(Continued from page 1)

Marion Avenue, Highland Park. Gordon E. Clavey, candidate for Member of the Board of Education

Gordon E. Clavey is president of the Elmer Clavey Nurseries, Incorporated, one of the largest nursery and landscaping firms in northern Illinois, and with offices at Skokie and Clavey Roads.

He is a member of one of Highland Park's oldest families. He is a graduate of Highland Park High School and attended Notre Dame University and the University of Illinois.

At the outbreak of the war, Clavey enlisted and served with distinction in the European theater and in the African invasion. He is a past commander of the Highland Park Veterans' Memorial Post and is active as both an organizer and leader in civic and veterans' affairs.

Clavey is a member of the local Park Board and in that capacity has done much to protect the interests of the schools where problems have arisen affecting school use of Park property, and in similar matters.

His knowledge and experience would make available on the School Board an ability not now accessible except when engaged or contracted for.

Clavey has an extensive knowledge of Highland Park and a very wide acquaintanceship. He is highly representative of the younger generation whose children are just commencing to enter the elementary schools.

Clavey resides at 2041 Clavey Road.

Raymond C. Warner, candidate for Member of the Board of Education

Raymond C. Warner is vice-president of the M. H. Detrick Company, one of the nation's largest engineering and construction companies, with whom he has been associated almost thirty years.

He is a graduate of Cornell University where he received his M. E. Degree, and his extensive knowledge of engineering, construction, and costs would be an invaluable asset to the School Board, which is at present without benefit of such expert advice and counsel.

Warner was one of the first to question both the need and the cost of the proposed \$1,400,000 intermediate school. It was largely through his efforts that the program for a petition requesting delay for study was accomplished, which resulted in the survey verifying the lack of need for the school, and in the announcement of postponement by the School Board.

In the number of years that he has resided in Highland Park, Warner has taken an active interest in, and has been an enthusiastic supporter of, youth activities and programs.

He is a member of the Trinity Episcopal Church and resides at 735 S. Sheridan Road with his wife and two sons.

If this were to happen, Allen continued, the proponents of separation would be in a position to re-initiate the proceedings and the issue would again be presented to the County Superintendent of Schools for ultimate decision. When interviewed by the Association, Allen said, Petty stated that both Highland Park and Lake Forest were wealthy and that as far as he was concerned, if Lake Forest wishes separation, they should have it, as the severed Highland Park segment, because of its wealth, would be able to get along. Petty's attitude left little doubt in the minds of the Association's interviewers, he added, that if again presented to him, Petty would again approve the separation.

Under the circumstances, according to Allen, and as the County Superintendent would probably be presented with one or more similar problems within the next few years, the executive committee decided to throw its support to Williams. While Williams is not committed, Allen said, to more than a fair consideration of the issue on its merits, Williams not only has a fine record as Superintendent of the Beach Park Consolidated School District, but convinced the interviewers that he is well qualified for the post.

The Association made no recommendations for Democrats since Harold C. Kog is unopposed in that primary.

For State Superintendent of Public Instruction, the Association recommended that Republicans vote for the incumbent, Vernon L. Nickell, and Democrats vote for C. Hobart Engle of Cuba, Ill.

High School Students Anticipate Spring Sports

With the spring of the year rolling around, plans are being made for outdoor sports at the Highland Park high school.

The first meeting of the golf team will be held the first of next week or first of April, according to Harry Bolle, coach of the golf team.

Only one letterman is returning this year, and Mr. Bolle points out that we will be needing a lot of material to make a good team. Boys from the frosh-soph class are urged to come out and try for the team.

Rummage Sale To Aid Underprivileged Children

Mrs. Guy Finlay, Chariman of the Rummage Sale of the Ravinia Auxiliary to the Chicago Commons, reports all in readiness for the opening of the sale at the local YWCA Friday, March 31 from 9 until one o'clock. Articles of every kind, at especially low prices will be tastefully displayed. Plenty of saleswomen will be on hand, although every article will have its price tag plainly marked.

