REDEEMER LUTHERANS PARTICIPATE IN CENTENNIAL CONVENTION
Lutheran members of Redeemer Ev. Lutheran Church of 587 West Central Avenue will attend Centennial convention activities of the Lutheran Synod of Missouri opening on July 20th with a service of worship at 1st St. Paul's Lutheran Church, Chicago, at 8 p.m., and continuing with a variety of activities thruout the week. On Sunday, July 27th at 3 p.m. in Soldier's Field a Centennial Service will be held. On Wednesday, July 23rd at 8 p.m. in the Medinah temple, a Centennial Concert has been scheduled. A social get-together has been arranged for Saturday, July 26th, from 5:30 on at Concordia Teacher's College, River Forest, Ill. Among the more important pieces of business which the convention will consider in which the local Lutherans are especially interested is the question of furthering unity with other Lutheran bodies in the United States. The Redeemer Congregation has petitioned the Centennial Convention to make immediate application for membership in the National Lutheran Council, a coordinating agency for all Lutherans. Local Lutherans hope for favorable action optimistically, since their interest in furthering unity has also won the support of other influential churches and synodical districts. The Convention must also decide upon a program of continuing to raise additional funds for physical relief in Europe and the policy of administering spiritual relief in devastated

countries. The paramount business of the Convention will center around the "Each One - Reach One" soul-winning national program of the Lutheran Church of the Lutheran Laymen and Laywomen of the Missouri Synod will meet in conventions July 18th & 19th at Chicago just preceding the meeting of the church delegates.

REDEEMER EVANGELICAL CHURCH TO HOLD MATIN SERVICES THROUGH AUGUST

Redeemer Ev. Lutheran Church of 587 West Central Avenue will hold early morning worship at 8 a.m. during the month of August. Beginning with August 3rd, the Matin worship will be inaugurated for one month of five Sundays. The Voting Body of the congregation made this decision after considerable discussion on Monday evening. The chief purpose of the early worship is to serve those who during summer plan a Sunday of outings or outdoor activities. There are also many parents who will be able to attend separately, alternating with the later 10:45 a.m. service, so that one will be able to care for infant children at home. A poll was taken of the membership and two thirds of those who responded favored the new arrangement. In addition, the a.m. matin will be a test to discover the usefulness of the early worship for the membership with a continuation thruout the year in mind.

MISS LAURA CROSS

(Continued from page 3)

Board members—English, Chinese American and Scandinavians. We donned our best clothes and tried to look impressive, though we did not have a cardinal as the Catholics had had the week before. We were quite interested to hear the mayor say that he had had his first contact with Christianity when he heard Sherwood Eddy talk in our American Board church and then he had attended a Bible class there following that time. Shortly afterwards he attended Beloit College in the United States. But whether our influence had its faults, I don't know, but we do know that about fifteen years ago when he was official in Shantung he went through quite a time of anti-Christian activity. At any rate, it is quite interesting to see him taking another tack now, for he seems very friendly and it means that we can go ahead co-operating with the authorities. This is certainly not a time to do anything else when China needs every ounce of constructive effort anyone can give. His manager of ceremonies was a young woman who is his "foreign advisor," a member of the city council and an instructor at the National University. I've known her ever since she was one of our very bright girls in our school and so I got lots of "face" as she introduced her former teacher to her friends.

I want to take this way of thanking you all for your good letters and the many things you have sent me either personally or for use in our school. I got such a good stock of books that I still have plenty to last through the summer and my friends are enjoying them too. Our numerous magazines are being used in the library, being lent out to students and faculty. Some of you have sent us scholarship money and we have thus enabled some twenty-five girls to have their way paid. Other girls have been enabled to earn some of their expenses by answering telephones, working in the library, the laboratory, one girl does my mimeographing. Some of the girls who come from war areas, who have had no word from home for a year, have needed extra help. All these gifts have been a boon to us. Some money has gone into buying new lab equipment and new books for the library, for when you realize that our school has bought little new for ten years you can see why we are happy to be able to get some of the things we need.

One gift is enabling our nutrition class to carry on an experiment with six mice, feeding them varying amounts of corn bread and wheat bread, plus greens of cabbage and spinach, eggs, etc. Some get sun and others none. Of course if the government would do something to bring down prices, that might be the most effective way of helping but still we need to think up lots of ways of dramatizing the values of proper nutrition.

The Minnesota women have helped us in a very pathetic case which came to us recently. When our laundress came to us we thought she was a very peppy young girl. Her husband was in the army sending her no money and she had a five-year-old son to support. When we sent her to the Health Center for a check-up we found she had T.B. The doctor recommended she go to the sanitarium at \$320,000 a month, and

she was earning \$150,000 a month. Of course she was floored. She said she could borrow \$80,000 and her mother would care for the child. The doctor said she was a hopeful case for she was cooperative and intelligent, and he thought a few months might cure her. So I decided to use the \$50,000 from Minnesota women that had come out to me, which would cover a bit over two months. I had told the women I was using it for scholarships, but as it had not just gone to the committee I just changed and switched it over to this use. I'm sure you'll approve. The tragedy of this case is that it is just typical of thousands who have for these war years gone on living on undernourished rations. T.B. is certainly taking its toll. We can't begin to solve all these cases, but when they come into our home it is hard not to try to help in some way. We had hoped UNRRA could help, but they are closing up their relief work this month. They have done some excellent work among thousands of needy folks. But one of the great tragedies is that the effects of war suffering last more than a year or two after the war. And China still goes on fighting. And how tired the people are of war.

But life goes on here in our city. Spring has brought some warm weather and we no longer have to talk about the cold. We are even beginning to think of vacation although we may have to spend it here in Peiping if the train service stays as interrupted as it seems to do. But if I stay here I'll attend the Language School and brush up on my Chinese, get in some tennis and perhaps take out a swimming ticket at the Peking Club. I'll work in my garden and get some reading done that I've wanted to do during these busy days. So I'll enjoy life.

Sincerely,
Laura B. Cross

Service Mothers' Club Plans Annual Outing At Sunset Park

Members of the Highland Park Service Mothers' club are planning to hold their annual picnic at Sunset Park Wednesday, August 13.

Mrs. Brandt: "How many fish was it that you caught Saturday, Bill?"

Mr. Brandt: "Six, darling. Six big ones."

Mrs. Brandt: "I thought so. That fish market has made a mistake again. They've charged us for eight."

Fisherman want their fish FLAME BROILED. The hot soft, clean flame of Natural Gas is ideal for broiling—flame broiling seals the flavor in the fish. Ask your "fisherman".

A major league pitcher can throw a fast ball to the catcher in 3-10th, of a second. The new Natural Gas heats water faster—it is the champion fuel.

Alimony: The high cost of leaving.

Modern, Efficient Natural Gas heats water cheaper.
