**A WORK OF FAITH**  
In Council Bluffs, Iowa, is located a Home for orphan and destitute girls and boys, which is different from any other organization of its kind in the country.  
The Home is founded on the Promises of God, more than three score years ago, by Rev. J. G. Lemmen, a godly man of gigantic and unwavering faith.  
This Home, which is the Christian Home Orphanage of Council Bluffs, Iowa, is supported by the free will offerings of the lovers of God and Humanity. Thousands of children have passed through its portals during the long years of its existence. Children, who were in the Home, years ago, are now outstanding men and women of today; many have won fame and fortune, due to the teachings received while they were children at the Home. These same children had they been left in their original pitiful surroundings, might have helped to fill the penitentiaries of today.  
The Christian Home Orphanage is a national home for children; it is located in Iowa, but it is supported by the voluntary contributions of charitable people from all sections of the country. It receives no appropriations of any kind, and employs no traveling agents, but depends entirely upon God, through you His earthly agents for its support.  
The Christian Home conducts its own Church and Sunday School; also its day school up to and including the seventh grade. After the children of the Home have completed the seventh grade, they enter the public schools of Council Bluffs, Ia. Many have graduated with honors from the local high schools, and then have entered higher schools of learning.  
The work of caring for homeless children, and training them to become Christian men and women, is the most outstanding work of today. The Christian Home Orphanage is doing this work, but it cannot do it without your gifts and cooperation.  
For information in regard to this remarkable Home, write to the Christian Home Orphanage, Council Bluffs, Iowa, and literature will be sent to you.  
All contributions sent to the Christian Home Orphanage, Council Bluffs, Ia., are duly acknowledged and credited in the official publication, "Christian Home," a sample copy of which will be sent to you request.

News—Pvt. Harold Corpron, formerly of Visual Aids, is now in Louisiana. If it is hotter there than it is here, you have our sympathy, Harold.  
Transfer—Miss Henrietta Hayworth, our program director for the last two years, has been transferred to our USO-Salvation Army club in Rockford, Ill. She left last Thursday to assume her new position there.  
Vacations—A number of our junior hostesses are taking their vacations this month so quite a few are missing from their usual duties at the club.

## Service Council for Soldiers and Sailors

The Soldiers and Sailors Service Council today announced that nearly a dozen prominent law firms had agreed to handle free of charge all necessary legal work in connection with obtaining government gratuity payments for dependents of Army and Navy personnel who have been killed in action or have died in active service.  
The move to secure the cooperation of the lawyers, who asked that their names be withheld, was made by the council after it was brought to its attention by relatives of deceased service men that the expense of hiring lawyers amounted to from \$50 to \$125 in connection with securing their gratuity payments from the government.  
Britton I. Budd, chairman of the council and president of the Public Service company of Northern Illinois, said that gratuity payments up to \$500 for army men and \$1000 for navy men required only proof of claim or kinship but that the service men's dependents entitled to over \$500 or \$1000 respectively were required to have administrators appointed and letters of administration approved by the court. It is with respect to these latter cases that the law firms offered to provide free legal services.  
In the third annual report, mailed today to the more than 60 industrial, legal, and civic leaders throughout the state who make up the council, Budd reported that over 80,000 Illinois service men had "left their troubles at home" as a result of the council's work.

Organized ten months before Pearl Harbor to give free aid on a state-wide basis to Illinois' service men and women in the adjustment of personal problems, the council has helped solve such individual problems as dependency allotments, maternity care, evictions, personal loans, mortgages, income tax delinquencies, insurance, leases, mustering out pay, and legal and medical aid.  
Budd paid tribute to the American Legion, American Red Cross, Chicago and Illinois Bar associations, and the Army and Navy Relief societies for their cooperation with council members in the handling of the service men's cases which presently are running from 100 to 125 per day. These are the cases, he said, which come personally or through the mail to the council's office at 140 S. Dearborn St. (Chicago) and do not include additional scores of telephone applications for free help or information.

## What's Cooking

A workman, hired as a grave digger, was instructed to dig a grave. After digging for several hours he suddenly found that he could not throw the dirt out of the hole, and he realized he had dug too deep, so he could not get out. He shouted but no one came to help him until a "drunk" staggered up and looked down and said, "What's wrong?" The grave digger answered, "Get me out of here, I'm cold." The drunk after deep thought started to kick dirt into the grave and said, "No wonder you're cold, you haven't any dirt on you."

And speaking of digging, we are replacing several hundred feet of Gas mains north of Highland Park as a part of our regular maintenance program. These mains help serve this area.

No doubt many lives have been saved by a new emergency de-salting bag which makes water safe for drinking. A flyer forced down at sea finds in his rubber raft a sea water de-salting kit. He fills a plastic bag with sea water, drops in a chemical briquet, kneads the bag to mix thoroughly, and after about forty minutes, he can suck the clear filtered drinking water through the outlet tube.

Do you help in the war effort by turning in waste paper? Printers' Ink magazine says sixty and one half TONS of surplus paper came from a waste paper drive in the Empire State Building in New York.
