EMERGENCY NOTICE TO OUR GAS USERS

Most of your cooking and heating gas is manufactured from coal at our Waukegan Coke Plant. The resumption of coal mining will not improve our inventories of this raw material for several days, making it necessary to curtail the manufacture of gas from coal at the Coke Plant, thus extending only limited service.

YOU can help to insure your gas supply if you will save gas in every way possible.

The less gas you use, the longer our dwindling coal pile will last, and further insure you continued gas service until our coal stocks can be replenished.
