

Woman's Club to Hear Dr. Gable on Radium

"Personal Experiences in the World of Radium" will be discussed by Dr. Luther Gable at the next meeting of the Highland Park Woman's club, on Tuesday, March 20, at 2 p.m.

Such a subject may sound technical and difficult to a great many people, but they may rest assured that Dr. Gable will break it down into one of the most fascinating subjects they have ever glimpsed. A topic of increasing importance in the post-war years, the use of the new amazing black-light, is demonstrated by one of the foremost radium engineers and physicists in the country.

Mr. Gable is a member of the Institute of Radio Engineers, the Central Society of Science and Mathematics Teachers, the American Association for the Advancement of Science and the famed Adventurer's club.

Anyone who has a highly colored floral print dress is asked to wear it to the lecture so that it may be viewed in fiery, vivid colors in the dark, under the black-light.

Prospecting in the west in the heat of the deserts or at night with the aid of black-light, and by plane in the Arctic regions, will all be discussed by Dr. Gable with the aid of interesting exhibits and demonstrations.

One of the many unusual stories Dr. Gable will tell is about a "desert rat" of the great Mojave who is now being filmed in Hollywood as America's Radium Queen.

While Dr. Gable has appeared on the lecture platform for a good many years, this is an entirely new lecture and the reports pronounce it remarkable.

The hostesses will be Mrs. Louis V. Francoeur, Mrs. Ralph B. Ritter, Mrs. Dwight H. Davis and Mrs. George J. Kirkgasser.

COLORED DANCE GROUP RECEIVES HIGH PRAISE

A picked group of dancers from Mildred Haessler's dancing classes at the Rosenwald foundation, Chicago, appeared March 5 at a benefit concert given by the Chicago Colored Opera company. They opened the program with an original number taken from Valse Arabesque, by Theodore Lack, created and arranged by themselves under the supervision of their instructor, which was enthusiastically received. Beautifully costumed, they displayed rare imagination and showed fine training.

The group was also applauded for their support of the vocalists in the ballet scene of Naughty Marietta.

Anyway, It's Settled . . .

There's the story of two privates who paused to puzzle over a dead animal they saw by the roadside. "It has two stripes," said one. "That settles it," said the other. "It's either a skunk or a corporal."

Corwin D. Edwards, Northwestern Economist, To Speak at Voters League

The League of Women Voters is enthusiastic over its good fortune in securing Corwin D. Edwards, professor of Economics at Northwestern university, as guest speaker for the March 21 meeting at the Community Center at 1:15 p.m. "The Economic Aspects of International Cooperation," on which Professor Edwards will lecture, give further evidence of the need of international cooperation for maintaining peace which the league is emphasizing throughout the year.

Considered a fascinating speaker by many who have heard him, Professor Edwards has a remarkable gift for animating and simplifying a complex subject, and is qualified by academic training, research and experience to probe into the vast subject of international economics. He is known as a national authority on cartels, and served as consultant to the State Department prior to joining the faculty of Northwestern. At one time Professor Edwards was assistant chief economist of the Federal Trade commission and, in 1942-43, served as chief of staff of the American Technical commission to Brazil.

Following undergraduate work at the University of Missouri, Professor Edwards attended Oxford university and received his Ph.D. at Cornell in 1928. He has lectured at Columbia and Harvard and has done extensive research in price policies, industrial organization and government regulatory policy toward markets. His articles on economic behavior, economic and political aspects of cartels and the economic problems in a changing world have appeared in major publications since 1931.

Many league members are inviting friends to hear Dr. Edwards next Wednesday, as his talk will give a great deal of valuable information and at the same time climax a long series of discussion and study groups on international cooperation.

Each month there return to these shores thousands upon thousands of the sick and wounded whose sacrifices are the bitter price of victory. Adequate care for these men who have given so much is the very least a grateful nation can give. Yet so great is their number that the Army hospitals, already stripped of available personnel for duty overseas, will be swamped by this swelling flood of casualties unless they have help, the help American women can give.

