**Bible Contains Key To Peace, MacRae Holds**

A durable peace and a righteous government of the nations of the world must be established squarely on spiritual foundations, said Harry B. MacRae of Dallas, Tex., in a Christian Science lecture in Deerfield, May 1st.

Mr. MacRae, now on extended lecture tour, spoke under auspices of First Church of Christ Scientist of Highland Park in the Deerfield School, Deerfield, on the subject "Christian Science, Bringer of Peace." He is a member of The Christian Science Board of Lectureship.

Plunging beneath the merely human aspects of peace, Mr. MacRae traced it directly to a spiritual origin and said peace is derived from God.

Peace, he said, characterizes the divine Mind or God, who in reality made and governs all. Because of this, peace is also a quality of God's perfect child, man—and cannot be separated from man's true being. The way to find individual peace, as well as peace in collective human affairs, he added, lies in each individual coming to know God better and understanding the nature of man as His image and likeness.

He granted that peace, when viewed merely as a material condition, is fragile and fleeting. But a spiritual sense of peace—grounded in the clear understanding of God and man in His likeness, as taught in Christian Science—can conquer trouble of all kinds and bestow marvelous blessings, he told the attentive audience.

Mr. MacRae reported that this mental approach to peace had made it possible for many people to surmount difficulties, restore health, and realize whatever was needed to destroy discord and bring them peace.

"Thoroughly verified testimonies in the Christian Science periodicals have told of men at sea who have experienced divine protection through their understanding of God's ever-presence gained in Christian Science," said the lecturer. "Others have told of similar protection that was theirs during fierce battles of World War II. One testimony related the miraculous escape of a group of campers from a forest fire which had completely surrounded them."

Mr. MacRae also told how a friend of his was restored to health by Christian Science when in the last stages of consumption, after medical hope had been given up. He also told of a man and his wife who were able, with the help of Christian Science, to win their way to enduring peace and prosperity after their large financial holdings had been virtually wiped out in the 1929 crash.

How a true understanding of God and man can transform one's whole life was proved by Mary Baker Eddy, the Discoverer and Founder of Christian Science, said Mr. MacRae, in 1866 when she discovered Christian Science. He said this occurred as result of her prompt recovery—following a "clear revelation of the spiritual meaning of the Bible"—from the serious effects of an accident which neither medicine nor surgery could reach.

Mr. MacRae recalled how Christ Jesus calmed the storm on the Galilean sea through knowing "the spiritual reality that man, including the universe, expresses the all-embracing, all-pervading, infinite presence of the one divine Mind, God, alone; that the belief of a destructive storm could not be included in this perfect expression of harmony."

By understanding the true spiritual nature of God and man, it is possible to prove, he said, that well-being and safety are not dependent upon frail mortal foundations but upon the divine fact that man is at one with infinite, divine Mind, God.

In the perfect concept of man as the perfect idea of divine Principle, Love, "there can be no fear, no disease, no destructive environments, such as storms, no destructive elements, such as atomic radiation, and no dearth of supply," he said.

**B. P. W. Club Announces Winners In Essay Contest**

Miss Dorothy Teare, Chairman of the Vocational and Educational Committee of the North Shore Business and Professional Woman's Club, has announced the winners of the essay contest sponsored by the Club.

These girls, all students of the Highland Park High School, will be presented their awards and introduced to the Club members at a dinner meeting on Thursday, May 17, at the Winnetka Community House.

Patty Hunt, with her essay entitled "Acting as a Vocation" was awarded first place; Roxie Harris received the second-place award and wrote on the subject "Emotional Appeal in Advertising"; Janice Tupper is the third finalist and her subject was "The Department Store Buyer."

The club members who gave a great deal of time and thought to the judging of the essays were Miss Flo Bowman, Miss Ruth Goss, and Miss Bertha Mann. They unanimously approved the selection of two more essays as deserving of Honorable Mention—one written by Aimee Lou Drew on "Public Health Nursing" and the other, "Radio Announcing" written by Grace Ritow.

This project is another feature of the program of the North Shore B. P. W. Club in the establishment of an effective link with every part of community enterprise.

**Noted Author To Speak For North Shore B. P. W. Club**

The May 17 meeting of the North Shore Business and Professional Woman's Club is to be especially interesting and challenging, Miss Ruth Goss, Chairman of the Program Committee, announces.

Mrs. Audley E. Harnsberger (Caroline Thomas Harnsberger) of Winnetka, with her wide scope of experience and her score of interests, will bring to the Club the story of "Humor—What It Can Do For Us."

Mrs. Harnsberger is, indeed, well equipped to speak on such a subject. Although she was a student of the violin for a number of years and played with the Chicago Women's Symphony Orchestra for seven years, she later turned her talents from the musical score to words, and is the author of the widely-read anthology "Mark Twain at your Finger Tips." After that success, Mrs. Harnsberger chose another of her father's heroes as her subject and gave the reading public the "Lincoln Treasury." She also has the distinction of having been photographed with the cross-grained George Bernard Shaw.

Added to her music and writing, Mrs. Harnsberger also paints, pilots her own plane, and leads a busy life caring for her husband, and three children. It is with much pleasure that the members of the B.P.W. Club anticipate this evening.
