Thrift Shop In Operation Since World War I

Strated during World War I, the thrift shop located at 35 N. Sheridan Road, has been operating ever since—always for charity. It is the only shop of its kind in Highland Park where all of the merchandise is donated and all the profits go to charity.

At the end of each month, the Thrift Shop board divides shop profits four ways—one fourth to each supporting organization, i.e. The Highland Park-Ravinia Infant Welfare, Northwestern University Settlement, the Highland Park Hospital Auxiliary—and the remaining fourth to other worthy organizations, and charities.

During the month of November the Family Service of Highland Park, the Boy Scouts and The Veterans Hospital at Downey, Ill. were remembered by the Thrift Shop Board. Two new scout troops have been added to the Boy Scout Organization—one sponsored by Immaculate Conception and the other by the American Legion, bringing the total number of troops in Highland Park to seven. Serving on the Thrift Shop

board are: Mrs. Francis Knight, president, assisted by Mrs. Edith M. Hadley, Jr. as vice-president; Mrs. Horace Vaile, secretary; Mrs. Jay Glidden, treasurer and Mrs. A. E. Patton, publicity. In July, 1946, the office of honorary second vice president was created and given to Mrs. Roswell Swazey in honor of her untiring devotion and help to the Thrift shop over a period of years.

Wouldn't it be fun to double-cross the weather on cold winter nights? You'd sleep right through without getting up to hunt for extra blankets or waking to pull one from the foot of the bed. With an electric blanket or comforter you can blissfully ignore the thermometer... open the windows wide and slip into a bed already warm.

Even mounds and mounds of ordinary blankets only insulate from the cold... but an electric blanket or comforter produces just the right amount of warmth no matter how the temperature shifts. You set the automatic control only once a season—from then on the electric blanket adjusts automatically to changing room temperatures.

You'll wake refreshed and relaxed. The weight of layers of covers is tiring... one electric blanket or comforter gives you warmth without weight. "Cold spots" are banished, too—your bed is sunny warm all over.

Lovely electric blankets and comforters launder and clean as beautifully as ordinary blankets or comforters. The only difference lies in having only one per bed to launder and store for the summer months—not three or four.

You've been promising yourself a really good night's sleep for a long time... do something about it today.

Go to your dealer or Public Service Company and get the details of real sleeping comfort.
