

North Shore Gas Co. Plans for Natural Gas Service in 1946

Plans for bringing natural gas into this territory in 1946 have been announced by A. W. Conover, president of North Shore Gas company. A formal petition has been filed with the Illinois Commerce commission requesting permission from that regulatory body to change the type and heating value from a 565 B.T.U. per cubic foot of manufactured gas to 1,000 B.T.U. per cubic foot of natural gas throughout the territory served by the North Shore Gas company, in the following communities: Winnetka, Glencoe, Deerfield, Highland Park, Fort Sheridan, Bannockburn, Highwood, Lake Forest, Lake Bluff, North Chicago, Waukegan, Great Lakes, Zion, Winthrop Harbor, Rosecrans, Wadsworth, Russell, Gurnee, Gages Lake, Druce Lake, Grays Lake, Libertyville, Mundelein, Diamond Lake, Half Day, Prairie View, Aptakiskic and Rondout.

It is proposed to construct a large transmission line early in 1946 from the terminus of the Natural Gas Pipeline Company of America, whose transmission line is located west of the company's territory, and to make a physical connection at that point. The proposed connection is with the same transmission system which supplies the natural gas requirements of the Chicago metropolitan area.

Mr. Conover stated that it is his understanding that the Natural Gas Pipeline company of America has made an application to the Federal Power commission, in Washington, to serve the requirements of the North Shore Gas company, and that hearings on this application will be held the latter part of the year.

Mr. Conover advises that with the change-over to natural gas there will be a reduction of gas rates to the company's customers, which will be in excess of \$200,000.00 per year, which reduction represents something over 11 per cent of the company's gross revenue.

The formal petition filed with the Illinois Commerce commission provides that the North Shore Gas company make the necessary changes in all of its customers' appliances throughout the territory to properly utilize natural gas. The cost of changing all the appliances in its customers' homes, stores, and factories will be borne by the company. This change-over will be made during the summer of 1946 according to the plans.

Mr. Conover further stated that approximately \$4-million dollars will be involved in the work proposed by the company, including additional pipelines, change-over of all customers' equipment, necessary regulator stations, and main extensions throughout the company's territory to take on new business which the company has been unable to connect to its system during the war years. This change will provide an adequate supply of gas for developments and home building throughout the North Shore territory, and should contribute considerably to the large home building program which is expected throughout this area.

This program will require considerable manpower, and the company will need a great number of employees to make the change. Plans have been under way for the past two years in preparation for bringing in natural gas, and the large service building just completed on Edison court, in Waukegan, will house quite a bit of the new equipment needed for the work next year.

It is felt that all communities served by North Shore Gas company will greatly benefit by this change-over to natural gas, and that the steps which are now being taken by North Shore Gas company will assure to a large degree the stable growth which has been expected in this section of Illinois.

Milwaukee Railroad Invests \$22,500,000 in Victory Loan Bonds

Lake county Victory loan drive will be credited with \$44,000 of the Milwaukee road's purchase of government securities.

The road will invest \$22,500,000 and has arranged as it did during the previous loan drives for every county in which it operates in 12 states to participate in its huge purchase.

Illinois is allotted \$4,328,000 to be distributed among the counties the road serves.

H. A. Scandrett, trustee of the Milwaukee road, in commenting on the purchase, said that in addition to assisting the United States in meeting its postwar obligations and contributing to the success of the Victory loan drive, the investment likewise will be advantageous to the railroad.

PUBLIC LIBRARY

Sunday school teachers, church workers, and the general reader can find information and inspiration in the following religious books which have recently been added to the shelves of the Highland Park public library.

Henry P. Van Dusen has written about the various Christian missions which our armed forces found throughout the South Pacific on the various little islands. Many of the experiences of these service men finding Christian natives are recounted in "They Found the Church There."

Forty-one men and women in various professions and trades have answered Dr. Bernard Iddings Bell's questions in the book entitled "God Is Not Dead." Dr. Bell's conclusions to these answers is that the Church and all Christians must return to their absolute faith in God.

The work of famous and lesser known missionaries to India, China, Africa and the Moslem world is described in Sherwood Eddy's book entitled "Pathfinders of the World Missionary Crusade." One finds such names as Dr. Ida Scudder, Albert Schweitzer, E. Stanley Jones and many others.

In the book "Beyond Personality," by C. S. Lewis, the author has put into simple language a very understandable account of God which Christian churches have been giving their members for centuries. He makes this account applicable to modern, everyday life.

A very unusual religious book entitled "Story of the Christian Year," by George M. Gibson, tells of the various Jewish and pagan ceremonies which were used at the time of Christ and then he shows how these special observances have come down through the ages to finally become a part of our religious life today. Many illustrations by the author add to his descriptions of the various stages of religious history.

The home and business life of all types of citizens of Biblical times has been pictured descriptively and pictorially by Albert E. Bailey in "Daily Life in Bible Times." As each phase of life is related, Bible references are given to help the reader connect each phase with a definite section of the Bible.

