TRINITY EPISCOPAL CHURCH

East Laurel Avenue Rev. Christoph Keller, Rector

Services

Sunday—
9:30 a.m. The Church School service.

11:00 a.m. Morning prayer and sermon.

Wednesday—

Rabbi M. N. Eisendrath To Deliver Sermon at Congregation Israel

This Friday evening at the North Shore Congregation Israel, Glencoe, the service will be dedicated to the 70th anniversary of the Hebrew Union college. Rabbi Maurice N. Eisendrath, executive director of the Union of American Hebrew congregations and one of the foremost religious leaders of our times, will deliver the sermon. He will take as his subject: "Liberal Judaism Looks Ahead."

This is a timely subject and should prove to be of great interest to everyone.

Regular weekly services are held every Friday night at 8:15, at the temple, located at Lincoln and Vernon streets in Glencoe. Visitors are always cordially welcome.

Best Buys in Today's Food Market

Chicken production this year is the largest on record, according to the United States Department of Agriculture. All over the country nearly all types of chickens are available. The cost of chicken compares quite favorably with price tags on other desirable main-dish foods.

Celery is one of the vegetables that comes in handy in poultry stuffings and soups, and a good supply is available at the present time.

Among the better buys in vegetables are Irish potatoes, cabbage and beets. A good demand and ceiling prices prevail on the lettuce, carrots, and tomatoes offered in the Chicago trade territory. There are quite a lot of green peppers from the south to add zest to the relish tray.

The best buys in citrus fruits are the whitemeat grapefruit and Florida oranges. Pinkmeat grapefruit continues at high prices.

Great Mind Boring

"I have a great mind to write a book about it," said the bore.

"I doubt it," said the bored one.

"Doubt what?" snarled the bore.

"The great mind," said the bored one.—Irish Digest.

Bing Crosby Announces Opening Of Kenny Drive

Bing Crosby, screen and radio star, today announced that the Sister Elizabeth Kenny Foundation national 1945 appeal to raise \$5,000,000 to wage a war on infantile paralysis will be held in each state from November 22 to December 8.

The Paramount Pictures star is chairman of the national fund drive and has named leading businessmen and women as aides to conduct campaigns in every community.

"We owe a duty to the children of America to make this drive a success," Crosby said. "All of us now what infantile-paralysis has done. There is hardly a place here the disease has not struck, leaving in its wake crippled, deformed children."

"To me nothing is more pitiful than the sight of a boy or a girl sitting in a wheel chair or standing on crutches on the sidelines while other boys romp and play."

Crutches Discarded "Sister Elizabeth Kenny has proved to the world that in thousands of infantile paralysis cases these crutches and wheel chairs could have been discarded and the children could have led healthy normal lives if they had been given quick and proper treatment."

"Miss Kenny has proved also that it is unnecessary for children stricken with infantile paralysis to suffer pain, humiliating deformities and other complications."

"As the father of four children I have a deep appreciation of the work that Miss Kenny and the Elizabeth Kenny Institute are doing and I know that the people of America will join me in attaining our campaign goal and assuring the children of America that their future health will be protected."

In his announcement, Crosby emphasized that one-half of the funds in each state will remain in that state to further the campaign against infantile paralysis in local communities. Funds, Crosby said, also will help to:

Restore countless victims of infantile paralysis to normal lives. Lessen ravages of this crippling disease for its victims.

Enable polio sufferers to recover use of their limbs. Finance full training of Kenny technicians for permanent stay at clinics throughout the country.

Intensive Research Provide periodical study courses for physicians and technicians. Conduct intensive and nationwide clinical research on poliomyelitis and related diseases.

Perpetuate and extend the scope and benefits of the Kenny Institute not only in the United States but throughout the world.

Easy Money The chief stopped and stared. A boy in the stockroom was leaning against a packing case, idling. Such a thing was unheard of in his establishment.

"How much are you getting a week?" he demanded with characteristic abruptness.

"Twelve dollars."

"Here's your twelve. Now get out. You are through."

As the boy philosophically pocketed the money and departed, the boss turned to the chief clerk and demanded: "Since when has that fellow been with us?"

"Never, that I know of," was the response. "He just brought over a note."

Yeah, Man! Any girl who can put on slacks, back up near a mirror and take a look over her shoulder and then go out with them on has (a) a slim and neat figure or (b) bum eyesight.

THE HIGHLAND PARK PRESS

Entered as second class matter March 1, 1911, at the Post Office at Highland Park, Illinois.

