee handles all arrangements and assists registrants at the Woman's club building. The list of blood donors will be published each week and kept up to date.

## Charles Rudolph, Life-Long Resident of This City, Dies

Charles Rudolph, 67, of 909 County Line road, grounds superintendent of Ravinia Park for more than 40 years, died early Thursday in the Highland Park hospital after a short illness.

Mr. Rudolph was born in Highland Park. He leaves four sons; Raymond, Highland Park, Lloyd, Deerfield, and Harold and Charles Jr., both of Highland Park, and one daughter, Mrs. George Daly of Madison, Ind. In addition he leaves three brothers, Jacob of Wheeling, Arthur of Florida, and August of Highland Park, and three sisters, Mrs. Frank Sheahan, Mrs. George Denmark and Miss Rose Rudolph, all of Highland Park.

Funeral services were held from Kelley's chapel Saturday afternoon. Interment was in North Shore

## Local Man Contributes to Britannica Year Book

Highland Park and the North Shore are mentioned in the Encyclopedia Britannica and there are several well-known Highland Park contributors to Britannica and its Year Book.

Baker Brownell, professor of philosophy at Northwestern University, has contributed a piece on "Philosophy." Mr. Brownell lives at 1215 Sunnyside Lane. Lt. Col. Calvin Goddard, former Evanstonite, and Harold Ickes, now of Washington, D.C., are other contributors. Mitchell Dawson, Winnetka, wrote the Year Book article on "American Bar Association" and Professor G. Donald Hudson, Evanston, of Northwestern University, is geographical editor of Britannica and he is especially responsible for its atlas. Robert Harvey Gault, another Northwestern professor who resides in Evanston, wrote the article on "National Morale" for the Year Book.

The population and other interesting facts about the North Shore and Highland Park are listed in the Encyclopedia Britannica.

## Golf Tournament Planned by Chamber of Commerce

The annual golf tournament and outing for members of the Highland Park Chamber of Commerce and their guests will be held Wednesday, Aug. 25, at the Sportsman Golf club, one mile west of Waukegan road on Dundee road.

Golf will start at 1 o'clock and dinner will be at 8 o'clock, with a full course chicken dinner to be served. Three door prizes in war savings stamps will be awarded following the dinner and there will be prizes for golfing events.

Paul Behanna is chairman of the committee in charge of the outing, assisted by Cy Duffy, Art Olson and Hank Siljestrom. Further details will be announced in the News at a later date.

### OCD Salvage Committee Lists Rules and Items

Information needed regarding articles to save and what should be done with it between the spring and fall city-wide salvage drives has been released by the Highland Park Civilian Defense conservation and salvage committee as follows:

#### Metal

Small pieces of metal should be saved and given to Junior Captains, who come to your house, or taken directly to Victory Salvage boxes. For pieces of metal too large for you or a Junior Captain to handle, phone Civilian Defense Office, H.P. 1400. The city truck then will make a special trip to your home for this pick up.

#### Rubber

ALL RUBBER of any kind, size, or condition, is desperately needed. Give to Junior Captain or take to Victory Salvage boxes yourself.

#### Rags

ALL SIZES AND KINDS OF RAGS, particularly wool, cotton or linen and preferably washed, are urgently needed. Give to Junior Captain or take to the Victory Salvage boxes.

#### Tin Cans

If you are in doubt as to the proper preparation of tin cans, ask your Block Conservation Chairman or Junior Captain for a folder which explains in detail or study posters in stores. To dispose of properly prepared tin cans: 1. Put them in a separate bag or box and leave them for your regular garbage collector to pick up. Do not leave this container out over night or put it out when it is raining, for cans should not be rusty. 2. Give them to your Junior Captain, who will take them to the proper place. If you have no regular garbage collection, he will know a neighbor who has. 3. Take them to the special container for prepared tin cans at the city incinerator if you take your garbage there yourself. The Victory Salvage boxes should not be used for tin cans.

#### Grease

Take grease directly to your own butcher, who will pay you for all grease, light or dark, which is strained. Special banks are in all butcher shops if you want to contribute the pennies you receive to Civilian Defense. Junior Captains are not permitted to collect grease.

#### Metal Tubes and Tin Foil

Collapsible metal tubes and tin foil are collected in special receptacles in all local drug stores.

#### Medicine Bottles

Medicine bottles, 2-4-6-8-12 ounce sizes, with or without closures, should be taken to the collection box in front of Fell's store, 511 Central avenue. No other kinds of bottles are wanted at this time.

#### Stockings

Clean, cord silk, nylon, rayon or any combination of these materials, should be taken to collection boxes at all local hosiery departments.

