American Cancer Society

The American Cancer Society has set a goal of twelve million dollars for their drive this month. They would like to raise \$1,150,000 in Illinois, \$765,000 in Chicago. This money would be put to good use in the following ways:
1. Research — Scientists will continue, with better equipment, their search for a cancer cure;
2. Education — Citizens will be trained to detect the signs of cancer, signs that can save lives;
3. Service — More hospitals, clinics, and detection centers to detect and treat cancer—with the methods now known (X-ray, radium, and surgery).
Here are a few facts worth remembering: Cancer is not believed

to be hereditary . . . There are no cancer free families . . . The basic cause of cancer and its cure can be found only through research . . . Without contributions there can be no American Cancer Society.
