**Location Service of Chicago United Charities**

A growing function of the Christian Refugee department of the United Charities of Chicago lies in its "location service," which endeavors to locate relatives and friends of displaced persons in Europe. The service is for non-Jewish persons.

Mrs. Elsa Englander, who is in charge of the service, reports the case of a Czechoslovakian widow who had undergone great suffering and privation. She had lost her husband and two sons in the war, saw her home destroyed and her possessions seized. She had escaped to southern France and obtained refuge there with her youngest son who had been wounded fighting with the French army. They were on the verge of starvation and she appealed to the Swiss committee to locate a relative in Chicago. The location service found this relative through the simple expedient of consulting the telephone book. She was a wealthy widow; managing a flourishing loop business and was immediately willing and anxious to help. Now she contributes \$75 a month for the support of the mother and son.

It is not always so easy to locate relatives. Sometimes it is a long and arduous task but no stone is left unturned.

It is significant that the recent trend has been that of Europeans asking that relatives be located here rather than people here asking us to locate their kin abroad.

Mrs. Englander anticipates an increase in the number of requests coming to her. The location service is a branch of the United Charities and is located at 330 S. Wells St., Chicago.

**Public Relations Office Adopts a New Name**

Effective immediately the Navy department has changed the name of its former Office of Public Relations to the Office of Public Information. This change will affect former public relations offices throughout the navy, both in the fleet and ashore. There will be no shifting or changing of personnel or general policies, however, the navy announced.

Since its inception the former office of public relations actually functioned for the purpose of bringing to the U. S. public news and information concerning the navy and navy personnel. The change of name was made to describe more accurately the duties of the office.

**WHAT—NO SARONG?**

AT AN ADVANCED COAST GUARD BASE IN THE PHILIPPINES. (Special.—When snakes slip past the ushers at this theater in the Philippines they bring the audience to their feet faster than the national anthem, said Charles C. Spink, coast guard correspondent. Coast guardsmen in the front row thought this the case recently when a roar was heard behind them. Getting to their chairs they saw the cause of the commotion. A young Filipino girl, a la Lana Turner, had entered the theater wearing a yellow sweater.

**OVERHEATED ICEBOX CAUSES HURRIED EXIT**

Awakened early last Thursday morning to find the house filled with smoke, the J. L. Robinson family, 476 N. Ridge, made a hasty exit through bedroom windows.

The fire was caused by an overheated motor in the electric icebox, the flames spreading to the wall and floor of the kitchen. Total damage was estimated at about \$1,400.

## Local Events of 25 Years Ago

(Issue of Highland Park Press, July 1, 1920.)

**HIGHLAND PARK DAY**

A committee from the Business Men's club, composed of George Bock, Albert Larson and George E. Rowden, was appointed to meet with Harry Eichler and W. Fred Gallagher of the American Legion and committees from other organizations and fraternal groups to plan for a "Highland Park Day" to be held in the near future.

**RAVANIA OPERA**

Ravinia opera opened its season with an excellent program. On the opening night "Tosca" crowded the house with a cast including Antonio Scotti, Florence Easton, Morgan Kingston, Louis D'Angelo, Paolo Ananian, Giordano Paltrinieri, Max Toft and Mary Kent.

Charles Hackett made his debut in "Manon" with Edith Mason playing the title role. The Chicago Symphony orchestra gave its first Ravinia concert under the direction of Richard Hageman. Florence Easton appeared in "Cavalleria Rusticana" and "Lucia" was presented with Consuelo Escobar and Pilade Sinatra as leads.

**LOCAL BOY WEDS**

Harold Olesen, son of Mr. and Mrs. O. L. Olesen, returned from Buenos Aires, where he had filled the post of chief engineer for the Marconi Wireless, to take a similar position for the same company in New York City. Upon his return he was married to Miss Louise Boehmer of Springfield, Mo.

**APPLY FOR L.O.O.M. CHARTER**

An application signed by 25 citizens was made for the establishment of a Moose lodge in Highland Park. With the list of signers rapidly growing, the future of a lodge was practically assured.