#### Paper

Paper and magazines, if broom stick high and tied in bundles, may be given to charity trucks or sold to junk men. See your classified directory for junk men operating in Highland Park. Do not throw away corrugated boxes, magazines, or wrapping paper. Sort, tie up, and save until enough has accumulated for you to sell or give to charity trucks. (At the present time, the City has facilities for picking up paper only during the week-long drives).

#### General Information

All proceeds from Victory Boxes, where Junior Captains take their collected scrap, go towards defraying local Civilian Defense expenses. You may make your own arrangements with a junk man if you want the profit. Civilian Defense gets nothing from Charity Truck pickups. Charity trucks come to Highland Park on request. Your penny postcard addressed to the Salvation Army, Goodwill Industries, Volunteers of America, or the Chicago Industrial League (addresses may be secured from Civilian Defense), will bring their truck. Because of fire and gas restrictions do not write unless you have approximately 100 pounds of paper. Victory Salvage boxes are located at railroad stations at Braeside, Ravinia, Highland Park, Briargate, and Woodridge and at the High School, Lincoln School and across from the Highland Park Post Office.

City trucks empty these regularly. For further information call Civilian Defense or your block conservation

America's first trophy captured after the attack on Pearl Harbor—the Japanese two-man suicide submarine—will visit Highland Park on August 26 on its nation-wide War Bond tour for the U.S. Treasury Department, it has been announced by Niels Clausen, chairman for the Submarine Day program.

As a stimulant for the purchase of War Bonds and Stamps it has no peer—and as a submarine it has traveled overland much farther below sea level than its quarter-inch hull could stand under water. It has also traversed the highest mountains and the narrow winding roadways through the many mountain passes between San Francisco and the East.

It was sighted on a reef near the Island of Oahu across from Pearl Harbor and was taken intact after the attack. Its officer, was also captured and it is assumed that the mechanic drowned. The sub weighed nearly 35 tons, but for touring purposes the Navy lightened this load by removing torpedoes, the demolition charge, the heavy storage batteries and the motor—substituting in their stead in exact replica of lighter material, so as the public views the submarine today, they see in substance what they would have seen had they viewed it at the time of the capture.

The submarine was powered by storage batteries and had a cruising range of approximately 150 miles. There was no way to re-charge the batteries while on cruise. Two very real looking "Japanese" figures in authentic uniforms are at their battle stations.

The captured submarine was taken apart at Pearl Harbor by the U.S. Navy for study, and photographs were taken and blueprints made of the many parts. The submarine was then shipped to the Mare Island Navy Yard at San Francisco and put back together. Port-holes were cut in both sides of the hull and folding steps and catwalks put on so that the public might view the interior. The only means of entrance is through a 15 1/2 inch opening atop the conning tower.

The only requirement for viewing this submarine at close range is the purchase of War Savings Bonds or Stamps. During the exhibition Bond and Stamp Booths will be manned by volunteers. This trophy of war has so stirred Americans that Bond and Stamp sales have averaged more than \$22,000 for every hour it has been exhibited.

## Man Found On Steps of Tavern; Dies in Hospital

Howard Francis Ogle, 55, an employee at the Exmoor Country club from July 3 to 26, was found on the basement stairway of the Rainbow tavern at 405 Waukegan avenue, Highwood, early Friday morning in an unconscious condition and badly wounded. He died Saturday morning in the Lake County hospital without regaining consciousness.

Ogle was discovered by Pete Corsini of 5 Clay street, Highwood, who in turn summoned Chief of Police John DeSmit and Police Officer Peter Andreotti. His body was badly bruised and he suffered from a skull fracture. It was believed by police that he was run over by an automobile and then placed on the steps.

He is survived by a sister, Mrs. Marie Greer of 7046 Rhodes avenue, Chicago.

## Ask Air Patrol To Search For Lt. Col. Hulse

An appeal has been made to the civil air patrol throughout the central states to search for Lt. Col. S. W. Hulse Jr., 29, of Truax field, Madison, Wis., who vanished last week while flying alone to Selfridge field, Mount Clemens, Mich.

Col. Hulse was a West Point graduate of 1936 and attended high school in Highland Park. Col. Hulse, who had been living with his wife and son at Madison, was director of training in the radio mechanics school at Truax field. It is thought that his plane may have been forced down in Lake Michigan.

## CHILD DISAPPEARS; FOUND BY POLICE

The year-and-a-half old daughter of Mr. and Mrs. J. A. Steinmetz, Dorothy, disappeared from 909 Taylor avenue, where she was visiting with her mother Monday. She was found an hour after her mother missed her in the slough on W. Park avenue by police. The Steinmetz home is at 41 N. Second street.
