

WELCOME TO CHURCH

FIRST CHURCH OF CHRIST, SCIENTIST

387 Hazel Avenue
This Church is a branch of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

The Sunday morning service is held at 11 o'clock and the Wednesday evening meeting, which includes testimonies of Christian healing, is at 8 o'clock.

Subject of next Sunday's Lesson Sermon, "Christ Jesus."

Small children are cared for during Sunday church service.

Sunday school is open to pupils up to the age of 20 years, and is held Sunday morning at 9:30.

A free public reading room is maintained by this church at 43 N. Sheridan road which is open daily from 9:30 o'clock in the morning to 5:30 in the afternoon, and on Saturdays until 9 o'clock. On Sunday the reading room is open from 2:30 to 5:30. Here the Bible, and all authorized Christian Science literature, may be read, borrowed or purchased.

April 10 — "Prayer of an awakened Soul."
The Rev. W. H. Lehman will speak at Redeemer church.

Rabbi Shulman to Speak on Advantages of Being a Jew

This Friday evening at the North Shore Congregation Israel in Glencoe, Rabbi Charles E. Shulman will speak on "The Advantages of Being a Jew." The lot of Jewish people has always been a difficult one in the world. To be a religious minority is to exist under handicaps of misunderstanding, prejudice, etc. To maintain an identity of one's own amidst conformity of another sort is to be aware of added spiritual burdens. Yet there are distinct advantages to being a Jew. The sermon subject should be of great interest.

Visitors are cordially invited to attend regular weekly services which are held every Friday night at 8:15 at the Temple, Lincoln and Vernon avenues, Glencoe.

Arden Shore Association To Hold Bridge Tea Monday, March 7

The members of the Arden Shore association will hold a bridge tea on Monday, March 4, at 2 p.m., at the home of Mrs. Arthur Emerson, 600 Bob O'Link road.

Mrs. Joshua Derry and Mrs. George Strecker will act as co-hostesses.

Socks Over Shoes

SABERO, Japan (Delayed)
When they came home from the war, Japanese soldiers astounded a marine reception committee by wearing their socks over their shoes. The idea was to keep their hob-nailed shoes from skidding along the decks of American ships which transported them, according to Tech. Sgt. Charles Kopp, marines corps correspondent.

Foreign Policy In the Atomic Age

By MRS. MASON SMITH
(League of Women Voters)

"How shall we flatten out the cycle of war and peace and avert a third world war?" was the question posed and discussed by Dr. Kenneth W. Colegrove, head of the department of Political Science at Northwestern university, at a recent meeting of the League of Women Voters.

Dr. Colegrove stressed the fact that we cannot plunge into world government. Progress to peace is not to be gained by counsels of perfection, but by slow step by step building on experience. It must be born in mind, he said, that world federation cannot be achieved in a few years, but must be held always as the ultimate goal. The draft of the United Nations organization is not perfect, it will have to be amended and amended, but it is a basis on which to build understanding, continued the speaker.

He went on to say that one obstacle in the way of the UNO is sovereignty. The Moscow pact and the UNO itself were based on the guarantee that the sovereignty of each member nation would not be surrendered. However, the speaker pointed out, we cannot achieve world peace and a world federation of states without surrendering a little of our sovereignty. We must be educated to the broader, world view if we are to save the world from destruction.

The speaker explained that the United States is great because it is the greatest combination of people, resources and technocracy in the world today. He urged that we use that greatness with cleverness and intelligence.

One defect in the American people which must be watched, said the speaker, is the habit of relaxing after doing a good job. 95% of the UNO charter was drafted in our government offices. We must not become self complacent now that a start has been made, we must be vigilant to constantly perfect the instruments of that charter, toward peace.

In connection with the many treaties that will have to be ratified, the speaker pointed out the fact that the Senate has not yet voted on the Pepper amendment which would put treaty ratification on a more democratic basis—both the Senate and the House would vote on treaties and they would be passed by a majority vote, instead of the two thirds now required. He urged that all those interested in the success of the UNO write to their senators asking them to vote on this amendment, and withholding support of them in the next election if they did not vote favorably on this measure. He felt that such a step was necessary on the way to world peace.

Dr. Colegrove concluded with the observation that our failure to ratify the League of Nations was the first step toward the second world war, and with the challenging thought that another world war will be started, if we are not willing to pay the price for peace.

Ft. Sheridan Prisoner Forfeits Shortened Term By Breaking Jail

Sentenced to 5 years in the federal penitentiary, with the possibility of being released at the end of 6 months for good behavior, Harold Wolff, 24, of Racine, Wis., escaped last Friday from the Station hospital at Ft. Sheridan. Upon recapture, his term will revert to the original 5 years sentence at the federal prison.

