

Elderly Resident Is Taken By Death

Mary Virginia Richie, a resident of Highland Park for the past 37 years, passed away at her home at 316 Maple, on Saturday, May 28, at the age of 87. Services were held Saturday morning at the Kelly chapel, Rev. Lester Laubenstein officiating.

Surviving are her husband, Hugh E., and one daughter, Mrs. Hazel Douglass, both of Highland Park. Interment was made in Grace-land cemetery.

Gustav H. Peterson Is Laid to Rest

Rites were held on Saturday, at the Kelly chapel, for Gustav H. Peterson, 63, who passed away at the Highland Park hospital the preceding Wednesday, after a long illness.

A former blacksmith, with a shop where Iredale Storage now stands, on St. Johns avenue, he later plied his trade in Half Day, returning to Highland Park upon retiring 15 years later.

He is survived by his widow, Selma, to whom he had been married for 40 years on May 10 last; two daughters, Mrs. Evelyn Schwingel of Palatine and Mrs. Alice Moran of Highland Park; two sons, Allen of Lake Zurich, and Harold, a patient at Hines hospital; two sisters and two brothers, one of whom lives in Sweden, and 9 grandchildren. Interment was made at Rand Hill cemetery.

local member of The Mother Church. The preparatory years of her education were in New York, followed by the completion of her schooling in the city of Washington.

Christian Science first came to her family in the Philippine Islands while her father, Lieut. Gen. Adna R. Chaffee, was Military Governor, following his command of the international forces in China during the Boxer Rebellion, and prior to his becoming Chief of Staff of the United States Army. The study of the Christian Science textbook, and witnessing the healing power of Truth for members of her family, satisfied Mrs. Elwell that Christian Science, as revealed by Mary Baker Eddy, was the reinstatement of primitive Christianity as taught and demonstrated by Christ Jesus.

Mrs. Elwell became a member of The Mother Church in 1913, receiving class instruction in the same year. She has had membership in several branch churches as her travels permitted. Upon residing in Boston, she entered the public practice of Christian Science in 1923. She was for five years assistant superintendent of

The Mother Church Sunday school, and for four years a member of the Christian Science Bible Lesson committee. Mrs. Elwell has just completed a term of three years' service as Second Reader in The Mother Church.

PUBLIC LIBRARY

On the shelves of the Highland Park public library there are books for serious and for recreational reading. Here are a few of the new titles added:

Mink, Mary and Me, by Chick Ferguson is a personal narrative of the author's experience trapping for furs in the far north. His wife shared in this primitive life.

Within the past few years a number of similar books have been published: Prekaska's Wife by Helen Wheaton, Mrs. Mike by Benedict and Nancy Freedman.

According to publishers' advertising there is a time set aside for promoting books on religious subjects. Be that as it may, books of this type can give comfort and courage at any time. Two new outstanding ones are Quest for Inner Peace by W. E. Park, who is both a clergyman and an editor. At present he is head of Northfield academy at Northfield, Mass. Góð in History by Sherwood Eddy traces history, and shows how God is working ceaselessly and effectively whether or not man recognizes his presence.

tions of approximately \$250,000 per year will benefit North Shore customers. Largest reductions will go to customers using gas for water heating with savings up to 30%.

Special notices are mailed to each gas user to notify them of the exact time that natural gas will be turned in to that area. Customers are requested to follow the instructions given on that notice in order to insure the safest and most satisfactory handling of the work. As work is completed in one section the new gas is turned into another section. The work will progress north toward the Waukegan coke plant which will be closed down upon completion of the natural gas change over. Two other special standby plants will provide protection to service in the event of a break in the pipeline from the southwest.
