Among the marines participating of almost every engagement in the Pacific. S. Fleet in the early historic engagements at Java and the Coral Sea, and marines who had participated in landings at Guadalcanal, Tulagi, Tarawa, the Marshalls, the Marianas, and the Philippines.

LEGION WILL HEAR LT. J. THOMAS TAUSSIG

Guest speaker tonight (Thursday) at Highland Park post No. 145, is 1st Lt. J. Thomas Taussig, USA, commanding officer of the Reception Center 32 at Ft. Sheridan. His subject is "Separation Of Men From the Army."

"Kussin Kitty" and The Five Marines

Bloody beachheads are not the best breeding place for soft language. Five marines, in the Pacific area, after hearing a rousing sermon, on "Let's Be Christians on Week-days as Well as Sundays," came home and created the "KUSSIN KITTY," a tobacco can with a slot in the top. Every time anyone in the office with the Five Marines cuts loose, now, he has to feed the Kitty. The yield the first week was \$15, the next week much less. "No danger of 'KUSSIN KITTY' going out of business, say the marines, "but she's doing a lot of good."

WHAT'S Cooking

Some husbands are wonderful. We know one who has been married twelve years and has never stopped being romantic. Of course, if his wife ever finds out about it, she'll break his neck.

All joking aside; most men wish for their wives to have the best of everything. That is where Gas Service will come in after the war when appliances and Gas Service are available. The New Freedom Gas Kitchen is being planned now for sale by your dealers as soon as manufacture of appliances is resumed.

Speaking of things new—A newly designed fighter plane, the P80 Shooting Star—is said to be capable of speeds of 800 miles per hour which is faster than sound.

Another Army triumph, developed by Bell Telephone Laboratories, consists of a method of laying telephone wires by air. A transport string 16 miles of wire at 150 miles per hour. Parachutes are attached to the two ends.

Telephone service is used by your Gas Company in many novel ways. For instance, a pressure gauge in south Winnetka is connected by a leased telephone circuit to our pressure station at Deerfield where the pressure is shown constantly and a pen continuously records the pressure on a chart. Better service to you is insured.