Subscription rates: \$1.50 per year; 5 cents per single copy. \$3.00 per year outside of Lake county, Illinois.

Issued Thursday of each week by the Highland Park Press, 516 Laurel avenue, Highland Park, Ill. Telephone: Highland Park 557.

Communications intended for publication must be written on one side of the paper only, and be signed with the name and address of the writer. They should reach the editor Wednesday noon to insure appearance in the current issue.

Resolutions of condolence, card of thanks, obituaries, notices of entertainment, or other affairs where an admission charge is published will be charged at the regular advertising rates.

Lester S. Olson, Publisher. R. R. Olson, Editor.

39th Annual Drive—

(Continued from page 1)

TB authorities. In this war only one out of every 100 men was deferred because of this disability, whereas in World War I, TB was the chief source of physical deferment or discharge from the army.

In addition to the 55,000 Americans who died from TB last year, 110,000 were admitted to hospitals and approximately 200,000 received treatment in TB institutions. Authorities estimate that about 500,000 persons have TB at this time.

X-ray surveys by the U. S. Public Health service reveal 70% with minimal disease, 25% with moderately advanced and 5% with far advanced cases, out of 936,000 persons tested.

Because of the widespread incidence of this "unnecessary" disease, the local association feels that it should be carrying X-ray service to the greatest possible number of people, and is seeking to adopt the slogan, "An X-ray for every person in Lake county."

The program of the association is financed entirely through funds derived from the annual sale of Christmas seals and other contributions made at that time. The purchase of the mobile unit was made possible through increased contributions to the annual sale last year, combined with proceeds from benefit shows by Lake county organizations. This year, in addition to seals, Christmas seal bonds from \$5 to \$1,000 are being issued, to complete payment on the unit, carry on the regular TB program and enlarge the program made possible by increased equipment.

Experts believe that tuberculosis in this nation can not only be brought under control, but can be wiped out with present knowl-

edge. "Whether we maintain our gains in the years ahead depends solely upon the determination of the men and women we call our community leaders," Miss White pointed out. "If our people wish to prevent the rise of TB, always on the increase in time of war, it is within their power to do so."

Fifty Years Ago — Today!

Nov. 8, 1895, science discovered the x-ray. Advancement in the use of x-rays in diagnosis of tuberculosis has come a long way since then and today your Lake County Tuberculosis association can announce the purchase of a mobile x-ray unit which will be delivered in the near future.

Purchase of this unit was made possible through increased contributions to the annual Christmas seal sale combined with benefit shows by Lake county organizations. The Lake County Medical society, our civic clubs, schools, industries, labor groups and the Lake County Tuberculosis sanatorium have endorsed this mobile x-ray unit.

With the splendid cooperation of the sanatorium medical staff and members of the Medical society, the association can now give x-ray service "on the spot" to industries, large corporations and schools. Eventually, the association hopes to realize the slogan "an x-ray for every individual in Lake county."

The usual work outlined in the yearly report must not be neglected. Clinics will be larger with observations of findings on these x-rays; and, more nursing service and clerical help will be demanded in follow up work.

Christmas seal funds this year must provide for the regular program, make final payment on the unit and furnish a necessary larger staff to carry on this greater program of hunting down the un-

Lake county. The association has set a goal of \$40,000 for the 1945 Christmas seal sale — \$7,000 more than last year.

The association makes a definite plea for larger contributions from all who can. Last year many of our contributors found it possible to buy Christmas seal bonds. Our work is entirely financed by Christmas seals at one dollar a sheet, and Christmas seal bonds from \$5 to \$1,000. For whatever your gift, the association thanks you.

MABEL S. MCCOLLOUGH, Seal Sale Chairman.

WHAT'S COOLING

The fifty year anniversary of the automobile reminds us of an early day newspaper contest to select a name for the new vehicle. The name Motorcycle won the contest. Other suggestions included "Horseless Carriage," "Motor Wagon," "Benzine Buggy," "Petrocar," "Auto Gondola," and "Road Locomotive."

Incidentally, more than 200 rare old automobiles are on display out in Chicago's Museum of Science and Industry in Jackson Park.

Speaking of Museum pieces... it will soon be possible to replace that ancient range with a new modern Gas range.

Several new makes of Gas Appliances have been announced. Bryant and Servel have new Gas Water Heaters. Maytag will produce Gas Ranges, and a new Gas Refrigerator will be made by Clayton & Lambert.

The trend is to Gas...
