TO DEFEND THE NATION... ONCE AGAIN, Illinois Bell wires are humming with the vital calls of national defense. There are tanks, planes, ships and guns to build in ever mounting volume... troops to move... urgent orders to fill. These activities get started by telephone—keep going by telephone—move faster by telephone. Illinois Bell is rushing cable, switchboards and other equipment into defense plants, into mushrooming industrial communities, into Great Lakes, Fort Sheridan and the Glenview Air Base, into this area's highly efficient civil defense and air raid warning systems. TO PROTECT YOUR HOME... Good telephone service must be provided on the "home front," too—with a priority second only to national defense. Twelve million calls a day are made over Illinois Bell telephones. Among them are calls for doctors, calls for fire or police aid, calls that protect lives or property and calls that help millions in the everyday process of living. In Chicago alone, Illinois Bell operators handle over 1,000 emergency calls a week. Telephone service must be ready for every emergency Never before has good telephone service been so valuable and so important to you and to the nation. It must be kept strong. It must always be ready to serve through the trying days ahead. Vital to a Strong America ILLINOIS BELL TELEPHONE COMPANY