Interested members of the Community who have articles to contribute to this sale, will please leave them at the "Y" Thursday afternoon, March 30, or at Mrs. Finlay's home, 523 S. St. Johns Ave., or ask Mrs. Finlay, Tel. HI. 2-3596 to call for them. This sale is especially important to the Auxiliary, because its profits are used to send underprivileged children in one of Chicago's congested districts to the Commons Association Summer Camp near New Buffalo, Indiana, for an unforgettable two weeks' vacation in the cool woods.

Orders for the rings may be placed with most of the jewelry stores in Highland Park.

Open Letter

(Continued from page 1) thing about the information that was given me by Mr. Warner.

I was told that the dues of \$1.00 was to defray expenses—mailings, postage, etc. This seemed a little vague to me, so I further questioned Mr. Warner and finally asked if the money was going to be used as a "campaign fund," to which he answered "yes." This answer frankly astonished me—knowing that Mr. Warner is one of the candidates for membership on our District No. 108 School Board, along with Gordon E. Clavey, and Lorentz B. Knouff, who is running for president of the School Board—these three men making up what is apparently the District No. 108 Voters' League slate for the coming elections. I feel that it is too bad that a school board election in our relatively small and friendly community should have injected into it such an apparent political flavor. Also that, in order to carry on such a campaign, one faction decides to solicit campaign funds from the voters of the district in order to propagandize the district and try to get themselves elected.

While talking with Mr. Warner, I also took advantage of the opportunity to try to learn a little something about Mr. Lorentz B. Knouff, who is candidate for president of District No. 108 School Board. I had never heard of Mr. Knouff before and was therefore anxious to know something about him and his qualifications for the very important position of president of our School Board. I was amazed how little Mr. Warner himself apparently knew about Mr. Knouff. About all he could tell me was that Mr. Knouff was an attorney. Down Town with a prominent law firm that had had some experience with school work or activities. I asked him where in Highland Park Mr. Knouff lived—Mr. Warner could not tell me; he said that I could find his address by looking in the telephone directory. I asked if Mr. Knouff had any children in our schools—Mr. Warner did not know. Mind you—Mr. Warner and Mr. Knouff are on the same slate for positions on our School Board; Mr. Warner is chairman of the District No. 108 Voters' League, sponsoring Mr. Knouff, Mr. Clavey, and Mr. Warner, and still Mr. Warner was only able to tell me that my question regarding whether Mr. Knouff had children in our schools was a good one and he would have to find out.

An hour or two after my phone conversation with Mr. Warner, he very kindly called me back and informed me that Mr. Knouff had no children in our schools; also that Mr. Clavey had no children in our schools; also that he himself had no children in our schools at the present time. In my judgment, it is extremely important to all of us in District No. 108 that we have citizens of our community serve off our School Board who are genuinely interested in not only maintaining but improving our educational standards—not run the risk of having our standards deteriorate due to any possible influence on the part of individuals who may aspire to membership on our School Board where the paramount interest may be to cut costs and reduce taxes. The future of our community lies in our children—the highest kind of standards for their education must be our objective.

Sincerely yours, Horace F. Penney

H. P. Cindermen Drop Dual Practice Meet To Maine

By Bill Kiddle

As far as Highland Park's track team is concerned, you just can't beat Maine on their own indoor track, this was proven conclusively.

The "flying wings" of Maine outdid our high school thinly clad on the curves last Thursday and set both the varsity and frosh-soph down in defeat in their first dual meet.

Highland Park's varsity opened fast by garnering 13 of the possible 18 points in the hurdles and holding their own in the field events and the 50 yd. dash, but when it came to the running of the longer events around Maine's unfamiliar curves, the Blue and White were badly beaten.

The situation was much the same in the frosh-soph division, victories by "Big" Bob George in the high jump and Walt Benson in the shot were the only real bright spots in a rather dull performance.

Jack Brown of Maine's varsity played the part of "one man track team" as he garnered three record firsts in the 50 and 220 yd. dashes and the broad jump.

Coming Saturday, April 1, Highland Park will meet 40 of the State's best track teams at the annual Oak Park Relays. Coach Panther has entered Phil Dorough and Bob George in the high jump, Phil Watrous in the pole vault, and two relays, the varsity medley and freshman relay.
