**Ah... New Years!**  
New Years is pretty wonderful! So many beautiful girls. What an opportunity! This year I followed the time-honored custom of welcoming in the New Year... by Eastern, Central, Mountain and Pacific time... Ah, New Years. What a pity it comes but once a year!  
— Young-Man-About-Town.

## Weather

Some folks dote on a rainy day, With sky like milk and a mist like whey;  
Of a whirling bliz that sweeps and cuts— "So cozy inside"... It drives me nuts.  
They like a murky, low-down ceiling— It gives them a "comfy, tucked-in feeling."  
But I'll take a sky of larkspur blue. With a bob o'link's note—a thrush or two;  
A sparkle in every sight or sound, And green grass growing 'round, all 'round.  
Deliver me from lights that dim! I'm the original Sunshine Jim.

**Situation Well in Hand**  
Marines stationed in Tientsin,

China, are forbidden to haggle with Chinese merchants, who, with centuries of shrewd bargaining behind them, are plenty sharp on deals.

It is known, however, that a Chinese merchant will set a price on an article higher than he expects to get. If the price is paid without question, similar articles are listed to that figure. If, on the other hand, the price is refused, all such articles are re-reduced.

A Marine does not haggle. If the cost is prohibitive he just walks out. But his pal, waiting outside, enters and takes advantage of the consequently lowered price.

And now they are claiming that this warm spell is due to the winds blowing in from Florida. Isn't that "shootin' the breeze?"  
—Ole.

## Well... Ahem

He was serious, brown-eyed and eight years old, and he was soberly inspecting a recent arrival. "Don't you wish you had one of those for your own?" he was asked.

He admitted that it would be nice. "But," he added, lifting solemn eyes to his questioner, "I... I think I would rather be the papa!"  
— Voice From Virginia.

**Beginning a new chapter**

THIS YEAR millions of men will change from uniforms to "civvies" and begin a new chapter in their careers.

Illinois Bell Telephone Company, too, is starting a new chapter. We have turned the corner from shortages and we're on the road to more and better service! Ahead of us we see a lot of hard work—much careful planning, much costly construction. The result will be finer and faster telephone service—with enough for all who wish it.

New improvements in telephone techniques are on the way from the Bell Laboratories. Western Electric's manufacturing facilities are in full-speed production of telephone equipment.
