**Annual Meeting of The
Mother Church in Boston
Held on June 2nd**
BOSTON, MASS., June 2—
Affirming that God rules the af-
fairs of man, The Christian Sci-
ence Board of Directors told the
annual meeting of The Mother
Church, The First Church of
Christ, Scientist, in Boston, Mas-
sachusetts, that neither fear nor
animality can give evil power to
boast itself over good.
Supporting this challenge, Mrs.
Helen Chaffee Elwell, newly
elected President of The Mother
Church, urged both pulpit and
press to unite in a crusade of
righteousness. The hour has
struck, she indicated, "for the
Church to dare to be a David."
To "the harassed employer and
the dissatisfied worker" and to
nations generally, the Directors

Sheridan road which is open daily
from 9:30 o'clock in the morning
to 5:30 o'clock in the afternoon.
On Sundays the reading room is
open from 2:30 to 5:30. Here the
Bible, and all authorized Christian
Science literature, may be read,
borrowed or purchased.

and the President of the Church
held out the hope of harmony, not
as a miracle, but rather as a
simple witnessing to the fact that
amity springs naturally from the
application of spiritual power.
Not only improved industrial
relations and better government,
but also the health of the in-
dividual can be attained through
spiritual understanding, the Di-
rectors contended.
Continuing in this theme, Mrs.
Elwell said: "There are those who
see little hope for amity among
the nations, who even despair of
establishing harmony, peace, or
even friendliness among the fami-
lies of the earth. Their world is
dark, indeed."
Beyond that, there are many
persons who despair of coping
with the unleashed material
forces of an atomic age, she
pointed out. "Such thinkers," the
speaker added, "need to learn the
immanence of heaven, the omni-
presence of the infinite God,
good . . ."
"How shall they hear without
a preacher?" the speaker asked.
She answered her own question,
thus: "The Church is that
preacher, and to the Christian
Church has come the opportunity,
unparalleled in Christian history,
to present the true concept of
God in His relationship to man
and the universe, that men will
turn naturally to the teachings
of Christ."
The Directors' and The Mother
Church President's remarks high-
lighted one of the largest annual
meetings in years, with members
of the Church in session from
various parts of the world. From
California, England, Europe, Aus-
tralia, New Zealand, and South
Africa came reports of a growing
resurgence in religious activities.
Mother Church, disclosed a sub-

stantial increase in church mem-
bership in 1946. This he held due
to the fruitage of healing through-
out the field of Christian Science
activities. These healings, he said,
covered a wide variety of dis-
eases, "many of which are con-
sidered incurable by schools of
medicine."
From this broadening scope of
physical healings, Mr. Comer
noted that a great many were ac-
complished by the individual's
own reading of the Christian Sci-
ence textbook, "Science and
Health with Key to the Scrip-
tures" by Mary Baker Eddy.
In conclusion, Mr. Comer echoed
the keynote of the annual meet-
ing in these terms: "Today the
world is confronted with tremen-
dously important problems. It is
a time when the peoples of the
world must begin to see that they
can no longer lean upon man-
made things and theories, but
must lean more and more upon
divine Principle—upon God."
"This desired state," he said,
"must come through an awaken-
ing to a higher concept of spiritual
values and of true brotherhood."

**Catholic Youth to