Wolff has made several breaks upon being confined for the offense of AWOL. He was brought last September to Ft. Sheridan, being picked up by Racine police, when he escaped from Jackson, N. C., where he was confined for his third offense of AWOL.

THE HIGHLAND PARK PRESS

Entered as second class matter March 1, 1911, at the Post Office at Highland Park, Illinois.

Subscription rates: \$1.50 per year; 5 cents per single copy. \$3.00 per year outside of Lake county, Illinois.

Training of Recruits At Great Lakes to Be Discontinued

According to the Great Lakes Bulletin, the Bureau of Naval Personnel announces plans to discontinue naval recruit training at Gt. Lakes Naval Training station and concentrate it at Norfolk, Va., and San Diego, Calif.

On account of strong feeling regarding the continuance of training at Gt. Lakes, it is said that Vice-Admiral A. S. Carpender, commandant of the 9th Naval district, will contest any move to reduce the Great Lakes station to inactive status, and mid-western senators have declared themselves ready to "battle for the station" where so many fine young men have been trained for the service, and which is located so splendidly in the heart of the Middle West.

Rastus was in the dog house. Gloom had prevailed for many days. Finally a smile appeared on the countenance of Mandy. Rastus took hope.

"Sugar-foots," he asked eagerly, "does that mean that Ah's forgiven?"

"Get away f'em here, you rascal. Ah's merely 'resting mah face.'"

NATURAL GAS?

Well, we are temporarily awaiting another Federal Power Commission hearing on March 4th from which we hope to get a "Green Light" to proceed with conversion to Natural Gas. Naturally, we are interested in starting as early as possible in order to be able to handle requests for new heating loads, etc. Your Illinois Commerce Commission has approved the plan to convert to 1,000 BTU Natural Gas at reduced rates.

A Sergeant demanded an explanation when a Private was two hours late in returning with necessary supplies.

"Well, I picked up a Chaplain along the road," explained the Private sadly, "and from then on those mules couldn't understand a word I said."

Floating fish factories, have been proposed which will fillet, quick freeze, and pack fish right in the fishing boat.

