# Obituaries

## Hicks

Last rites were held on Wednesday of this week at the Kelley-Spalding chapel for Lloyd Franklin Hicks, 406 Waukegan avenue, Highwood, who passed away suddenly the preceding Sunday.

Born in 1900 in Highwood, he had been for over 25 years a repairman for the North Shore Gas company. He was preceded in death ten years ago by his wife, Viola.

Surviving is a daughter, Mrs. Shirley Westgard, of Green Bay road, Highland Park, and a son, Donnie Hicks, aged 10.

Interment was made in the North Shore Garden of Memorials.

## Nelson

Funeral services will be conducted tomorrow (Friday) at 2 p.m., at the Kelley-Spalding chapel for William John Nelson, 1708 Broadview, who passed away on Wednesday at the Highland Park hospital after a two weeks' illness.

Born in Stanwood, Michigan, 60 years ago, he had lived in Highland Park since 1926. Retired, he had always worked for the Northwestern Ry. Reverend Laubenstein will officiate, and a Masonic service held.

He is survived by his widow, Agnes.

Interment will be made at Mt. Emblem cemetery, Elmhurst, Ill.

## They Are Looking Into the Future

Like their brothers in Scouting, they will be prepared for it because of the character-building and citizenship-training they get in Scouting—the world's great outdoor game for boys. Their manly strength comes from the Scout Oath and Law, their companionship with men of character, their merit badge plan, their camps and their chartered institutions which support their units.

With 2,300,000 fellow members of the Boy Scouts of America, they are celebrating the fortieth anniversary of the Movement this week. Since 1910 Scouting has served the nation by serving 16,500,000 boys and their leaders.

Scouting strengthens the America of tomorrow because it strengthens boys physically, mentally and morally today.

## HIGH SCHOOL—

(Continued from page One)

we would probably need another bus. The garage would have to be enlarged and work space added, as that is not adequate even at the present time.

Sandwich Hall is our latest addition to the plant. It was attached to the auto shop and is already too small. We find with the growth in this department that our work space is not adequate. The auto shop and machine shop are both too small. With 35 students, working in these two connected shops at the same time there is not only danger because of the crowding of machinery and work space, but such a condition is not conducive to good instruction, although there are always two instructors present. This building will have to be enlarged as soon as funds are available.

This building, like all others, does not have storage space for janitorial and teachers supplies. (Do you remember—the houses built around 1900 had only one closet on each floor and practically no cupboard space. Some of us have lived or are living in them and can understand.)

The Industrial Arts building is our best from a functional standpoint. The Home Economics department on the second floor is well housed and equipped and very attractive. It was remodeled three years ago into a functional program and is now considered one of the best in the country. It has attracted national attention and other schools are now modeling their departments after ours.

The first floor of this building is adequate at the present time. It houses the Art department, the Electrical Shop, and the Wood Shop. We have just made plans to tuck point the walls and repair the parapet walls. The only bad feature of this building is that the plaster is laid on tile. The work carried on in this building causes a great deal of vibration which loosens the plaster constantly, and makes continual repair work necessary.

This is only the beginning! We will tell you of other buildings later. We shall be glad to have you visit the buildings personally to see for yourselves the good and the bad.

## A Lecture On Christian Science

In a lecture on Christian Science given at the First Church of Christ, Scientist, of Highland Park, on January 24th, the lecturer, Elisabeth Carroll Scott, C.S.B. of Memphis, Tennessee, Member of the Board of Lectureship of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts, spoke substantially as follows:

In a world that has lost its bearings and finds itself perplexed and drifting, Christian Science, given to the world by its Discoverer, Founder, and Leader, Mary Baker Eddy, offers a well-charted course, a course which leads to a secure haven.

### Security Found Solely in God

In God alone can support and comfort and security be found—in God, as revealed in Christian Science, the changeless, the eternal, the beneficent. In the Christian Science textbook, "Science and Health with Key to the Scriptures," its author, Mary Baker Eddy, gives us certain synonyms for God. In her book "The First Church of Christ, Scientist, and Miscellany" she says (p. 225), "In their (Christian Scientists') textbook it is clearly stated that God is divine Principle and that His synonyms are Love, Truth, Life, Spirit, Mind, Soul, which combine as one."

Science and Health says (p. 332), "Father-Mother is the name for Deity, which indicates His tender relationship to His spiritual creation."

As we begin to understand the teaching of Christian Science that God is Father-Mother, the misconceptions of the carnal mind begin to disappear, and fear is lessened; for all our fears stem from the belief that we will not be taken care of, that our needs, physical, emotional, or financial, will not be supplied. The very term Father-Mother assures these fears, for the term Father-Mother implies love and care. It implies ever-present help and tender ministrations. Just as the word "creator" implies a creation and would be meaningless without it, so the term "Father-Mother," applied to the creator, tells us the character and nature of the eternal God. It shows us that He must of necessity have offspring, else He would not be Father, and since this Father is Mother also—is all that the words "divine Love" include—we realize that His child will not be neglected, nor will it become weak and helpless.

### Christian Science Reconciles All Things to God

Paul said, "All things are of God, who hath reconciled us to himself by Jesus Christ, and hath given to us the ministry of reconciliation" (II Cor. 5:18). This is the work of the Christ, to reconcile everything to God through the demonstration of the one Mind which is Love. It was the work which Jesus did so superbly; it is the work which he left us to do.

When men's unity with God is universally understood and demonstrated, all their problems will be solved, for he who loves God and is at one with Him will unflinchingly obey the Scriptural command to love his brother also; and where there is love, there is no need of human laws to protect or arms to defend.

Love is the key to happiness, our passport into the kingdom of God. Love is more than mere kindness, though those who reflect it must express kindness; it is more than mere affection or good will, though it includes both affection and good will; it is greater than any quality or series of qualities which go to make it up. It is the nature of the Holy One, the incomparable Father-Mother God.
