... that YOU made possible!

100 years of service! We of the North Western are proud of this record; pleased to point to our growth from a few miles of strap-rail line with a single locomotive, to a 9,600-mile rail network serving nine states.

But we know well that the real credit for our progress must go to you, the traveler; the shipper, the farmer... to the generations in your family and community who had faith in this railroad, who stood with us through hard times and good in the realization that community development and good transportation go hand in hand. So in marking our 100th birthday, our thanks are to you—whose vision and assistance have made this event possible.
