Telephone linemen are hand-picked. A combination of skill, ruggedness and courage.

They specialize in tough jobs. They fight ice, wind, fire and flood. Sometimes, when storms destroy everything in their path and poles go down in a tangle of wood and wires, the linemen's job seems almost hopeless. But, somehow, their expert hands put them right again with almost incredible speed.

The lineman is one big reason why your service interruptions are few and far between... why we're able to bring service to more and more people all the time and constantly improve everyone's service.

This year, our linemen and their fellow workers are adding nearly half a million miles of wire to Illinois Bell's wire network... most of it in cable for better protection from the elements.