"The Westminster Historical Atlas of the Bible" edited by George Ernest Wright and Floyd Vivian Filson, not only contains maps of Biblical countries but includes a chronological outline of these countries, and finally, a chapter on the excavations in modern Palestine.

"The Encyclopedia of Religion and Ethics" includes much information on all religious subjects which will be of help to anyone desiring information not only on the Christian religion, but also on many comparatively unknown faiths.

"The Jew Faces the Future," Talk by Rabbi Wax at Glencoe Temple

This Friday evening at the North Shore Congregation Israel, Glencoe, Rabbi James A. Wax will speak on the subject, "The Jew Faces the Future."

Now that the war is over, people are looking to the future and attempting to comprehend the problems which will arise. There are certain problems unique to the Jewish people and, therefore, it is appropriate to consider the theme, "The Jew Faces the Future."

Visitors are invited to attend religious services. The temple is located at the corner of Lincoln and Vernon streets in Glencoe. Services each Friday at 8:15 p.m.

U.S. VICTORY BONDS BUY THEM . . . KEEP THEM!

THE HIGHLAND PARK PRESS

Entered as second class matter March 1, 1911, at the Post Office at Highland Park, Illinois.

Subscription rates: \$1.50 per year; 5 cents per single copy. \$3.00 per year outside of Lake county, Illinois.

Issued Thursday of each week by the Highland Park Press, 516 Laurel avenue, Highland Park, Ill. Telephone: Highland Park 557.

Communications intended for publication must be written on one side of the paper only, and be signed with the name and address of the writer. They should reach the editor Wednesday noon to insure appearance in the current issue.

Resolutions of condolence, card of thanks, obituaries, notices of entertainment, or other affairs where an admission charge is published will be charged at the regular advertising rates.

Lester S. Olson, Publisher. R. B. Olson, Editor.

Inter-Faith Group To Meet at YWCA Tuesday, Nov. 20

The November meeting of the Inter-Faith group will be held at 10 a.m. at the local Y.W.C.A. on Laurel avenue, Tuesday, Nov. 20. The program will continue the discussion of the ways to understand different racial groups and to foster racial and religious understanding.

Miss Frances Cushman, who is well known in Highland Park where she was guidance director at the high school some years ago, will be the speaker. Miss Cushman has had a rich and varied experience with different racial groups and feels strongly that proper training of young people of all groups would result in a satisfactory adjustment of this distressing and important problem. Miss Cushman is now working for the Department of the Interior on the education of Indian children, working with them on reservations and elsewhere, testing their educational and psychological abilities.

She spent two years as high school principal at Camp Poston, a Japanese-American concentration camp in Arizona. She was also director of an Indian reservation in Phoenix. Miss Cushman is a psychologist, a woman of warm charm and deep understanding of young people, and she is working toward a much needed adjustment among Americans of many social, racial and religious backgrounds. Her interesting and informative talk is open to an interested public. As always, informal discussion will follow.

IMPERFECT JOB — We have never seen a self-made man who didn't need some alterations. — Camera News Observer.

Helping Veterans to Call Gives Telephone Users Share in Reunion Joy

Of all the long distance calls these days, there is none that brings more joy than — "Hello, Mom, it's me."

We think those who stand aside in the evening so that service men can get their calls through faster have a very real share in the happiness that is going over the wires.

That goes, too, for those who limit their calls to five minutes when the operator requests it. — Bell Telephone System.

on
THANKSGIVING DAY
at eleven o'clock
Service will include testimonies of healing through Christian Science and expressions of gratitude.
THE PUBLIC IS CORDIALLY INVITED

Sure, we've won the War— BUT THE COST GOES ON!

IT WILL COST MILLIONS TO BRING OUR ARMIES BACK and it's just as expensive as it was taking them over. Meanwhile, thousands of our men who stay behind in occupied territory must receive their pay, be clothed, housed and fed at Uncle Sam's expense.

WE OWE THEM A RETURN TRIP TICKET TO HEALTH. Today, the rehabilitation and care of over 300,000 wounded are among America's gravest peacetime problems. This obligation is one which every American can now share in—by investing in the Great Victory Loan.

UNCLE SAM MUST STILL PAY FOR THEM. Although America had already started to cut down on production of various kinds of war materials, the swift ending of the war left many planes, tanks, battleships, guns, made at the last minute, still to be paid for.

America Must Take Care of Her Own in the Great Victory Loan!

It's too much to expect that the cost of a war which lasted many years can just stop overnight. Although the fighting is over the paying has to go on for some time to come.

So once more it's ALL TOGETHER in America's Great Victory Loan. Start off your own peace and prosperity—and your country's—right by investing in the biggest quota of bonds you've ever bought.

FOR PEACE AND PROSPERITY
AMERICA'S GREAT VICTORY LOAN