**REPUBLICANS ORGANIZE CLUB**

A Harding and Coolidge club was being organized by the Republicans of the town. An old-time campaign, with brass bands, torchlight processions, fireworks, etc., was being planned. Mayor Hastings stated that General Dickson of the Governor's staff would make the opening address.

**HIGHLAND PARK ATHLETIC CLUB**

The Highland Park Athletic club baseball nine won 7 to 6 over the "Bengal Tigers" at Central Park.

**BATHING BEACH OPENED**

The bathing beach opened the preceding Sunday with 5000 visitors. Many improvements had been made on the beach house, and an expert lifeguard was on hand as well as a woman to look after young children.

**SILENT MOVIES**

Betty Hilburn and Chester Barnett in "The Girl of the Sea" were being shown at the local theater. Mitchell Lewis and Helen Ferguson in "Burning Daylight," Harry T. Morey in "The Sea Rider," Dorothy Gish and James Rennie in "Remodeling Her Husband" and James Oliver Curwood's drama, "The Courage of Marge O'Doone" were also featured. Other items were Mutt and Jeff comedies and The Gumps.

**Regional Chairmen Receive 100% Club Lapel Pins**

Five regional chairmen and three district chairmen of the Suburban division of the Community and War fund are scheduled to receive "100% Per Cent" club lapel pins signifying that they have organized completely their campaign staffs for the fall drive.

In making this announcement, Stuart W. Cochran, chairman of the Suburban division, explained that the award will be given to all chairmen who complete their organization appointments for the drive.

One of the five chairmen to receive pins is E. F. Nelson, 1569 Oakwood avenue, Deerfield, Region I.

Members of the club will be asked to pledge 100 per cent participation for their areas during the drive. Chairmen whose areas reach this goal will receive merit awards, large maps of the suburban division of the drive with the pictures of winning chairmen superimposed upon the maps.

Money contributed to the fund helps support the USO, USO-Camp shows, War Prisoners aid, United Seamen's service, and 16 allied relief and rescue-aid agencies. Funds raised in the suburban areas aid suburban chests and charities and the war-related agencies.

His work is done, and we have only to avail ourselves of God's rule in order to receive His blessing, which enables us to work out our own salvation.—Mary Baker Eddy.

## Doctors Use Trailer For Okinawa Job

By Sgt. E. Meagher  
Marine Correspondent

**OKINAWA (Delayed)** — Big, broad-beamed, ungainly on the outside, but neat, shining and efficient inside is E Medical Company's mobile operating room — a trailer, swear the doctors, with a fighting heart.

They — the four navy doctors — call her "Old Indomitable." "You'll never get her aboard ship, they told us," said one of the doctors, Lt. Charles M. Ihle of Eau Claire, Wis., commander of E Company.

"We got her aboard all right. Then they told us we'd never get her off. She came off fine. Next, we were told we'd never get her ashore on Okinawa, because of the coral. . . Hah!"

**Acquires Nickname**

"It was around there sometime we began calling her 'Old Indomitable,'" said another one of the doctors, Lt. (jg) Wilfrid N. Sanders of Fremont, Nebr.

The other two doctors are Lt. Paul H. Reinhardt of Oakland, Calif., and Douglas J. Giorgio of Flushing, N. Y.

**Aboard coral notwithstanding**

Old Indomitable quickly became the pride of the entire sixth marine division's medical battalion, of which E. Company is a part.

In any sort of battle a mobile surgery is useful, but the unexpected rapidity of the sixth's advance on northern Okinawa made Old Indomitable invaluable. The mobile operating room, which would have filled a supporting role, became a star.

**Follows Assault Marines**

Careening ludicrously behind a six-by-six truck, she rode at the heels of assault marines.

Over Okinawan roads never meant for trailers of her generous girth — over rutted roads, rocky bouldery and slippery roads, each a vehicular obstacle course, lumbered the medical trailer.

