

## Up To Now

BY BILL THOMAS

### LINDBERGH'S NEW BOOK

With the international scene growing daily more disheartening, certain excerpts from Charles A. Lindbergh's new book "Of Flight and Life," are particularly apt.

Most of us remember, or should remember, how Lindbergh's views were derided and his motives, even his patriotism, questioned when he expressed his views in those uncertain days before Pearl Harbor.

In his new book, he states, "I believed a conflict between English and German groups of nations would leave Europe prostrate, destroy her cities, kill her finest men, and dangerously increase the Soviet Government's strength. For five years, at home and abroad, I spoke, wrote and argued against a fratricidal war."

His fears have been largely realized. Europe is prostrate; many of her cities have been destroyed; many of her finest men have been killed; and it appears that we may learn, very presently, how dangerously the Soviet Government's strength has been increased.

We might do well to listen carefully, this time, to what Lindbergh has to say. The Lone Eagle says what he thinks. And his thinking is American.

### PRICES YET

It appears that another Highland Park project will fall victim to the present high price of having anything done by anybody. Instead of building four new bridges, the city fathers are checking on the costs of having the old ones repaired. Wonder how high prices will have to go before they reach the point where no one can afford to have anything done? And as for the price of food, Al Capp, with his "Shmoos," is the only one who has come up with the answer to that one.

### H. P. Hospital Head Inducted Into National Hospital Body

Carl C. Lamley, administrator of the Highland Park Hospital was inducted as a nominee of the American College of Hospital Administrators at the convocation held last week at Atlantic City, in connection with the Convention of American Hospital Association.

Membership in this group, which represents the top ranking hospital administrators in the country, is based on training experience and high standards of accomplishment in hospital administration. It should be gratifying to all Highland Parkers to know that the operating head of our own hospital has been accepted by this important professional organization.

Mr. Lamley was in Atlantic City last week attending the 50th Anniversary of the American Hospital Association, which brought together 10,000 hospital trustees, administrators and department heads from the United States, Canada and many foreign countries.

## RALLY FOR CHEST DRIVE MONDAY

### Kick-off Meeting Short; Brief Speeches

The 1948 Highland Park Community Chest Drive will officially open Monday evening with a "kick-off" rally for all workers at the Community Center, 549 Central Avenue. The meeting will start promptly at 8:00 o'clock. On the following day the campaign will swing into action and calls on every home in Highland Park will begin.

President Spencer R. Keare of the Highland Park Community Chest promises that the meeting will be short and snappy and all workers will be dismissed not later than 9:30.

The rally has been arranged by Herbert T. Schaffner, General Campaign Chairman, and Francis D. Weeks, Assistant General Chairman. The drive will be officially opened by President Spencer R. Keare, who will outline the general objectives of the campaign, which has as its goal the raising of \$63,000. This represents a 5 per cent increase over the 1947 budget, far less than the general rise in operating costs due to applying stringent economy measures to all budgets for beneficiary agencies.

District 1: J. R. Allen and Frederick Asher; District 2: Thos. H. Jolls and George Strecker; District 3: Martin Tarpey; District 4: Hugh Seyfarth and Harry J. Ziegler; District 5: Alfred Alschuler and Jos. Schonthal; District 6: Mason G. Armstrong; District 7: Alexander Freeman and Mrs. David Welch; District 8: Wm. Anspach, Charles C. Names of workers are listed below. These neighbors will ask your cooperation so that only one call per home will be necessary, and the drive may be wound up in characteristic Highland Park "over the top" fashion by the end of the week.
