

Morrow Krum Memorial Fund

Colonel Morrow Krum, former resident of Lake Forest, who died a soldier's death in the crash of an army bomber on a lonely Iceland mountain a year ago last May, is to be honored with a children's playground bearing his name, according to a recent announcement by Mrs. Proehl Jaklon, chairman, Morrow Krum Memorial fund, of the Arden Shore association.

Colonel Krum at the time of his death was press relations officer for the European theater of operations. An aviation cadet in World War I and an enthusiastic amateur flyer, he had been associated, prior to volunteering for active military duty in the present war, with the advertising firm of Roche, Williams & Cleary, Inc., of Chicago. In that capacity he was widely known in automotive circles as director of special publicity activities for the Studebaker corporation and Bendix Aviation corporation. He was posthumously awarded the Medal of Merit.

"The idea of a Morrow Krum Memorial Playground," stated Mrs. Jaklon, "originated among some of his closer friends who knew how much interest Colonel Krum took in the mothers and children helped by Arden Shore. Because he had so much in common with all children, whom he befriended and understood, it seemed particularly fitting that his memory should be kept shining through the years by a playground which has been in contemplation for some time."

The financing of the project will be underwritten by numerous friends of the late Colonel. Frank S. Read of the First National bank of Lake Forest has been appointed treasurer of the Morrow Krum Memorial fund. In addition to the playing field, a modest field house, a bleachers, a fence, grading, clearing, carpentry and the like will be covered by the funds raised in addition to the purchase of baseball and other game equipment and the erection of a drinking fountain.

The Arden Shore camp at Lake Bluff covers several acres and is host annually to several thousand under-privileged mothers and children for two-week outings. The association was founded in 1901.

SPARs Celebrate Second Anniversary Nov. 23

A double celebration for the Chicago SPARs comes this week, for Nov. 23 marks the second anniversary of their organization. On Tuesday all Chicago SPARs were entertained by Marshall Field & Company at an anniversary tea. The birthday cake was cut by the first members to report to Chicago, on Feb. 22, 1943.

In their first two years, the SPARs have grown to an organization of nearly 10,000, performing vital jobs for the nation's oldest maritime service. They have won the admiration of Coast Guardsmen by proving their worth at stations in all the nation's 11 continental naval districts.

Departure of the first drafts for overseas duty, expected early in 1945, occupies first place in the future plans and hopes of many Chicago SPARs. They will be assigned to duty in Alaska and Hawaii if they have been a year in the service and have volunteered for these assignments.

Cigarettes to Go Unrationed

The shortage of cigarettes experienced throughout the country reflects the bad distribution due to war time conditions and the fact that the armed forces are now smoking a fourth of the country's total production, but no rationing of them is contemplated, the OPA states. The WFA reports that the number of cigarettes being manufactured for civilian and soldier consumption is the greatest in the history of the tobacco industry. Only a negligible amount of tax-free cigarettes is sent abroad for consumption other than by our armed forces. Black market operations and hoarding are also believed to be the factors contributing to the spotty distribution and civilian shortages.

Tuberculosis Association Christmas Seals Placed in Mail November 27

Through the co-operation of Lake county postal authorities the 1944 Christmas Seal will make its appearance Monday, Nov. 27, when thousands of letters containing sheets of the stamps are placed in the mails by the Lake County Tuberculosis association from its headquarters in the Citizens bank building in Waukegan.

Each year since 1908 when the Lake county association sponsored the first seal sale in the state, the citizens of the county have supported the sale of the cheery stamps at Christmas, the proceeds of which are used all year to stamp out tuberculosis. The seals for the first state-wide seal sale were printed in Lake county and the sale for the first year netted \$600.

Last year Lake county reported the largest sale in the state outside Cook county and is anxious to retain the silver trophy it was awarded for outstanding work in selling more than \$27,000 worth of seals. To keep the trophy the association must rank first for two more years.

Through the co-operation of the Girl Scouts, members of the Y-Tri club of the YWCA, the 40 at 8 auxiliary and the Boy Scouts who put up posters throughout the county, the seals are ready for mailing and using all through the holidays.

First Marine Twins Receive Navy Crosses

Action on New Britain brought a war d's to the fighting Hansen twins of Batavia, N.Y.—Their amphibian tractor became wedged between two fallen trees — As Paul worked the controls trying to restart it, Leslie, unable to reach his rifle, barehandedly took on two attacking Japs — the trio rolled over the side — Paul started the tractor and continued the mission by smashing three enemy pill-boxes, accounting for 68 dead Japs — Twin Leslie had been killed by an enemy grenade.

Women Voters Gather Demobilization Data

What is being done by state and national levels for returning veterans, and what can be done at the community level will be discussed under the title of "Our Part in Demobilization" at the Highland Park League of Women Voters' school meeting next Wednesday. The study class will meet at the Community Center at 1:15 p.m. on Nov. 29.

The league committee on economic policy, with Mrs. Walter Neisser and Mrs. Robert Landauer as chairman and co-chairman, has been gathering data for studying the practical aspects of demobilization as it will concern Highland Park as well as every other community in the United States. Discussion will cover the 'home town' adjustments and needs of returning service men and women.

"Although the league is primarily concerned with an individual's interest in government," Mrs. Neisser observed in announcing the forthcoming school meeting on demobilization, "it is equally important in war time for us to know how we, and our community, can prepare to facilitate returning veterans' transitions into civilian life."

The league is now concentrating on post-war problems, peace proposals and a study of the Illinois State Constitution. School and lecture meetings are open to non-members as well as all members who are interested in the vital questions confronting America today.

Nationwide Bible Reading Sponsored by Churches

A campaign for reading the Bible between Thanksgiving and Christmas has been sponsored by the interdenominational American Bible society, according to information released recently in local churches. The plan is for servicemen to receive a copy of the list of readings by means of V-mail sent to their overseas address, and the families at home to read the same passages on the same days.

The chapters were selected as the result of a nationwide canvass of pastors and chaplains, the chapters receiving the greatest number of votes placed on the list in the order of their popularity.

The following is the list for the first week:

- Thanksgiving, Nov. 23—Ps. 103.
- Friday, Nov. 24—John 14.
- Sat., Nov. 25—Ps. 23.
- Sun., Nov. 26—Ps. 1.
- Mon., Nov. 27—Matt. 5.
- Tuesday, Nov. 28—Rom. 8.
- Wednesday, Nov. 29—I Cor. 13.
- Thursday, Nov. 30—Ps. 91.

Safety is one of our important features of working conditions at North Shore Gas Company. Good equipment, regular inspections, and safety and first aid training reduce accidents.