Once, to reach a bivouac area near a schoolhouse atop a steep hill, she outdid herself. She climbed a stairway.

"Yah, they told us," said Lt. Ihle, "that she'd never make it. But you should have seen her. There must have been 50 or 60 steps leading up to the school. She bumped right up 'em without a stop."

**Has Own Electricity Plant**

Old Indomitable's interior is smaller than most Stateside surgeries. But it is comparable otherwise — even to a porcelain sink with hot and cold running water. A generator supplies electricity; there are direct and indirect lighting.

Lt. Giorgio snapped a wall switch and the surgery was lit with soft light from fluorescent tubes in the ceiling.

"There you are," said Giorgio, "absolutely the only fluorescent lighting on Okinawa."

Old Indomitable was created several months ago on a South Pacific island. The four doctors supervised fitting and equipping her, with approval of Navy Capt. Don S. Knowlton, a Washington D.C., surgeon, now commander of the medical battalion, Navy Seabees did the actual work.

**Saved Lives of Marines**

"She's done a job here on Okinawa," said Lt. Reinhardt. "Undoubtedly, she's been the means of saving many a marine's life."

"Sometimes, in cases where surgery was required urgently, we'd have the wounded marine on the table and surgery started only a few minutes after he'd been hit at the front."

Soon the battalion will have a second mobile operating room.

"We ran across a huge Jap trailer the other day," said Capt. Knowlton. "We're fixing it up inside for use as a second surgery on wheels."

Lt. Ihle had the last word. "The battalion can use a second mobile surgery," he said, "but, believe me, there'll never be a second 'Old Indomitable.' Ask in E Company."

**Rites at St. James For Fortunato Piacenza**

Rites were conducted at St. James church in Highwood Monday forenoon for Mr. Fortunato Piacenza, 118 N. Green Bay, with burial at Ascension cemetery. No close relatives survive, although several cousins live in this vicinity.

## Jap Carrier Pigeon Surrenders Self to Okinawa Marines

**OKINAWA (Delayed)**—Marines of an amphibian tractor unit report something new in prisoners of war — a Jap carrier pigeon which willingly gave itself up, according to marine correspondent S/Sgt. Ray Fitzpatrick.

Several tractor crewmen were in a tent when the exhausted, disheveled pigeon, too-worn-out to fly any further, walked wearily in. On his leg were two Jap identification bands and a capsule for messages.

The pigeon is now a pet of the tractor men. Enjoying plenty of food, he isn't at all disturbed about being a captive.

## Gen. "Ike" Praises USO Camp Shows

General Dwight Eisenhower, on his recent return from Europe, paid tribute to the work of USO-Camp Shows, which sends entertainment units to all parts of the globe to carry cheer to our men in uniform. "They (USO-Camp Shows) have done magnificent work and sent great artists to the field who have made the soldier feel he was back on Broadway," he said.

The entertainers have gone where our soldiers have gone; eaten the food they ate; lived in the same quarters they occupied; slogged through the same mud; suffered from the same discomforts. They have done so cheerfully, courageously and well. Many are volunteers, and others work for 50 per cent or less of their normal salaries.

● Tires on a new Giant Air Liner will be filled with helium instead of air. An increased pay-load of 154 pounds will be made possible by the substitution.

● Improved design will also be evident in Post-War Gas Appliance design. One of the newer devices will be a home laundry dryer. Clothes are tumbled in a motor driven cylinder which is heated by a Gas flame. Stormy weather will cause no laundry day blues in homes so equipped.

● WIFE: "I heard you talking to yourself while you were taking your bath. That is a bad habit."

HUSBAND: "I wasn't talking to myself. I was talking to the soap. I slipped on it."

● Incidentally, a rubber mat in the bath tub is a safety suggestion which may help to prevent broken bones.

**FLASH . . .**

● Our new post-card bills will be delayed a month because of manufacturing delays in connection with our new billing machines. Incidentally, the post card bill has proved quite satisfactory in those areas where they have been used.
