Citizens Committee

(Continued from page 1) against the School Board, we have kept our peace until a real issue was presented to the Voters.

"That time has now come, and we are out to give the Caucus candidates our undivided support. We believe in the principles by which highly qualified candidates are drafted for the School Board by the Caucus, which is composed of representatives from all of the school areas within the District. We do not want candidates who are committed to any group as to how they will vote on particular issues regardless of the circumstances existing at the time. Instead, we believe in electing honest, capable, respected citizens to the Board, and rely upon their judgment to decide the issues which come before the Board.

"The people in District 108 are extremely fortunate to have such men as Mr. Cushman, Mr. Fearing, and Mr. Foreman willing to serve upon the Board, just as we have been fortunate in having the services of those now on the Board. If we want to be able to call upon people of this caliber to serve on the Board; we owe them our undivided support, and this we propose to give them."

Other officers of the Citizen's Committee for Education are as follows: Vice President, Mrs. Leonard Davidow; Secretary, Mr. Kenneth Kraft; Treasurer, Mr. A. S. Alschuler, Jr.

The Policy Committee includes the following persons: David E. Wanger, Jr., Mrs. V. E. Lawrence, Elwood Hansmann, Wyatt Jacobs, Robert C. Brown, Jr., Alfred T. Sihler, Samuel R. Rosenthal, Albert Y. St. Petersburg, Florida, at the age of 80.

One of five brothers, he was preceded in death by Edward, Frank and James. Edward served, at one time, as a city official of Highland Park. His brother Will lives in Texas.

Ravinia Park

(Continued from page 1) few days. Total cost of the completed structure will be \$350,000. Architecturally simple and acoustically perfect, the new pavilion will provide a roof over 3,000 seats including the 1,000 free seats. The level roof will follow the fan shaped auditorium in outline and an overhang of 20 feet on all sides will give protection from rain.

Slender round steel columns supporting the canopy will be placed at the outer edge of the auditorium. At its widest point the fan shaped structure will be 240 feet, narrowing to 60 feet at the stage. The depth from the stage to the last seat is 140 feet. The ceiling will be higher than the former one; 25 feet from the floor at the rear and 37 feet at the stage.

The roof will be sound-proofed against the noise of rain by the space between its upper and lower sides. A ventilating system and illumination will be housed in this space, with semi-concealed pin-hole lights over the main auditorium. The cluster of decorative lights attached to the columns will give a soft reflected light on the under part of the canopy. Two wind and rain screens on either side of the stage will be made of redwood secured in metal frames.

A carefully worked out amplifier system will be installed to assure clear transmission of the music to the people seated in the surrounding unprotected areas. It is a unique method of synchronizing the amplifiers with the orchestra. A similar system has been used by radio broadcasting stations for some time, but this is the first time it has been applied to auditorium amplification.

Open Letter

(Continued from page 1) the school building program be deferred until a vote can be had on a consolidation plan, provided that such a vote be had promptly and before any presently unforeseen emergency develops which might require school building construction.

Turning to your third question, it seems to me the answer is self-evident. If a consolidated unit school district were approved by the voters, the only proper use, in my opinion, of the \$1,400,000 would be for building purposes of the consolidated unit district. Such building purposes would include the high school, if the school board of the consolidated unit district should decide the money should be so spent and if proper legal procedures are used to authorize the expenditure of the money for that purpose.

Going beyond your questions, I firmly believe, and, if elected, will insist, that the schools of District 108 be operated so as to give our children the best education we can afford, being ever mindful of the great and growing burden of taxation, both local and federal.

Dad's Get-Together

(Continued from page 1) upperclassmen. Parties in homes after a dance should close in time to permit underclassmen to be at home by 1 o'clock and upper classmen by 1:30.

In addition to a discussion of hours, which, as it was pointed out, even colleges and universities commonly regulate, the fathers also spent considerable time discussing parties held in the homes. The general opinion reached was that parties should be by invitation only, with the parents assisting in limiting the attendance to only those invited. Open House parties should be discouraged, since they tend to promote or invite "party crashing." The assistance of all parents to help in the suppression of "crashing" by all reasonable means was suggested.

The meeting was supposed to be the last meeting of the Dads this year, but because of the interest aroused and other problems that were not even touched upon, another meeting has been planned for Tuesday evening, April 25, in the English club room of the high school. All Dads of high school students are invited to attend.

Voters' League

(Continued from page 1) the established facts of the school situation.

In the absence of a reply from Robert Cushman, a candidate for the presidency of the School Board, to the League's query as to his stand on the school issues, and in view of what the League considers unsatisfactory replies from two other candidates for Board membership, the meeting approved the solicitation of additional candidates who will aggressively carry out the recommendations of Dr. Linn, Warner reported.

To the Voters

(Continued from page 1) District 108 greatly exceeds that of any of the other districts as may be seen in the following tabulation:

	Bonded	Unbonded
Diat. No.	ness - June - 1949	
113 (High School)	\$ 80,000	
106 (Bannockburn)	28,000	
107 (Highland Park)	250,000	
108 (Highland Park)	1,954,000	
	(Unexpended \$1,400,000)	
109 (Deerfield)	319,000	
110 (Wilmot)	78,000	
111 (Highwood)	284,000	
	\$2,993,000	

We do not feel it is reasonable to expect the home owners in other school districts to vote for consolidation UNTIL the school board of district 108 takes measures to reduce the tax levy for the intermediate school.

Unfortunately, the specific steps necessary to accomplish this objective have not been taken by your present school board. (In our subsequent reports we will acquaint the tax payer with possible procedures.) Tax bills which you will shortly receive will, therefore, include an assessment of \$68,824 for the non-existent intermediate school. Between now and 1962 this charge will gradually increase to \$119,744!

In view of the fact that consolidation is the most important civic problem facing Highland Park today, we recommend that a special citizens' committee be appointed consisting of representatives from each of the school boards, P.T.A.'s, and all interested civic groups in order that a chairman satisfactory to all may be selected and that full discussion may be entered upon to produce a formula which will make consolidation mutually advantageous to the several districts.

Raymond Warner, Chairman The District 108 Voters' League