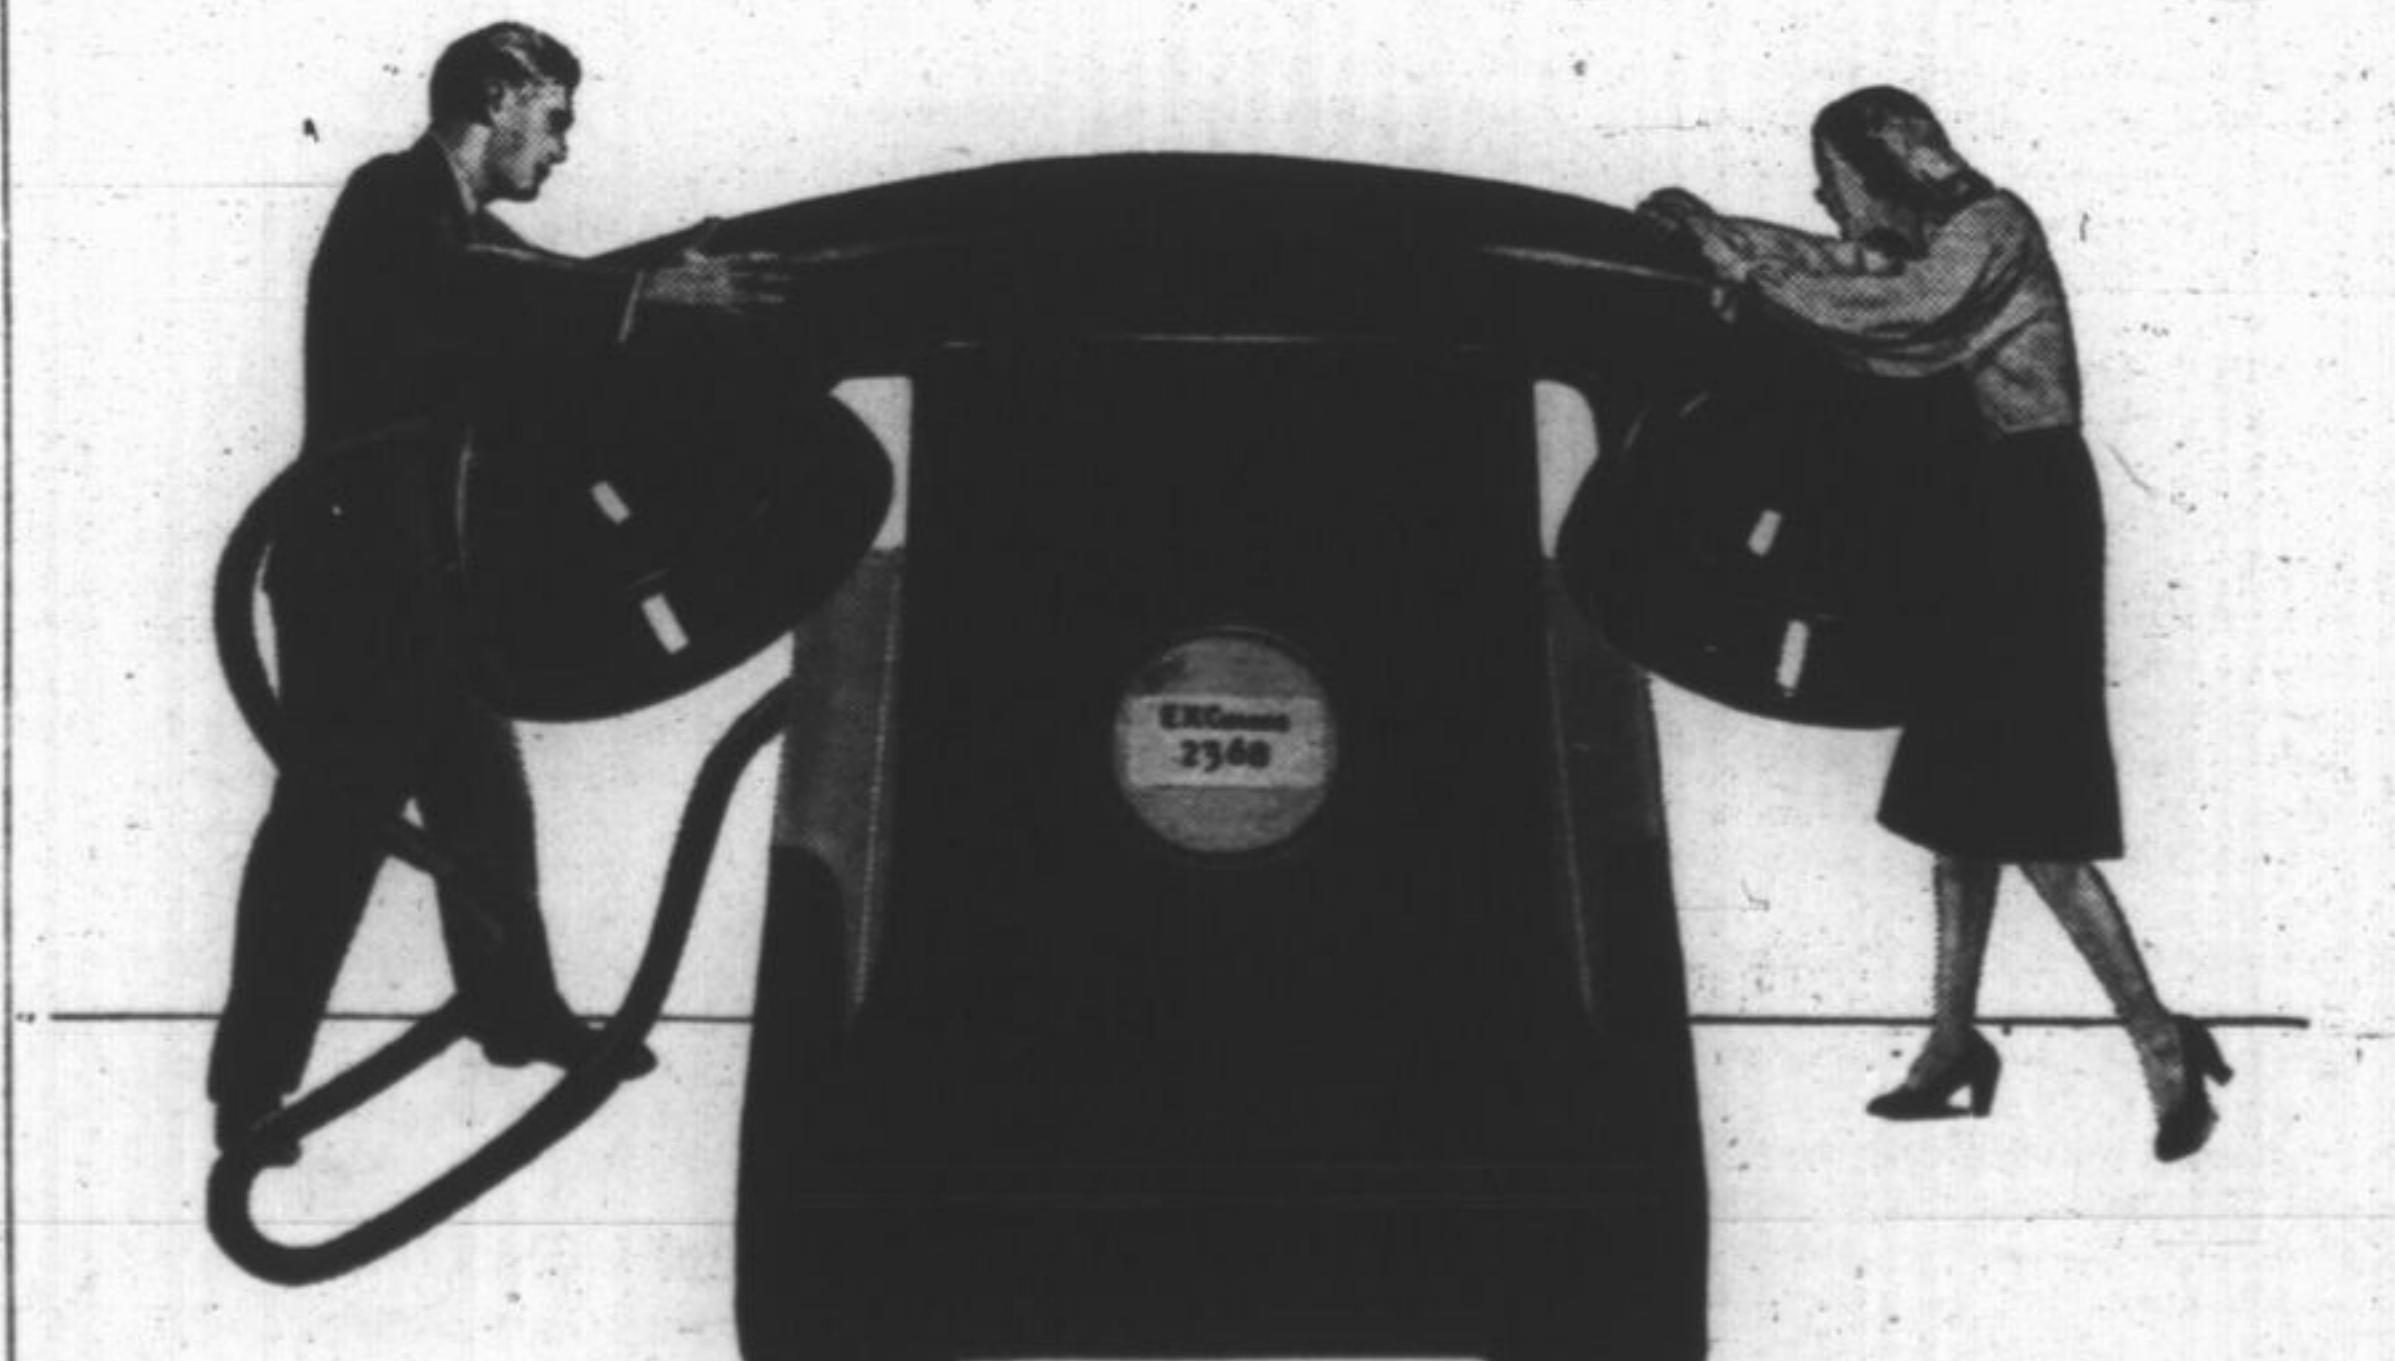

Speaking of frozen foods, Servel Gas Refrigerators will probably have increased frozen food storage capacity in the next models of Servel. We estimate that approximately one fourth of the capacity will be low temperature storage. The present models are similar in arrangement to Pre-war models. Incidentally, a few new Servels have been received but the steel strike has caused a shut-down of Servel's factories for the present.

We offer an opportunity for a typist-cashier in our Highland Park Office.

Our cashier, Mrs. Dryden is leaving to join her husband who has just returned from the Pacific.

North Shore Gas Co.

"THE FRIENDLY PEOPLE"
TOM CLARK
Manager

What's behind your telephone?

THERE it sits on your desk or table — a shiny black telephone and a wire that disappears in the wall.

Where does the wire go? From your house to a terminal box on a nearby pole. Then into a cable that runs, sometimes a mile or more, to a telephone central office.

There your line is connected with a switchboard or a lot of complex dial machinery — and with huge batteries, generators, ringing machines — and more wires and cables to link your tele-

phone with over 27 million other telephones all over the country.

In Illinois Bell territory, there's \$208.09 worth of equipment and property behind each telephone served. And in the next few years, we must add more equipment to the tune of millions of dollars, so that the good telephone service you receive will become even better.

ILLINOIS BELL TELEPHONE COMPANY
