Laundry with leisure . . . and modern automatic appliances!

Laundry day can be a lazy day . . . when you have modern automatic equipment to help you!

You'll whiz through washing when you have an automatic washing machine. No more tiresome feeding of clothes into a wringer . . . no more dipping them into several tubs to rinse them. A modern automatic washer goes through the whole operation for you, from sudsing to rinsing to spinning . . . while you're doing the breakfast dishes or catching up on the morning newspaper.

The next step in any modern home laundry is to toss the clothes into the automatic dryer. Just take them from the spinner, put them in the dryer, and set the control. You'll take them out minutes later, damp-dry for ironing—or completely dry for storage. When you have an automatic dryer you can wash, rain or shine . . . day or night . . . and you'll be able to wash, dry, and iron the same morning.

Ironing is a snap, too, in a modern laundry. That's because the truly up-to-date household has an ironer for easy, sit-down ironing. You'll cut ironing time in half . . . and have better results . . . when you use one of the modern automatic ironers.

Ask about the modern automatic laundry appliances at your dealer's or our nearest store today!
