NATIONAL PRESS BUILDING WASHINGTON, D. C.

Summer's on the wane and how most of us anxiously look forward to cool Fall days! Meantime, there is always the exciting talk about Autumn fashions to pacify us. Biggest news to date seems to be advance Paris styles which feature straight and shorter skirts.

Grapes are on the plentiful food list for September. Serve as a fruit for breakfast or make a big luncheon or supper salad bowl beginning with crisp greens, then grapefruit and orange sections mixed with apple and banana slices. Top with small bunches of grapes. Serve with side bowl of dressing made of two parts French dressing blended with one part real mayonnaise.

Add to pet poison ivy cures this one recommended by the Dept. of Agriculture. Bathe affected areas with hot water as hot as the skin can stand. Many who have tried this remedy have had relief for several hours.

GROWTH OF POLIO CARE TEAM

1938 1949
Medical care for polio patients is costing the National Foundation for Infantile Paralysis more money than ever before—because better treatment is available today than formerly, as the accompanying chart reveals. Until 1938 when the National Foundation was formed, a physician and a nurse usually comprised the best available care. Today, modern polio treatment may include 13 specialized services, provided by an entire TEAM of professional workers. This expanded care has cost National Foundation Chapters millions in March of Dimes funds. More money is needed immediately to continue these services. Support the POLIO EPIDEMIC EMERGENCY DRIVE to help care for today's polio patients. Send your contribution now to POLIO, care of your local Post Office.
