If you dread those semi-annual visits to the dentist, cheer up. Someday you may have the cavities ground with a stream of abrasive particles rather than the old whirling drills. It's claimed this new method is practically painless with no vibration, noise or heat.

Let us forget. Throwing the cooking water from vegetables down the drain is actually throwing money away. There are precious vitamins in that liquid which can be used later to flavor soups and gravies. Much smarter to take our vitamins that way than to buy them at the drug store.

White sauce has a lot more "character", you'll find, if you blend a third-cup of real mayonnaise with it just before serving. Try it in creamed potatoes, creamed soups, creamed tuna or eggs. And what it does for sauce over cauliflower, broccoli and asparagus is too good for words!

Close friends will be glad to hear it. To onion lovers, though, it is sad news. This year's onion crop is the lowest in seven years. Now don't start hoarding! Every person still has fifty pounds to cry over.

When your teen-age daughter complains that last year's sweaters don't go with her new corduroy skirt, here's your answer. Whether wool or nylon, all-purpose dye will change them to a harmonizing color. If she wants a pastel shade, use the new color remover and then tint it any hue her heart desires.

Did you know that dried fruit won't stick to the knife or grinder if it's sprinkled first with a little granulated sugar?
