Third War Loan Bond Drive Nears Finish

"A big IF was injected into Highland Park's Third War Loan drive during the last week," according to Campaign Chairman A. E. Patton, because of the lag in E. bond sales.

Emergency measures were immediately adopted. A special bulletin was rushed to all sector chairmen urging them to muster the 400 block chairmen in a final push that will increase the total of sales made to the savings investor.

"It is just as important that we meet our quota of E. bond sales as it is for us to make our grand quota," Chairman Patton emphasized. "These sales reflect the interest of our community at large. We propose to prove it."

"We are now at the critical stage of our local drive," Chairman Patton said. "Eighty per cent of our families have bought more than \$600,000 in bonds. The other 20 per cent have either not been called upon or have not responded to this appeal. It is to this group that we must look for the added sales that will enable us to make our quota."

"I congratulate our block chairmen on the work they have already done," Chairman Patton continued. "Their's has been an inspiring example of unselfish service to our community and to our nation."

"Now we have been called upon to add that something extra which in the army is the difference between victory and defeat. I know, and the loan committee knows, that they will not fail us."

"It is better than an even money bet that Highland Park will make its quota, but it's going to take every ounce of fight we've got to do it. That will make our success all the sweeter."

Increase in Sales

Post office sales showed an increase during the last week, according to Postmasters Daniel Cobb of Highland Park and J. A. Thomson of Ravinia. "We are hopeful," Mr. Cobb said, "that there will be a last minute buying rush that will help to boost our E. sales."

The War Bond vaudeville show scheduled at the Alcyon theater for Wednesday evening of this week, was cancelled, according to Chairman William Pearl, due to the lack of suitable talent. "The Alcyon theater which is an issuing agent, will however, Mr. Pearl said, "report a substantial amount of E. bond sales."

Every person who bought a bond at the theater during the drive has been given a complimentary ticket for a coming performance.

Final results will be posted on the official score board on Central avenue opposite the Northwestern depot, when they are issued by the U. S. Treasury department.

Debtors' Petition Filed For Masonic Temple Building

On Monday, September 27, 1943, a debtor's petition was filed in the Federal District Court in Chicago in bankruptcy for reorganization of the Masonic Temple building.

We have been told that it is the debtor's plan to give stock for bonds. Earl Sheahan, W. W. Steele and John S. Ball have consented to act as representatives of a number of bondholders and will act for any others who join with them. They propose to follow the proceedings in the court to see that the bondholders' interests are protected.

Dear Highland Parkers:

We are all to be invited to a very unusual Birthday Party, and it is going to be of such importance, we have to begin to make plans for it now.

In order to start the ball rolling, Mayor Garnett called together a group of old settlers and asked them what kind of a celebration should be staged at this Birthday Party, which is to be held March 11th, 1944, because Highland Park, on that day will be 75 years old.

Our neighbor, Glencoe, will also have a 75th birthday in October. They are already getting plans made to have their Birthday Party the "finest ever."

Now, ours coming in that undependable month of bad weather, a parade will have to be cut out of the program. But there are so many other ways of making the day a memorable celebration.

To begin, many families have an interesting heirloom, which they could loan to the exhibit of which our Public library will take charge. Please notify Miss Mary Egan, the librarian, so she can arrange space for it. Or you might have an historical fact, put in writing, which would make interesting reading. The library will also arrange to have it displayed.

Every church, school, organization, society, club should take part in the program.

On Oct. 20th, a meeting will be held in the Historical Room of the library at 8 p.m., at which time a Chairman and other necessary appointments will be made. If you haven't been in the Historical Room of the library, it will be worth your while to visit it. There will be a general discussion. Come and bring your ideas. Contributed.

Help Bring Them Back!

We are engaged in the grimmest struggle the world has ever seen. This fact is hard to grasp here in our peaceful community—until we study the local honor roll of servicemen, with its proud array of over 1500 names. Names which remind us of familiar faces now for some time missing from our streets and public places. Until we come to the name of one who has already given "that last full measure of devotion."

We can't all be in the thick of the fight. Only the flower of our young manhood is qualified for that service. That splendid son, that favorite nephew, that neighbor boy with his engaging grin and cheery whistle—they are "out there" now, facing untold peril, that we may all remain free.

But we can all fight with the civilian's weapon of defense—our dollars. Back them up—those grand boys—with your faith, your prayers—and your dollars. They are well on their way to Berlin and Tokio. It is your duty to provide them with the round-trip ticket. Buy that war bond today.

AN OPEN LETTER TO HIGHLAND PARKERS

Dear Sir:

The new Recreation and Playgroup commission recently appointed Mayor Joseph Garnett is sensitive to the fact that it owes its creation to the citizens of Highland Park who voted for the recreation tax last April.

Because of this, the commission would like the public to know who the members of the commission are, how its organization is being set and exactly what its procedure has been.

It is obvious from requests which have already come to the commission that there is popular misunderstanding as to its present financial position. Although the tax was voted for in April, no moneys are available to the commission until next May, since local tax year runs from May to May.

The personnel of the commission, appointed by Mayor Garnett with the terms of office as follows: Geo. Hartman, five years; Mrs. David Leason, four years; Mrs. Carroll Bingham, three years; Arthur Olson, two years and E. C. Skidmore, one year. All appointments will all be made on a five-year basis.

The commission has met twice and has voted to meet regularly the second Thursday of each month. At its first meeting it elected the following officers: Arthur Olson, president; Mrs. Binder, vice president; Skidmore, treasurer; Mrs. Leason, secretary, and Mr. Hartman, chairman of activities.

The commission feels very deeply its sense of responsibility to the future of Highland Park in setting its sense of responsibility to the future of Highland Park in setting its organization. There are few bodies created on exactly the same pattern as this new Recreation and Playgroup commission. Preliminary meetings have been given over to studying actual organization possibilities and legal responsibilities before setting working rules for Highland Park's set-up. A visit has already been made by one member to the Park which has a similar commission and a commendable program. Further visits are planned to study the details of program planning both in Oak Park and other localities so that we may do the best possible job for Highland Park within the limits of the funds available.

Not until next May will the commission be in a position to spend money. By then it will have the full responsibility for Community Chest. During this winter, the commission will be working on budgets and programs in order to spend as wisely as possible and for the benefit of the most people the money for which it will be responsible.

The commission at its last meeting voted to ask the Recreation committee of the Co-ordinating committee to continue its work this fall and later in co-ordinating the activities of various organizations dealing in recreation and setting up co-operative programs as it did this summer.