So urgent is the need for enlistment in the WAC hospital units, that Gen. George C. Marshall, chief of staff, has appealed to the governors of all states to sponsor a campaign to recruit women for services in army hospitals. In re-

sponse to a letter from Governor Green asking that civilians launch a community-wide program for enlistments, Mayor Garnett appointed Mrs. Wilson Kline to be chairman of a local committee to acquaint every home in Highland Park and every woman within the age limits specified by the army, with the urgent need for hospital technicians.

At a meeting held at Mrs. Kline's last Monday afternoon, a committee of twelve began work on plans to encourage enlistment of women, who, after preliminary basic training, will be assigned to duty in the army general hospitals in the United States as medical and surgical technicians or clerical workers. Eight thousand women are needed to assist overworked doctors and nurses in caring for the men who 'cared for America.'

Serving on the local committee are Mrs. Wilson Kline, chairman; Mrs. Earl Wallis, co-chairman; Mrs. George Carr, Mrs. Charles Mason, Mrs. O. L. Olesen, Mrs. Irving Schur, Mrs. Lewis Sinclair, Mrs. John VanBergen, Miss Grace Gregori, Miss Thoretta Gregori, Miss Lucille Spowers and Mrs. Herbert R. Smith.

LESSONS IN ENGLISH

By W. L. GORDON

Words Often Misused
Do not say, "The two books were both on the table." Omit both, or say "Both books were on the table."

Do not say, "He didn't go to work as he was sick." Say, "because he was sick."

Do not say, "They discussed several topics aside from the main subject." Say, "They discussed several topics apart from (or, in addition to) the main subject."

Do not say, "As many as want tickets should buy them now." Say, "All who want tickets should buy them now."

Do not say, "I have assembled together all the evidence." The expression assembled together is redundant, since the first word implies the second. Omit together.

Do not say, "The professor was at fault several times during his lecture." Say, "The professor was in fault."

Words Often Mispronounced
Grocery. Pronounce gro-ser-i, o as in no, e as in her, i as in it, accent first syllable, and not gro-shri.

Geyser. Pronounce gi-zer, or gi-ser, i as in lie.

Barrage (military term). Pronounce ba-razh, first a as in ask unstressed, second a as in ah, accent last syllable.

Gibe. Pronounce jib, i as in lie.

Affluence. Pronounce af-lu-ens, a as in at, u as in unit, e as in end, accent first syllable, not the second.

Highwayman. Principal accent is on first syllable.

Words Often Misspelled
Proceed, two e's; procedure, one e in second syllable. Stiletto; ob-

serve the land double t. Clientele; observe the tele, pronounced toll. Boudoir, though pronounced boodwar. Incite (to move to action): insight. (understanding, discernment); Terpsichorean (of dancing); observe the vowels, and also the ch, pronounced k.

Word Study
"Use a word three times and it is yours." Let us increase our vocabulary by mastering one word each day. Words for this lesson: EVOLVE; to unfold or unroll; to develop. "The principles which art involves, science alone evolves." Whewell.

TURBULENT: disturbed; agitated; roused to violent commotion. "Calm region once, and full of peace, now tossed and turbulent." Milton.

DEFERENTIAL: expressing courteous regard for another's wishes. "He spoke in a deferential voice to the elder man."

FALLACY: deceptive or false appearance; that which misleads the eye or mind. "Men are apt to suffer their minds to be misled

by fallacies which gratify their passions."

ABSTRACT (noun): that which comprises in itself the essential qualities of a larger thing; a summary. "An abstract of every treatise he had read."—Watts.

HUMANITARIAN (adjective): pertaining to philanthropy. "The miser had never been moved by humanitarian impulses."

MARRIED LIFE BEATS PRE-NUPTIAL ACTIVITY

Aboard a Coast Guard Cutter in the North Pacific. — The Eskimo road to matrimony isn't paved with gifts and good wishes, Coast Guardsmen from this ship learned on a recent trip to the far north, according to a Coast Guard correspondent.

Before marrying his prospective bride a groom must prove his worth to his father-in-law by acting as house handyman or even supporting the entire family. Industrious men have married within a year. One, however, was kept on the job for 10 years — and won the woman.

RATION REMINDERS
