### Strawberry is America's Favorite Jam

If all the berries in the world were gathered together for a glamour-berry contest — strawberries would win! Yes, rich, red strawberries have a winning appeal that makes them America's favorite for jam. And it's no wonder — strawberry jam has a flavor and texture yet to be equalled in any other berry. But remember — strawberries, beautiful as they are, are particularly low in natural pectin content. And pectin, as you know, is the substance present in fruit that makes jellies jell and jams jam. But please don't hesitate to make strawberry jam on this account.

Homemakers remember, the addition of a natural fruit pectin, either powdered or bottled, insures a successful jam every time. It supplies the right amount of pectin in just the exact proportion to make up for the deficiency in the ripe fruit and, it safeguards the characteristically rich flavor of the berries. Yes, all the delicious flavor of the glamour berry is locked in every sealed jar ready for a taste treat on morning toast and all through the day.

**STRAWBERRY JAM**  
4 cups prepared fruit  
1 cup sugar  
1/2 bottle fruit pectin

To prepare the fruit. Crush thoroughly about 2 quarts fully ripe strawberries. Measure 4 cups into a large saucpan.

To make the jam. Add sugar to fruit in saucpan and mix well. Place over high heat, bring to a full rolling boil, and boil hard 1 minute, stirring constantly. Remove from heat and stir in bottled fruit pectin. Then stir and skim by turns for 5 minutes to cool slightly. To prevent floating fruit. Pour quickly into glasses. Paraffin at once. Makes about 10 six ounce glasses.

**STRAWBERRY JELLY**  
5 cups juice  
7 cups sugar  
2 boxes powdered fruit pectin

To prepare the juice. Crush thoroughly about 3-1/2 quarts fully ripe strawberries. Place in jelly cloth or bag and squeeze out juice. Measure 5 cups into a very large saucpan.

To make the jelly. Measure sugar and set aside. Place saucpan holding juice over high heat. Add powdered fruit pectin and stir until mixture comes to a hard boil. At once stir in sugar. Bring to a full rolling boil and boil hard 1/2 minute, stirring constantly. Remove from heat, skim, pour quickly into glasses. Paraffin at once. Makes about 12 six-ounce glasses.
