WHAT'S Cooking

BOMBERS . . .
● Ford's Willow Run plant is said to have produced 8,625 B-24 bombers.

AND OTHER WAR MATERIAL . . .
● Some of the war equipment made in GAS APPLIANCE factories seems quite foreign to a GAS range, GAS water heater, GAS refrigerator and GAS heating equipment. Aircraft wings, shells, shell projectiles, bombs, and dozens of other devices for war are made by these Gas appliance makers.

NOW . . . GAS APPLIANCES . . .
● As war orders are cut back or completed, many of these factories are allowed to begin production of their regular appliances. A few GAS ranges are coming in, and water heaters are available for replacement of similar type equipment which is beyond repair. See your Gas Appliance Dealer.

AFTER THE WAR . . .
● Fortune Magazine mentions promises of nine hour flights to Europe in late 1946 or early 1947.

YOUR GAS COMPANY . . .
● We hope to get that long awaited Natural Gas line late this winter or early next spring in order to furnish hundreds of home heating jobs together with cooking and water heating service at REDUCED RATES.

A soldier tried to call home last night

He's out at Fort Sheridan, and he's just returned after long, long months overseas.

So imagine how anxiously he wanted to just talk to his folks? To hear their voices again! Imagine if it were your own son . . . or a sweetheart . . . a friend?

But his call didn't get through by "taps". The lines were crowded with other calls.

That boy represents one of many thousands who are returning daily from overseas. Some are awaiting discharges. Others will be granted furloughs and then redeployed to the Pacific area of war. But each and every one of these lads wants to call home the moment he gets here.

Recently the long distance calls going through exchanges right here in your local telephone area have practically doubled.

So, just for servicemen, won't you help us keep the wires open in this territory between 7 and 10 P. M.? Give them a break. They'll appreciate it. Thank you!
